

SEED STARTING IN THE CLASSROOM WORKSHOP

Saturday, 4/2/2016, Sessions 9:00 am - 10:30 am or 11:00 am - 12:30 pm

Roger Williams Park Botanical Center, Providence, R.I., Greenhouse Classroom 3

To register (space is limited): email rwpbotanicalwelcomecenter@gmail.com

Do you have a school garden, large or small? Learn how to start your very own vegetable and flower seedlings indoors in the classroom with your students. This is a great opportunity to achieve Next Generation Science Standards and jump start your outdoor classroom! This course, offered free to formal and non-formal educators, is taught by two experienced seed starters -

URI Master Gardeners, Sue Scotti and Val Wharton.

***Bonus:** bring a soil sample for FREE pH soil testing. We'll have URI Master Gardeners on hand from 11 am - 2pm testing soil and answering gardening questions!
