**Session Descriptions**
30 Second Elevator Pitch
Imagine you’re riding the elevator and when it stops on the 3rd floor, the CEO of your dream organization steps in. What would you say? Crafting your 30-second elevator pitch will help you feel prepared for surprise situations, developing your brand, and building the foundation of your networking skills.

Balancing Career & Healthy Habits
Want to understand how to have a great work/life balance? In this workshop, you’ll explore a variety of strategies to manage stress and self-care, and leave with a personal self-care plan.

Career Closet: Fashion Show
That new hat or strappy sandal may be perfect on a night out, but is not the best choice at a job interview. Learn the fashion do’s and don’ts for professional attire and how to dress to impress!

Create a Cover Letter
The cover letter is a crucial part of the application process. While a perfect cover letter won’t necessarily get you a job, a poorly written cover letter will certainly keep you from getting an interview. While it may seem like a lot of work, it is imperative that each letter is tailored to the individual position to which you are applying. Attend this workshop to discover important cover letter writing tips and learn where to begin!

Finance Your Future
You’ve got a job offer! Congratulations! Before you accept: have you considered cost of living in that area? Do you know what your expenses will be in comparison to what you’ll be making? Will you still be able to afford brunch while paying off student loans? Creating a personal budget is #1 in the list of #adulting rules. Find out how to start at this workshop.

Did you know that if you negotiate an extra $5,000 when you start your first job that will turn into at least an additional $250,000 in lifetime earnings? And that’s based on a moderate salary.
