General Education Guidelines: General education is 40 credits. Each of the twelve outcomes (A1-D1) must be met by at least 3 credits. A single course may meet more than one outcome, but cannot be double counted towards the 40 credit total. At least one course must be a Grand Challenge (G). No more than twelve credits can have the same course code (note- HPR courses may have more than 12 credits). General education courses may also be used to meet requirements of the major or minor when appropriate.

LIST COURSES THAT MEET GENERAL EDUCATION:

General Education Credit Count						
At least 40 credits, no more than 12 credits with the same course code

ABOUT THE BS in WILDLIFE & CONSERVATION BIOLOGY:

The WCB curriculum combines a grounding in natural sciences with the interdisciplinary training needed to manage wildlife populations and their habitats. We emphasize hands-on approaches and practical training through internships and independent study, preparing our students to effectively communicate and translate their knowledge to solve real-world problems. This major fulfills the educational requirements for employment as a ****Federal Wildlife Biologist**, certification as an ****Associate Wildlife Biologist** by The Wildlife Society, and provides an excellent foundation for graduate school. web.uri.edu/nrs/wildlife-and-conservation-biology/
