“For 129 years, the students, staff, and faculty have made, and will continue to make, the University of Rhode Island a force for good in America and the world. Our community embodies respect for higher learning, individual expression, and people of all backgrounds, and we hold these values foremost in our beliefs and actions.” —David M. Dooley

Dear Class of 2021,

As we cap an unprecedented academic year, during which we have been tested daily by an uncompromising virus, I have seen us come together to accomplish what at times seemed like the impossible. I am incredibly proud of how our graduating class has responded to this crisis. Your resilience, ingenuity, and courage during this difficult period have earned you a special place in the great history of the University of Rhode Island.

The COVID-19 pandemic has challenged all of us, forcing us to reevaluate everything we do—even our simplest interactions with friends and colleagues. We fell back on our strengths as a diverse and dynamic community so we could resume an in-person experience that started in the fall of 2020 and concludes in this celebration today.

It was the teamwork of faculty and staff who devised and executed the plan to get us through the pandemic together. In a few months, we rolled out a testing program that helped us limit the spread of COVID-19 on campus. We reshaped education, building a structure to safely deliver thousands of courses to about 17,000 students, while at the same time planting the seeds for the classrooms of the future.

But it was your commitment to follow health guidelines and your determination to finish your degrees that brought you here.

Today as you walk across the stage, do not let the pandemic mask the joy you have experienced on our beautiful campus. The foundation you have built has prepared you to join the innovators and architects of an inclusive, vibrant, sustainable future for Rhode Island, the nation, and the world. Congratulations to the University of Rhode Island’s Class of 2021!

Sincerely,

David M. Dooley
President, University of Rhode Island
ALMA MATER

All hail to thee, Rhode Island,
We pledge our faith anew,
While our heroes bring thee honor
With our banner of white and blue.
In truth we owe her much, for she's shown us the way
To achieve and be of service to the world.
So all hail our Alma Mater,
Rhode Island, our guide whate'er we do.

We’ve been Thinking Big ever since a few people acted on a big idea more than 129 years ago. Foresight, perseverance, and integrity have been the foundations of the University since its very beginnings in 1888, when several South Kingstown residents, the South Kingstown Town Council, and the state of Rhode Island made a collective donation of $5,000 to purchase the 140-acre Oliver Watson Farm to establish a state agricultural school and experiment station.

In the decades since, the University has mourned its war dead, survived the Great Depression, been a part of the civil rights movement, participated in protests against wars, gun violence, and racial injustice, all while growing into a University with a global reach and broad impact in the state.

But the COVID-19 pandemic of the last year and a half, which at this writing has resulted in the deaths of nearly 600,000 people in the United States, may have tested the University’s resolve like nothing else in its history. As the news worsened around the country and the world in the spring of 2020, the University converted 3,000 in-person classes to online classes in about nine days. An unprecedented level of teamwork and nearly round-the-clock efforts allowed the University to return to an in-person experience in the fall of 2020. Through the commitment of students, faculty, and staff, the in-person experience continued throughout the spring 2021 semester and has allowed the University to hold in-person graduation ceremonies for the Class of 2021.

Faculty, staff, and students helped the community by making plastic face shields, delivering meals to needy seniors, sewing face coverings, and creating a just-in-time manufacturing center to convert sleep apnea machines into supplementary breathing machines. Students collected personal protective equipment for health-care workers, volunteered at vaccination sites, kept the campus informed on the latest developments, and cared for each other.

At this writing, URI approached 80,000 COVID-19 tests administered since January 2021, which was a key factor in keeping the in-person classes and other activities going throughout this academic year. The effort, led by Health Services, was bolstered by students, staff, and faculty across the University, who took time out of their schedules to volunteer at the testing sites.

Indeed, the University’s actions during the past year and a half only serve to validate the foresight of that small group of founders, the vision of President Abraham Lincoln, and the groundbreaking Morrill Land Grant Act of 1862, that education of the people and for the people was, and is, America’s and the world’s best hope for enduring prosperity and peace.

We became the Rhode Island College of Agriculture and Mechanic Arts in 1892, and we graduated our first 17 students in 1894. In 1951, we became the University of Rhode Island, and those 140 original acres have grown into a 1,200-acre Kingston Campus, plus the Feinstein Providence Campus, Narragansett Bay Campus, W. Alton Jones Campus, and the Rhode Island Nursing Education Center.

In 2017, the U.S. Department of the Interior designated the area around the Quadrangle as the University of Rhode Island Historic District, now part of the National Register of Historic Places.

Our colleges of nursing, pharmacy, business, engineering, arts and sciences, environment and life sciences, health sciences, and education and professional studies, and our Graduate School of Oceanography are signature centers of scholarship and research. More than 90 undergraduate and 73 graduate degree programs inspire our students and spark their creativity.

The University is known regionally and worldwide for its big ideas and pioneering research in such areas as air, water, ground pollution, and plastic pollution; biotechnology and life sciences; engineering, marine sciences, forensic sciences, neuroscience, pharmaceuticals, the behavioral sciences, and public health promotion.

Since 2006 the University has invested more than $1 billion in its facilities. In October 2019, more than 500 people celebrated the official opening of the Fascitelli Center for Advanced Engineering and the renovation and expansion of the College of Engineering’s historic home, Bliss Hall. Rhode Island voters approved $150 million in bond funding for the project.

In February 2020, we celebrated the completion of Brookside Hall, a 500-bed, 203,000-square-foot residence hall, and in March 2021, during a special election in the middle of the pandemic, Rhode Island voters again committed to public higher education by approving bond Question 1, which will provide $107.3 million for major renovation projects at the University of Rhode Island, Rhode Island College, and the Community College of Rhode Island. Of that total, $57.3 million is slated for continuing upgrades to URI’s Fine Arts Center, which will turn the facility into a showplace for its outstanding theater, music, and art students.

As another academic year draws to a close, our enrollment has grown to about 17,000 undergraduate and graduate students. URI has more than 136,000 alumni, with about 42 percent—more than 57,000—in Rhode Island. Of the overall total alumni, more than 133,000 live in the United States and just over 3,000 live in other countries around the world.

Dean E. Paul Larrat, presiding

6 p.m.  ENVIRONMENT AND LIFE SCIENCES
Dean John Kirby, presiding
Over the centuries, banners and flags have lent drama to public ceremonies, and the flags you see today represent the University, the history of the state, and some of the Rhode Island and international communities from which our students come. These flags help to deepen our sense of tradition and community history.

The backdrop for the Commencement Exercises consists of the banners of the 10 degree-granting colleges and schools that make up the University, as well as University College for Academic Success. Traditional colors of the academic disciplines have been used: Arts and Sciences, white and golden yellow; Business, drab; Education and Professional Studies, light blue; Engineering, orange; Environment and Life Sciences, maize; the Graduate School, blue and gold; Health Sciences, sage; Nursing, apricot; Oceanography, aqua; and Pharmacy, olive green.

The flags flying above Meade Stadium are associated with early Rhode Island history: the Flag Act of 1777 flag, Betsy Ross variation; the flag of the Battle of Rhode Island (1778); the Grand Union flag (1776); the 1st Rhode Island Regiment flag (1775); the Rhode Island Colony flag (1774); the Meteor flag (1707); the Union flag (1707); and the Red Ensign (1620 in New England).

The international flags remind us of the growing importance of cultural diversity, internationalization, and global awareness.

Academic dress has its origin in the colorful gowns and hoods of the Middle Ages. In the United States, a common code of academic dress was not adopted until 1895. This decreed three kinds of gowns and three hood lengths for bachelor’s, master’s, and doctoral degrees. Hoods are lined with the color or colors of the university conferring the degree and are bordered with a color representing the subject of study for which the degree is conferred.

Throughout the Commencement Exercises, one may see reflected the pomp and ceremony of a feudal society and the intricacies of the medieval art of heraldry—in the ritual, the dress, the ceremonial accoutrements, such as the University Mace, and in the wording of the degrees conferred.

UNIVERSITY MACE
The University Mace was donated by the graduating class of 1963. It is made of gold-plated sterling silver and is mounted on a 3-foot rosewood staff. The URI seal, 3 inches in diameter, crowns the staff, with a sketch of Davis Hall on the back. Davis is one of the University’s oldest buildings and is the site of the University bell tower.

PRESIDENTIAL MEDALLION
The medallion worn by the president was donated to the University as a 100th birthday gift by goldsmith and University of Rhode Island alumnus Robert C. Corio, Class of 1973. Of 18-karat gold and about the size of a half dollar, it is stamped with the University seal and is bordered by an elegant, rounded setting. The chain is made of small gold ovals linked together, each engraved with the name of a University president emeritus. Through the years, the name of each new president will be added to the medallion.

GONFALONS
Gonfalons are flags or banners, hung from crosspieces on poles, that have been used since medieval times as symbols of state or office and are now traditionally used by colleges and universities. The background of each college’s gonfalon is the official URI dark blue; the stripes on the gonfalons are the traditional colors of the academic disciplines.

2021 NATIONAL SCHOLARSHIPS

Some national scholarship programs are so prestigious that one can only apply if nominated by the University. This year, the following students and alumni have been recognized in such competitions:

Juniors Katelyn Dubois ’22 and Kaylee Goyette ’22 have been selected as 2021 Boren Scholars for Chinese study in Taiwan, and graduate student Adriana Wilding ’19, M.A. ’21, has been selected as a 2021 Boren Fellow for Turkish study in Azerbaijan. An initiative of the National Security Education Program (NSEP), the David L. Boren Awards provide funding opportunities for U.S. students to study less commonly taught languages in world regions critical to U.S. interests. In exchange for funding, Boren Scholars and Fellows commit to working in the federal government for at least one year after graduation.

Five URI students have been offered 2021 Fulbright U.S. Student Awards to study or conduct research abroad: recent graduate Zachary Smith ’20 (Taiwan), graduating seniors Jay Rumas ’21 (Slovak Republic) and Wila Matos ’21 (Brazil), graduate student Eliya Baron Lopez, M.A. ’21, (South Korea), and doctoral student Megan Jones, Ph.D. ’22, (Finland). Written into law by President Harry S. Truman in 1946, the Fulbright Program is the flagship international educational exchange program sponsored by the U.S. government.

Two juniors have been selected as 2021 Goldwater Scholars by the Barry Goldwater Scholarship and Excellence in Education Foundation: Raymond Turrisi ’22 and Myles Wagner ’22. Established by the U.S. Congress to foster and encourage outstanding students to pursue research careers in the fields of mathematics, sciences, and engineering, the Goldwater Scholarship is the premier undergraduate award of its type in these fields.

Jacob Cordeiro ’21 was selected as a finalist in the 2021 Truman Scholarship competition. The Harry S. Truman Scholarship Foundation recognizes college students with exceptional leadership potential who are committed to making a difference through careers in government, the nonprofit or advocacy sectors, education, or elsewhere in the public service.

* Indicates December 2020 graduate
HONORARY DEGREES

MONA HANNA-ATTISHA
Doctor of Science
Mona Hanna-Attisha, M.D., M.P.H., founder and director of the Michigan State University and Hurley Medical Center Children's Hospital Pediatric Public Health Initiative, was responsible for uncovering the water crisis in Flint, Michigan, which began in 2014 when the city—in a cost-saving move—switched its water supply from the Detroit system to the Flint River, resulting in toxic lead contamination and coinciding with outbreaks of Legionnaires' disease.

A pediatrician, scientist, and activist, Hanna-Attisha has testified twice before Congress, was awarded the Freedom of Expression Courage Award by PEN America, and was named one of Time magazine's 100 Most Influential People in the World. She has appeared on CNN, MSNBC, BBC, and countless other media outlets championing the cause of children in Flint and beyond. She is founding donor of the Flint Child Health and Development Fund.

Hanna-Attisha earned her bachelor's and master of public health degrees from the University of Michigan and her medical degree from Michigan State University College of Human Medicine. She is an associate professor of pediatrics and human development at MSU's College of Human Medicine.

Her bestselling book, What the Eyes Don't See: A Story of Crisis, Resistance, and Hope in an American City, is a riveting, beautifully rendered account of a disaster that became a tale of activism and hope, the story of a city that came together to fight for justice and the right to build a better world for their—and all of our—children.

LINDA S. BIRNBAUM
Doctor of Science
Linda S. Birnbaum, Ph.D., has exhibited bravery during a time when science, especially environmental science, has been marginalized. She is a pioneer, leader, researcher, and environmental health advocate.

Birnbaum is the former director of the National Institute of Environmental Health Sciences of the National Institutes of Health, and the National Toxicology Program. A board-certified toxicologist, she served as a federal scientist for 40 years, and was granted scientist emeritus status when she retired. Birnbaum spent 19 years at the U.S. Environmental Protection Agency, where she directed the largest division focusing on environmental health research.

In 2016, Birnbaum was awarded the North Carolina Award in Science. She was elected to the Institute of Medicine of the National Academies, one of the highest honors in the fields of medicine and health, and to the Collegium Ramazzini, an independent, international academy of internationally renowned experts. Birnbaum earned honorary doctorates from the University of Rochester, Ben-Gurion University in Israel, and Amity University in India. Named a Distinguished Alumna by the University of Illinois, she received the Surgeon General’s Medallion in 2014.

President of the Society of Toxicology and vice president of the International Union of Toxicology, the umbrella organization for toxicology societies in more than 50 countries, she is the author of more than 1,000 peer-reviewed publications. Birnbaum is an adjunct professor at the University of North Carolina, Chapel Hill, and was recently appointed a Scholar in Residence at Duke University.

WILLIAM P. BABCOCK ’68, M.A. ’72
Doctor of Humane Letters
Col. William P. Babcock, U.S. Army, retired, is a 1968 graduate of the University of Rhode Island who has served his country, Rhode Island, and his alma mater with honor. At URI, he completed the Army Reserve Officer Training Corps program, earned his bachelor's degree in history, and was commissioned as a second lieutenant.

In August of 1969, Babcock was assigned to the Republic of South Vietnam. During one of his missions in Cambodia, his company commander was killed. Babcock immediately took command of the company and also rescued a wounded comrade. He was awarded the Silver Star for his actions.

After his first active-duty tour, Babcock earned a master's degree in education from URI in 1972 and worked for the next 15 years as a student personnel administrator at various colleges and universities. He also completed a master's degree in business administration at Bryant University. He is a graduate of the Army War College.

Babcock served full time in the Rhode Island National Guard for 21 years, and volunteered for active-duty tours in Afghanistan in 2003 and Iraq in 2005. He retired as a brigade commander and is a founding member and first president of the URI ROTC Alumni chapter. His awards include the Combat Infantry Badge, Silver Star, two Bronze Star medals, Purple Heart, Air Medal, and the Rhode Island Cross.

He now serves as coordinator of Veteran Mentors for the Rhode Island Veterans Treatment Court.
NAVYN SALEM  
Doctor of Humane Letters  
In 2009, Navyn Salem set out to help end the crisis of global malnutrition by founding Edesia, a U.S. nonprofit, social enterprise, with a mission to treat and prevent malnutrition in developing countries worldwide. She is founder and CEO of the company, whose Rhode Island factory produces a range of fortified, peanut-based products like Plumpy’Nut for such humanitarian agencies as UNICEF, World Food Programme, USAID, and other non-governmental organizations working in emergency and conflict zones. Since 2010, Edesia has reached more than 13 million children in over 56 countries, including Somalia, Venezuela, Yemen, and Syria. In 2019, Salem launched a new line of nut butters called MeWe, developed to address hunger and the nutritional challenges through the ages and stages of life here in the United States from babies to the elderly. MeWe is also used as a snack in school lunch programs and for food banks here in the United States as part of the COVID-19 emergency response. Salem was named Ernst & Young Entrepreneur of the Year/New England in 2018, New Englander of the Year by the New England Council in 2017, and New England Business Woman of the Year by Bryant University. She was awarded honorary degrees by her alma mater, Boston College (2012), as well as Bryant University (2014), Providence College (2017), and Curry College (2018). She is a trustee of Boston College. She is a 2014 Henry Crown Fellow of the Aspen Institute and a member of the Aspen Global Leadership Network. Salem’s father is from Tanzania, and she has four daughters, all of whom were the inspiration for the creation of Edesia.

This program includes faculty members who were granted emerita/us status as of May 1, 2021.

JEROME ADAMS  
Professor of Human Development and Family Science  
Professor Adams has been a faculty member in the Department of Human Development and Family Science since 1989. He has demonstrated excellence in all areas of his work, including teaching, research, and administration. Most notably, he served as the director of the Couple and Family Therapy Program for 13 years and department chair of HDF for six years. He has been a valued member of the University of Rhode Island community and has made numerous contributions to the larger Rhode Island community as a licensed psychologist and marriage and family therapist.

MARTIN BIDE  
Professor of Textiles, Fashion Merchandising and Design  
Martin Bide’s Ph.D. from the University of Bradford and United Kingdom industrial experience led to URI where, since 1991, he has taught students the joys and intricacies of textile science. His research in biomedical materials and sustainability has produced papers, book chapters, and patents. Professor Bide is a past president of the American Association of Textile Chemists and Colorists, founding editor of its Journal of Research and an awardee of its Olney Medal. He is a fellow of the Society of Dyers and Colourists and the Royal Society of Chemistry, and received the 2011 URI Foundation’s Scholarly Excellence Award.

PETER BLANPIED  
Professor of Physical Therapy  
Professor Blanpied has been at URI since the start of the physical therapy program, joining the faculty in 1989. He has had the privilege of training more than 700 physical therapists. He has remained a practicing PT for his entire career and is board-certified in orthopedics and fellowship-trained in manual therapy. He has enjoyed bringing clinical stories and skills into the classroom and the URI clinic. Over the course of his career, his scholarship has focused on muscle stiffness, arthritis, and the conservative management of neck pain. He retires as the interim chair of the Physical Therapy Department.

JOHN BURKETT  
Professor of Economics  

HONORARY DEGREES  
continued

FACULTY EMERITI 2020–2021
DEBRA A. ERICKSON-OWENS
Associate Professor of Nursing

Debra Erickson-Owens joined the URI faculty in 2009. She earned a B.S. in nursing from Boston University, an M.S. in nursing midwifery from the University of Utah, and a Ph.D. in nursing from the University of Rhode Island. Professor Erickson-Owens has made significant contributions directed at improving maternal and child health. Her National Institutes of Health-funded research included studies of cord-clamping at time of birth, providing pivotal evidence to change cord-clamping practices and related national policies. She is a fellow in the American Academy of Nursing and in the American College of Nurse Midwives.

GINETTE FERSZT
Professor of Nursing

Ginette Ferszt joined the URI faculty in 1993. She earned a B.A. in psychology from Central Connecticut State College, an M.S.N. in nursing from the University of Pennsylvania, and a Ph.D. from the University of Rhode Island. Professor Ferszt has the distinction of being at the forefront of pioneering contributions regarding the health needs and health-care disparities facing incarcerated women. She is widely published, and her advocacy and scientific contributions have influenced scholars across the globe. Professor Ferszt is a fellow in the American Academy of Nursing.

TIMOTHY S. GEORGE
Professor of History

Timothy George is a historian of modern Japan, particularly its environmental history, with an A.B. from Stanford, an M.A. from the University of Hawai’i, and an A.M. and Ph.D. from Harvard. In his 23 years at URI, he taught East and Southeast Asian history and served as history department chair, president of the URI American Association of University Professors, secretary and historian of URI’s Phi Beta Kappa chapter, coordinator of the Asian studies minor, and coordinator of the “China Rising” Honors Colloquium. On leave from URI, he was a Fulbright researcher in Japan and visiting professor at Harvard.

GĪTAHI GĪTĪTĪ
Professor of English

Gītahi Gītītī joined the URI faculty in 1991, having received a B.Ed. from Kenyatta University, an M.A. from the University of Kenya, and a Ph.D. from the University of Minnesota. A talented and widely published poet in both English and Gikuyu, his notable collections include Mũkũnga-Mbura Gũtarĩ Matu (“Rainbow in an Arid Sky”) and Mboomuĩratũthũkire Nairobi (“Bomb[in’] Nairobi”). Professor Gītītī is also an expert on African and African American literature, Black film, and postcolonial theory. For many years he was an instructor in URI’s Talent Development Program, and remains committed to its goals and students.

MERCEDES A. RIVERO HUDEC
Associate Professor of Chemical Engineering

Professor Rivero Hudec, earned her chemical engineering B.S. at Universidad Simón Bolívar (Venezuela), and her M.S. and Ph.D. at the University of Pennsylvania. Before joining URI, she was a National Institutes of Health’s visiting fellow, and an instructor at Thomas Jefferson University. Her interests are in the environmental/sustainability areas. Professor Rivero was the College of Engineering’s associate dean of students and diversity. She received the 2011 URI Multicultural Center’s Faculty Excellence Diversity Award. She has collaborated closely with colleagues across campus, including work toward the establishment of the International Engineering Program in Spanish, and the Sustainable Agriculture and Food Systems program.

JANICE HULME
Clinical Professor of Physical Therapy

Professor Hulme has been involved with the physical therapy program for 22 years and has been a full-time core faculty member for 11 years. A champion of hands-on learning, she was instrumental in integrating treatment of real patients into the curriculum as well as developing community outreach programs serving the elderly and individuals with neurologic impairments. She led the department in developing opportunities for inter-professional education. Together with her efforts at URI and in her physical therapy practice, she influenced the perspectives and training of hundreds of future and young professionals.
ROBERT LAFORGE
Professor of Psychology

Robert Laforge received his Sc.D. from Johns Hopkins in 1987 with a focus on health policy and research methods. He joined the Cancer Prevention Research Center (CPRC) at URI as research faculty in 1991, was promoted to research professor in 2000, and became full professor in the Department of Psychology in 2002. Professor Laforge developed and managed the CPRC’s Survey Research Center and was an integral collaborator in health promotion research using the transtheoretical model. He served as director of the graduate program in behavior science, mentored graduate students, and taught graduate and undergraduate courses in statistics and research methods.

D.M.L. MEYER
Associate Professor of Mechanical Engineering

Donna Meyer earned her Ph.D. from Rensselaer Polytechnic Institute, joining URI in 2002. Her research focuses on experiments and analytical models using continuum mechanics. Tribology and dissipative processes are her special interest. She quantified morphological changes due to polymer wear and transformed Reynolds equation to accommodate geometry orientations for hemispherical bearings commonly seen in machines and hip replacements. She taught URI’s first tribology course—one of only a handful in the United States at the time. Professor Meyer puts a high value on research, and teaching and mentoring undergraduate and graduate students. Before academia, she worked 15 years in the industry.

D. MONGEAU
Professor, University Library

Deborah Mongeau (M.S.L.S. Rutgers University) joined the URI faculty in 1987 as a government publications librarian. As a government documents librarian in public libraries in Rhode Island and Pennsylvania, she learned the value of government information. She served as chair of public services 2007–2019. She facilitated the cataloging of government documents and taught classes on how to locate and use government information. As chair, she facilitated the transformation of the department into a coordinated team. She served on University committees and the Faculty Senate. Her research focused on the use of government information and the literature of public coastal access.

DEBORAH MONGEAU
Professor, University Library

Deborah Mongeau (M.S.L.S. Rutgers University) joined the URI faculty in 1987 as a government publications librarian. As a government documents librarian in public libraries in Rhode Island and Pennsylvania, she learned the value of government information. She served as chair of public services 2007–2019. She facilitated the cataloging of government documents and taught classes on how to locate and use government information. As chair, she facilitated the transformation of the department into a coordinated team. She served on University committees and the Faculty Senate. Her research focused on the use of government information and the literature of public coastal access.

CAROLE F. MILLER
Professor of Economics

Carole Miller joined the Department of Economics in 1986. She earned a Ph.D. in economics from Syracuse University in 1988. Her research focused on the experience of married women in the labor force. During her 35 years at the University of Rhode Island, she was an active member of the AAUP Grievance Committee advocating for faculty rights.

DENNIS W. NIXON
Professor of Marine Affairs

Professor Nixon joined the faculty of the Marine Affairs Program in 1976. He taught courses in marine and coastal law and served as the graduate program coordinator for 25 years. He subsequently served as an associate dean in the College of the Environment and Life Sciences and the Graduate School of Oceanography for the next 12 years, and then completed his career as the director of Rhode Island Sea Grant. He also was supported by the National Science Foundation to serve as the legal advisor of the University-National Oceanographic Laboratory System, where he was involved with maritime law disputes all over the world.

WILLIAM OHLEY
Professor of Electrical Engineering

William Ohley received his Ph.D in electrical engineering from Stony Brook University in 1976, then joined URI. He holds three U.S. patents, has more than 1,800 scientific citations for work in cardiac assist, resuscitation, and stochastic fractals, and has authored hundreds of publications. He mentors two minority student programs: the American Indian Science Engineering Society and Harvard’s Biomedical Science Careers Program. He was awarded the Diplôme de Partenaire Émérite from University d’Orleans in 1996. He served as president of the URI American Association of University Professors, was faculty senator, and as department chair, championed the expansion of his department to include computer and biomedical engineering.
RONALD J. ONORATO  
Professor of Art and Art History  
Ronald Onorato earned his Ph.D. from Brown University and joined the Department of Art and Art History in 1977. His research centers on preservation of American architecture and sculpture (18th century through late modernism.) He served as senior curator at museums in California, Massachusetts, and New York; commissioner on the Rhode Island Historical Preservation and Heritage Commission; chair of the National Register Review Board; and member of the American Institute of Architects. His books include *Buildings of Rhode Island* and *Newport Architecture*. He co-founded the URI Center for the Humanities, served as vice chair of the Faculty Senate, and was department chair for 19 years.

NORMA J. OWENS  
Professor of Pharmacy  
Associate Dean for Student and Academic Affairs  
Norma Owens completed a B.S. in pharmacy, a Pharm.D., and a postdoctoral fellowship before beginning her 38-year career in the College of Pharmacy. Professor Owens was a leader in geriatric education, scholarship, and practice. Among her many University roles, she served as chair of the Department of Pharmacy Practice and associate dean. Professor Owens is affiliated with several not-for-profit organizations that support quality elder care in Rhode Island and is the former president of the board and current treasurer for Steere House Nursing & Rehabilitation Center. She is a fellow of the American College of Clinical Pharmacy.

DONNA SCHWARTZ-BARCOTT  
Professor of Nursing  
Donna Schwartz-Barcott joined the URI faculty in 1975. She earned her B.S. in nursing from the University of Washington and an M.A. and Ph.D. in anthropology, and an M.S. in public health education from the University of North Carolina at Chapel Hill. Professor Schwartz-Barcott has made sustained contributions to community health nursing and the application of theory to practice. She has published more than 50 book chapters and journal articles, including her seminal work on the hybrid model of concept development, with colleague Hesook Suzie Kim. Professor Schwartz-Barcott is a fellow in the American Anthropological Association.

KAREN WISHNER  
Professor of Oceanography  
Karen Wishner earned her B.A. from the University of Chicago and her Ph.D. from Scripps Institution of Oceanography. In 1980, she became the first woman hired as a tenure-track faculty member at the Graduate School of Oceanography. Her research focused on zooplankton and environmental processes from the sea surface to depth. Seagoing projects, including on R/V *Endeavor* and submersible *Alvin*, explored the Gulf Stream, Georges Bank, Arabian Sea, seamounts, and the Pacific. She also investigated right whale-zooplankton interactions. Recent research focuses on deoxygenation and zooplankton. Wishner taught zooplankton and deep-sea biology and took many students to sea. She was co-principal investigator on URI’s ADVANCE project to recruit women faculty.
Some names of degree candidates may have been added or withdrawn from the official graduation list after this program was published. Notations of distinction for graduation—cum laude, magna cum laude, and summa cum laude—are those in effect at the time of publishing.

Students complete a degree and a major. For liberal arts degrees, the major is not included in the degree title or on the diploma.

Irene N. Neba Mforsoh, Mechanical Engineering and Applied Mechanics
Elastomic Coatings on Marine Structures
Arun Shukla, Major Professor

Petru Dorin Micu, Business Administration
Consumer Engagement with Brands on SM
Christy Ashley, Major Professor

Mohsen Mosayebi, Industrial and Systems Engineering†
TSP with Job-Times and Variations
Manbir Sodhi, Major Professor

Joshua A. Muniz, Psychology†
Cluster Profiles of Drinking Motives
Andrea L. Paiva, Major Professor

Sumeru Nayak, Civil and Environmental Engineering†
Modeling of Durable Infrastructure
Sumanta Das, Major Professor

Rebecca Jane Nelson, Psychology†
Cultural Research in Forensic Psychology
David Faust, Major Professor

Afonso Henrique Monteiro Goncalves Neto, Oceanography
North Atlantic on the Edge
Jaime Palter, Major Professor

John D. Olierio, Education
An Analysis of Degree Completion at URI
Annemarie Vaccaro, Major Professor

Shuyi Pei, Electrical Engineering
Removing Performance Bottlenecks on SSDs
Ken Q. Yang, Major Professor

Meghan Cahill Leclerc Quinn, Civil and Environmental Engineering
Geotechnical Effects on DAS Performance
Chris Baxter, Major Professor

Cherisse R. Rambarose, Psychology†
Age Differences in Substance Abuse
Mark Robbins, Major Professor

Bhuwan S. Rana, Pharmaceutical Sciences†
Drug-Induced Liver Injury
Stephen Kogut, Major Professor

Yazan N. Rawashdeh, Electrical Engineering†
New Clutter Model for Materials
Steven Kay, Major Professor

Anna R. Robuck, Oceanography†
Novel Organic Pollutants in Seabirds
Rainer Lohmann, Major Professor

Kevin L. Rosa, Oceanography†
Coastal Ocean Modeling Across Scales
Christopher Kincaid, Major Professor

Mohammad Moein Safaee, Chemical Engineering†
Wearable Optical Materials
Daniel Roxbury, Major Professor

Bindeshwar Sah, Physics†
Nanoparticle Radiotherapy for Cancer
Michael Antosh, Major Professor

Lauren S. Schambach, Ocean Engineering†
Numerical Modeling of Landslide Tsunamis
Stephen Grilli, Major Professor

Shawn P. Scott, Business Administration†
Essays on the Power of Musical Structure
Lauren Labrecque, Major Professor

Beth A. Leonardo Silva, English†
Between Biblings
Carolyn Betensky, Major Professor

Caroline W. Stabile, Education
Scientific Modeling in Fifth Grade
Julie Coiro, Major Professor

Tianyu Sun, Pharmaceutical Sciences
Medications for OUD and Health Outcomes
Ashley Buchanan, Major Professor

Holly J. Swanson, Biological and Environmental Sciences
Self-Regulated Learning and Metacognition
Bryan Dewsbury, Major Professor

Joshua R. Tanzer, Psychology
Feeling Good
Lisa L. Harlow, Major Professor

Marie C. Tate, Psychology
Co-Occurrence of Depression and Alcohol
Andrea L. Paiva, Major Professor

Dashika J. Udawatte, Biological and Environmental Sciences†
RIPK1, A Novel Target of Dengue Virus
Alan Rothman, Major Professor
David I. Upegui, Education
   Social Justice and Evolutionary Biology
   David Fastovsky, Major Professor

Derece Vanterpool, Education
   Narratives of Military Recruitment in Schools
   Gerri August, Major Professor

Zhiqiang Wan, Electrical Engineering †
   Deep Learning for Decision-Making
   Haibo He, Major Professor

Alyssa G. Wibisono, Biological and Environmental Sciences †
   Indonesian Demersal Fishery
   Austin Humphries, Major Professor

Mattana Wongsirikajorn, Environmental and Natural Resource Economics
   Poverty and Natural Resources
   Emi Uchida, Major Professor

Zheyi Yao, Electrical Engineering †
   Optical Fiber Sensing Based on OFDR
   Tao Wei, Major Professor

Jiayuan Zhang, Business Administration
   Blatant Benevolence and Social Capital
   Koray Ozpolat, Major Professor

Alyssa Hillary Zisk, Interdisciplinary Neuroscience
   Intra-Individual BCI Variation in ALS
   Yalda Shahriari, Major Professor
WELCOME TO THE ALUMNI COMMUNITY

Today you are joining a strong and talented community of more than 135,000 alumni worldwide. You’ll find many ways to stay connected to URI and your Rhody friends—through social gatherings, special events, reunions, and great networking opportunities. In addition, be sure to follow @AlumniURI on Facebook, Twitter, and Instagram. Visit alumni.uri.edu to find the online alumni directory, upcoming events, and much more.

SUPPORT FOR YOUR CAREER

The alumni community is a powerful resource to help you along your career journey. You’ll find hundreds of alumni ready to offer advice within URI CareerConnect, a career mentoring platform that matches you with alumni advisors based on degree, field, location, and other criteria. Set up your profile and schedule a one-on-one conversation with a fellow Ram right away! Alumni Career Services also offers webinars and workshops throughout the year to help you with career planning, job searches, resumes, interviews, professional development, graduate school, and more. Visit alumni.uri.edu/careers to take advantage of these resources.

ANSWER THE RHODY SENIOR CHALLENGE

Congratulations! As members of the Class of 2021 officially become alumni, we invite you to start your legacy by making a gift to RhodyNow, which provides immediate support to all facets of the University. Gifts of all sizes make an impact, and your participation is what matters most! Help the Class of 2021 answer the Challenge, and encourage your classmates to do the same!

Leave your mark and be counted! Visit: urifoundation.org/seniorchallenge.

A special thank-you to the members of 2021 who stepped up to answer the challenge and can be seen wearing the Philanthropy Cord. Every gift does make a difference, and we are grateful for yours.
ONE HUNDRED AND THIRTY-FIFTH
