**Human Resource System:**
MANAGING DEPT RESOURCES

- Identify all sources designated for the dept and the purpose of each funding source and possible restrictions (e.g. Foundation funds for an endowed chair)
  - Some CFS’s may have balances from prior year
  - Meet with the previous chair
  - Meet with your College Business Manager
  - Meet with your Dean/Associate Dean
  - Contact the Budget & Financial Planning Office
• March – All day meeting with Deans
  Deans highlight
  ➢ Unit’s mission
  ➢ Relationship between unit’s plan and overall University priorities
  ➢ Summary of unit investment strategies and areas of reduction if necessary
• Ensure transparency across unit. Provide informational basis to encourage cross unit collaboration in education, research, outreach and administrative functions.
• Faculty Senate Leadership Participates
COLLEGE BUDGET HEARINGS

- STRATEGICALLY PLAN AND MANAGE ACADEMIC AFFAIRS
- April – Individual meetings with Deans
  - Narrative with strategic priorities for the new year
  - Review and discussion including:
    - Student data
    - TT Faculty
    - Lecturers
    - Per Course Lecturers
    - Budgets and Actuals
    - Lowest funded item(s)
    - Balances in non-fund 100 accounts
Individual College Budget Hearings

- Maximization of teaching/learning & co-curricular activities and research/scholarship activities
- Significant and very high level of focus on highest strategic priorities in colleges/units
- Continue efforts to relate vision, strategic planning and budget processes in Academic affairs to the University’s strategic priorities and budget
- Follow basic budget process and budget principles used for four years
The principles displayed in the next seven slides apply to the management, allocation, and investment of general revenue funds including funds derived from State Appropriation and tuition and fees. These principles apply to budget increments and decrements. While there may be occasional justifiable exceptions relative to the management, allocation, and investment of non-general fund revenues, these principles should also apply to all university and unit budgeting and fund allocations.
1. For a budgeting process to be strategic institutional strategic priorities must influence resource allocation and resource allocations must represent investments in priorities and essential programs. As such, the budget becomes a visible manifestation of academic priorities and strategic plan.
2. For budgets to be sustainable, revenue potential and costs over time must coincide, and mechanisms are needed to ensure budget stability, despite annual increases in costs associated with salaries and benefits of personnel. Centralized budget recovery mechanisms need to be established to adjust budgets and create potential for reallocation. Capturing funds associated with vacated positions is one such mechanism and is preferable to annual budget recovery (usually 1, 3, or 5% recovery) approaches.
3. Funds and lines associated with vacated positions (retirements and departures) will be recaptured centrally and strategically allocated, in most cases, at entry level salary. Lines vacated because of denied tenure decisions will remain in the college/unit, but should be used to fill priority needs in concert with the strategic plan of the college.

4. Investments in new initiatives within units should include non-central resources from the units or internal reallocations. Central co-investment reflects mutual support of programs.
5. Resource allocations, including new and replacement positions and both increments and decrements, will be guided by unit performance, which will consider unit productivity, cost-effectiveness, and innovation as well as strategic priority and the specific role of the position. Across-the-board budget alterations will usually be avoided. Indicator metrics for these variables will be defined and unit targets may need to be established because different units may have different productivity measures.
6. The budget process needs to be relatively simple (i.e., based on a few understandable metrics), consistent, and transparent and should ensure an open mechanism of communication between the responsible unit (e.g., colleges), budget managers, and departments and faculty within units.
7. An effective budget process encourages innovation and efficiency, and aligns incentives for behavior in support of strategic priorities, productivity, and cost effectiveness.

8. A formalized budget process, including annual submission of a budget document and a budget hearing, will ensure that budget needs and requests from all units reflect unit priorities broadly, are considered at the same time, and reflect a multi-year budget planning horizon within units.
9. Once allocations are made, units are expected to operate within the framework and constraints of their annual budget, unless emergency situations (e.g., midyear state appropriations reductions, sudden dramatic enrollment shifts, etc.) occur during the year.

10. If possible within financial constraints, the Provost should maintain a contingency fund to be used for budget protection and/or for short-term strategic investment.
