## ABOUT THE PHYSICS AND PHYSICAL OCEANOGRAPHY DEGREE:

The BS in Physics and Physical Oceanography program is unique in the entire United States. It is jointly offered by the Physics Department and the Graduate School of Oceanography. Students in this program are optimally prepared for graduate studies in oceanography.

## STEP 1:

It is recommended that students planning to attend an oceanography graduate school take PHY 520: Classical Dynamics. Students wishing to keep open the options of physics at the graduate level should take PHY 452: Quantum Mechanics.

Please note: Both major and cumulative GPA must be $\mathbf{2 . 0 0}$ or higher in order to graduate.

GENERAL EDUCATION GUIDELINES: General education is 40 credits. Each of the twelve outcomes (A1-D1) must be met by at least 3 credits. A single course may meet more than one outcome, but cannot be double counted towards the 40 credit total. At least one course must be a Grand Challenge (G). No more than twelve credits can have the same course code (note- HPR courses may have more than 12 credits). General education courses may also be used to meet requirements of the major or minor when appropriate.
