## **ABOUT THE BS in MEDICAL LABORATORY SCIENCE:**

The Medical Laboratory Science major is concerned with the diagnosis, treatment, and prevention of disease using analytical methods in the clinical laboratory. The clinical program includes lecture and laboratory instruction in clinical chemistry, clinical microbiology, hematology, immunology, immunohematology and molecular pathology, and prepares the student for the national certification examinations and state licensure. web.uri.edu/cmb/academics/medical-laboratory-science-b-s/

<sup>\*</sup>Course approved for general education.

Effective: 2024-2025

<sup>\*\*</sup>Important Note: The senior year Clinical Intensive Program (MLS 405-451) has limited placements and acceptance is competitive. Application to the MLS admissions committee occurs at the beginning of the junior year; a minimum overall GPA and math/science GPA of ≥2.5 is required to be considered for the application process. The actual minimal GPA required for acceptance may be higher than 2.5; it is dependent upon the number of applicants and the number of Clinical Intensive Program placements. Students who do not meet the minimum 2.5 requirement to apply, or who are not accepted into the Clinical Intensive Program are advised to meet with an academic or professional advisor to determine a new course of study.
