Kirsten Davis is a doctoral candidate in the Department of Engineering Education at Virginia Tech, where she also completed her master's degree in Higher Education. She is the graduate assistant for the Rising Sophomore Abroad Program, a global engineering course and study abroad program for first year engineering students. Her primary research focuses on the design and assessment of global engineering programs, but she also studies the development of systems thinking and innovative thinking skills in engineering students.

Before returning to graduate school, Kirsten worked as a project manager and analytics engineer in the transportation industry.
