## URI-Specific WordPress User Roles and Capabilities Summary

### Summary of Roles
- WordPress uses a concept of roles, designed to give the site owner the ability to control what users can and cannot do within the site.
- The goal is to assign users the minimum permission required to get their job done.
- New user registration is disabled.
- List of roles include:
  - Super Admin
  - Webmaster
  - Webeditor
  - Author
  - Contributor
  - Subscriber

### Super Admin
Multisite Super Admins have all capabilities defined for Webmaster, Webeditor, Author, and Contributor, PLUS the following network-wide options:
- manage_network
- manage_sites
- manage_network_users
- manage_network_themes
- manage_network_options

### Webmaster
The Webmaster role limits the allowed tasks only to a single site. Its capabilities include:
- delete_others_pages
- delete_others_posts
- delete_pages
