**The Major Track:** Microbiology is an exciting area with challenging frontiers that include genetic engineering, cancer research, cellular mechanisms of infection, basic research in cell and molecular biology, and microbial ecology. Students selecting to major in this program today apply new technical approaches such as gene cloning, electron microscopy, and computer technology, to bacteria, viruses, algae, protozoa, fungi, and to animal and plant cells.

**Career Options:** A BS in Microbiology prepares a person for working at the bench in a number of areas, including: some hospital laboratories, the federal government (EPA, FDA, USDA) and industry. It is also an excellent basic foundation for graduate school and for professional schools, like dental school, medical school, veterinary school and podiatry school.

**Transfer out of UC:** Must have completed at least 24 credits, minimum GPA of 2.00, and received permission from the UC major advisor.

The following is an example of the typical course schedule for the first 4 semesters for a student majoring in Microbiology. These are recommended course selections for CMB majors in University College; there will be variation based on course availability and schedule restraints. Some classes are not offered every semester. It is important to plan ahead and consult with your advisor to allow yourself time to enroll in the classes you wish to take.

**General Education (38 credits):** All Category MQ (Mathematical & Quantitative Reasoning) and N (Natural Sciences) General Education requirements (11 cr.) are satisfied by courses taken as part of the major. Thus, to satisfy URI’s General Education requirements, CMB students should take COM 100, WRT 104/105 or 106, 6 cr. in Category S (Social Sciences), and only 15 credits of General Education courses from Category A (Fine Arts & Literature), L (Letters), or F (Foreign Language/Culture). See the URI Course Catalog (also on the web at http://www.uri.edu/catalog/catalog.html/index.html) for a listing of all General Education courses.

**Introductory Concentration Course (4 credits):**
- MIC211 Intro Microbiology

**Basic Sciences (44 credits) - 11 credits applicable to General Education:**
- BIO 101/103 Principles of Biology I
- BIO 102/104 Principles of Biology II
- BIO 352 Genetics
- CHM 101, 102 General Chemistry I, Lab
- CHM 112, 114 General Chemistry II, Lab
- CHM 226 Organic Chemistry Lab
- CHM 227 Organic Chemistry I
- CHM 228 Organic Chemistry II
- MTH 111 or 132 or 142 Pre-calculus or Applied Calculus II or Intermediate Calculus with Analytic Geometry
- MTH 131 or 141 Applied Calculus or Introductory Calculus with Analytic Geometry
- PHY 111, 185 General Physics I, Lab
- PHY 112, 186 General Physics II, Lab

**Concentration (26 credits):**
- MIC 333 Immunology and Serology
- MIC413 Advanced Microbiology I
- MIC414 Advanced Microbiology II
- MIC415 Advanced Microbiology I, Lab
- MIC416 Advanced Microbiology II, Lab
- MIC Electives (12 credits)

**Free Electives (18 credits)**
You may take 18 credits of your choice.
