College of the Environment & Life Sciences Graduation Checklist

This graduation checklist must be completed and turned in with your Intent to Graduate Application.

- Major curriculum sheet** - I will register for all of my remaining classes. I have listed all the courses I have taken and will take to complete all of the requirements on the curriculum sheet. I will attach my completed curriculum sheet to my graduation application.
- Duplicate credits** - I have checked my transcript for any classes I repeated. I understand that I cannot use repeated course credits toward graduation requirements unless specified in the catalog. I understand these credits may be removed from my transcript before degree conferral.
- Total credits required** - I have checked my transcript to ensure that I will have completed the **120** total credits required for graduation.
- Required courses** - I have checked my transcript to ensure that I will have the minimum number of concentration credits and supporting electives required for my major.
- General education courses** - I have filled in the gen-ed courses (e.g., ENG 243) on my curriculum sheet with faculty senate approved courses from the general education website: <https://web.uri.edu/general-education/general-education-course-list/>.
- Minor/Undergraduate Certificate forms**- I have attached all approved minor and undergraduate certificate forms.
- Course waiver/modification forms** - I have completed and attached all approved waivers and or modifications.
- BA students only** - I have checked my transcript to ensure that I will have completed 42 credits of 300/400-level classes before graduation.
- 2.0 Concentration/Cumulative GPA** - I understand that I need a 2.0 or higher in both my Concentration and Cumulative GPA in order to graduate.
- Transfer Credits** - I understand that if I choose to take classes at another institution, I am responsible for requesting that a transcript of those classes be sent to the CELS Office of Academic and Student affairs. I also understand that if the transcript does not arrive before degree conferrals take place, I may be moved to a later graduation date.
- Change of Grades** - I have checked my transcript for Incomplete and NW grades. I understand that if I choose to complete these classes, it is my responsibility to contact the professor. I understand that grade changes must be received before degree conferrals take place or I may be moved to a later graduation date.
- I understand that if I turned in my Intent to Graduate Application into the Office of Academic Affairs later than the advertised deadline, my audit may be delayed.

By signing this form, I agree that I have read the above and that failure to comply with these terms may result in being moved to a later graduation date than the one for which I have applied.
