Professor K. (Cheena) Srinivasan is on the faculty of the Department of Mechanical and Aerospace Engineering at The Ohio State University and served previously as department chairperson from 2000 to 2012. His research and teaching interests are in the areas of modeling and control of dynamic systems, including applications to automatic transmissions in automobiles, and manufacturing processes and machines. His research has been funded by government agencies including the National Science Foundation, the National Institute of Standards and Technology, Office of Naval Research, and private industry.

Professor Srinivasan is a Fellow of the American Society of Mechanical Engineers and the Society of Manufacturing Engineers.
