

Finding Those Sometimes Elusive Affordable Course Materials

*with Lindsey Gumb
Instructional Technology Librarian, RWU*

College is expensive. But as a faculty member, you don't need to add to that expense. There are high-quality, affordable or open source materials (textbooks, teaching aids, audiovisual materials) available for your course, and Lindsey Gumb, Instructional Technology Librarian at Roger Williams University, can help you find them. In this hands-on workshop, Lindsey will guide you through the process of searching some of the major repositories of these materials.

Wednesday, November 15th

3 – 4 pm
