

THE UNIVERSITY OF RHODE ISLAND

SPRING COMMENCEMENT

May 16–18, 2025

FROM THE PRESIDENT

“The research university is one of the greatest contributions the United States has given the world—and URI graduates carry that legacy forward. Their degrees matter now more than ever, as they bring innovation, evidence-based thinking, creativity, and a spirit of service to their communities and professions. They are driving discovery, strengthening the economy, and improving lives across Rhode Island and beyond.”

—Marc Parlangue

To the Class of 2025,

Congratulations! Today, we honor your hard work, your persistence, and your creativity. You may be leaving here, but commencement, by definition, marks the start of something new—your next chapter in life—and the beginning of all that lies ahead.

You are graduating from a research university—indeed one of the greatest in the country—a distinction that sets you apart. Research universities are places of curiosity, discovery, and purpose. They have given rise to life-changing innovations—from the internet to vaccines, sustainable farming and fishing techniques to smartphone technology. These breakthroughs didn’t happen by chance; they started with a seed of an idea by faculty and students—just like you—in labs, classrooms, and field stations—places not unlike the ones you’ve studied in here.

You are also graduating from a public research university, which means your journey here has been part of a centuries-old mission: to serve the public good. As a public institution, our purpose is not just to generate knowledge—but to apply it in ways that strengthen our communities, drive local economies, improve health, and prepare future leaders who serve the evolving needs of our society.

Now, you take this mission with you. Whether you go on to start companies, care for patients, create art, engineer new systems, teach the next generation, or tackle problems we haven’t even imagined yet—your work will matter. Your choices will matter. You are the lifeblood of your communities, and we need you—your ideas, your energy, your values—more than ever.

As you celebrate today, take a moment to recognize those who helped you reach this point. Behind every graduate is a network of support—family, friends, professors, mentors, and staff—who encouraged you, challenged you, and believed in you. As you move forward, stay connected to the University. Share your journey. And when you’re able, give back. Your continued involvement will strengthen URI for generations to come.

We are so proud of you. We believe in you. And we can’t wait to see what you’ll do next. Congratulations!

Kind regards,

A handwritten signature in dark ink that reads "Marc Parlangue". The signature is fluid and cursive, with the first name "Marc" being larger and more prominent than the last name "Parlangue".

Marc B. Parlangue
President, University of Rhode Island

ALMA MATER

All hail to thee, Rhode Island,
We pledge our faith anew,
While our heroes bring thee honor
With our banner of white and blue.
In truth we owe her much, for she's shown us the way
To achieve and be of service to the world.
So all hail our Alma Mater,
Rhode Island, our guide whate'er we do.

Think big. It's what we do every day at URI. It has been our hallmark ever since a small group of people acted on a big idea more than 130 years ago. Foresight, perseverance, and integrity have been the very foundations of the University since its beginnings in 1888, when several South Kingstown residents, the South Kingstown Town Council, and the state of Rhode Island made a collective donation of \$5,000 to purchase the 140-acre Oliver Watson Farm to establish a state agricultural school and experiment station.

Their action exemplified the vision of President Abraham Lincoln and the Morrill Land-Grant College Act of 1862, that education of the people and for the people was, and is, America's and the world's best hope for enduring prosperity and peace. In 1892, the Rhode Island College of Agriculture and Mechanic Arts was formed, graduating its first 17 students just two years later. In 1951, the college became the University of Rhode Island, and those 140 original acres have grown into a 1,200-acre Kingston Campus, with additional locations throughout Rhode Island, including the Narragansett Bay Campus, the W. Alton Jones Campus, and in Providence, the state's capital city.

Much has happened during the past 133 years. The University is known locally and globally for its big ideas and innovative research across a broad range of disciplines, striving for practical solutions to the world's most important challenges.

In February 2025, the University ascended to the United States' highest level of research universities by earning the prestigious R1 designation in the Carnegie Classification of Institutions of Higher Education, placing it among

the top 5% of degree-granting postsecondary institutions nationally. The recognition reflects URI's broad impact and evolution into a world-class hub for research, innovation, entrepreneurship, and public scholarship.

Research conducted at URI transforms society's understanding of the world. Researchers are helping scientists deduce the volume of sea ice production and improve climate models of deep ocean currents. Visionary creative thinkers are imagining new ways of experiencing music and the visual arts that encourage inclusion and diversity. Innovators are isolating new molecules from blooms of cyanobacteria for potential use as therapeutics against a wide range of diseases.

URI's colleges of nursing, pharmacy, business, engineering, arts and sciences, environment and life sciences, health sciences, and education, and the Graduate School of Oceanography are signature centers of scholarship and research. Some 200 undergraduate and graduate degree programs inspire students, spark their creativity, and prepare them for the future.

Named the No. 1 public university in New England by *The Wall Street Journal*, URI is not only a leading global education and research institution—its Kingston Campus is also a national historic site. In 2017, the U.S. Department of the Interior recognized the beauty and architectural significance of the historic Quadrangle, designating the area as the University of Rhode Island Historic District, now part of the National Register of Historic Places.

At URI, historic preservation is paired with remarkable progress. Since 2007, the University has invested more than \$1 billion in campus capital projects and improvements. Among those improvements are several projects supported by Rhode Island voters through bond referenda approvals. The University is nearing completion of a comprehensive renovation of the Fine Arts Center, which serves more than 5,000 students each year and brings more than 50,000 visitors to the Kingston Campus annually for plays, concerts, gallery shows, and exhibits. And transformative investments in the Narragansett Bay Campus will bolster URI's role as a leader in the blue economy and make it a cutting-edge home for the new National Science Foundation regional class research vessel *Narragansett Dawn*.

Rhode Island voters approved an \$87.5 million investment for a biomedical sciences building on the Kingston Campus, which will enable the University to continue to lead with cutting-edge research and education across a range of biomedical, biotechnology, and science-related fields.

With a bold vision for the future, the University's enrollment has grown to more than 17,000 undergraduate and graduate students. Today, URI has some 148,000 alumni around the world, including more than 60,000 who call Rhode Island home. We congratulate our newest graduates and welcome them to the proud University of Rhode Island alumni community.

THE COMMENCEMENT EXERCISES AND ACADEMIC PAGEANTRY

Over the centuries, banners and flags have lent drama to public ceremonies, and the flags you see today represent the University and countries our students hail from.

Gonfalons are flags or banners, hung from crosspieces on poles, that have been used since medieval times as symbols of state or office and are now traditionally used by colleges and universities. The Commencement gonfalons you see today represent the degree-granting colleges and schools that make up the University of Rhode Island. Traditional colors of the academic disciplines have been used: Arts and Sciences, white and golden yellow; Business, drab (light brown); Education, light blue; Engineering, orange; Environment and Life Sciences, maize; the Graduate School, blue and gold; Health Sciences, sage; Nursing, apricot; Oceanography, aqua; and Pharmacy, olive green.

The international flags remind us of the importance of cultural diversity, internationalization, and global awareness.

The grand marshal, carrying the university mace, will lead the academic procession. The candidates for degrees and faculty will follow the grand marshal.

Academic dress has its origin in the colorful gowns and hoods of the Middle Ages. In the United States, a common code of academic dress was not adopted until 1895. This decreed three kinds of gowns and three hood lengths for bachelor's, master's, and doctoral degrees. Hoods are lined with the color or colors of the university conferring the degree and are bordered with a color representing the subject of study for which the degree is conferred.

Throughout the Commencement exercises, one may see the pomp and ceremony of a feudal society and the intricacies of the medieval art of heraldry reflected—in the ritual, the dress, the ceremonial accoutrements, such as the university mace, and in the wording of the degrees conferred.

UNIVERSITY MACE

The university mace was donated by the Class of 1963. It is made of gold-plated sterling silver and is mounted on a 3-foot rosewood staff. The URI seal, 3 inches in diameter, crowns the staff, with a sketch of Davis Hall on the back. Davis is one of the University's oldest buildings and is the site of the university bell tower.

2025 NATIONAL SCHOLARSHIPS AND FELLOWSHIPS

*Some national scholarship
programs are so prestigious
that one can only apply if
nominated by the university.
This year, the following
students and alumni have
been recognized in such
competitions:*

Written into law by President
Harry S. Truman in 1946,
the Fulbright U.S. Student
Program is the flagship
international educational
exchange program
sponsored by the U.S.
government.

Three URI candidates have
been selected for 2025
Fulbright U.S. Student
Program awards: Joceline
Rodrigues '25 (English
Teaching Assistant Award
to Portugal), Alyssa Botelho
'21 (Fulbright/Azores
Government Open Study/
Research Award), and
Zackary Harden '24 (English
Teaching Assistant Award
to Taiwan). Three additional
candidates have been
named as alternates.

Six URI students, all
participants in the URI
Chinese Language Flagship
Program, have been
selected as 2025 Boren
scholars to support their
capstone year abroad in
Taiwan. Two other students
have been named as
alternates. An initiative
of the National Security
Education Program, the
David L. Boren Awards
provide funding opportunities
for U.S. undergraduate
and graduate students to
study less commonly taught
languages in world regions
critical to U.S. interests. In
exchange for funding, Boren
scholars and fellows commit
to working in the federal
government for at least one
year after graduation.

STEVEN FEINBERG

Honorary Doctor of Letters

For more than 20 years, Steven Feinberg has stood at the intersection of the arts and commerce in Rhode Island.

As executive director of the Rhode Island Film and Television Office since 2004, Feinberg has shepherded more than \$900 million in film and television production into the state, creating thousands of jobs for local talent, crew, and small businesses, and providing opportunities for students. His collaborations include working with Academy and Emmy award-winning talent and bringing such productions as HBO's Emmy Award-winning series *The Gilded Age*, Disney's record-breaking *Hocus Pocus 2*, Oscar-nominated *Moonrise Kingdom*, and three seasons of the Peabody Award-winning Showtime series *Brotherhood*, to Rhode Island.

An accomplished artist in his own right, he wrote, directed, and produced the award-winning documentary, *Pell*, which explored the challenges U.S. Sen. Claiborne Pell, of Rhode Island, faced in creating the Pell Grant program and its impact on education and society today.

A graduate of Cranston High School West, Feinberg spent 22 years in Los Angeles, where he studied cinematography at the University of California, Los Angeles, and film and television production at the prestigious University of Southern California School of Cinematic Arts before returning home to Rhode Island.

Feinberg has been honored by the Rhode Island International Film Festival, the Preservation Society of Newport County, New England's *Imagine Magazine*, Discover Newport, and the Providence Warwick Convention & Visitors Bureau. He is also vice president of the Greenwich Odeum board of directors

This program includes faculty members who were granted emerita/us status as of May 1, 2025.

ROBERT D. BALLARD

Professor of Oceanography

Robert D. Ballard, Ph.D. '74, Hon. '86, is president of the Ocean Exploration Trust, an oceanography professor at the URI Graduate School of Oceanography, and a National Geographic Society explorer at large who served in both the U.S. Army and Navy. He is a pioneer in the development of deep-sea submersibles and remotely operated vehicles used on more than 165 expeditions to discover hydrothermal vents, high-temperature "black smokers," the *Titanic*, and the German battleship *Bismarck*. Professor Ballard is a recipient of the Explorers Medal, the Lindbergh Medal, the Hubbard Medal, the Newcomb Cleveland Prize, and 23 honorary doctorates. The U.S. Navy named the USNS *Robert Ballard* after him.

SUSAN BRAND

Professor of Education

Susan Brand earned her Ed.D. in curriculum and instruction from the Pennsylvania State University. A former elementary teacher and K–12 literacy specialist, she served as a professor of early childhood education in the Alan Shawn Feinstein College of Education. She was the counselor of the Iota Sigma chapter of Kappa Delta Pi Education Honor Society for 31 years and, along with the chapter officers, earned seven Achieving Chapter Excellence awards for the chapter. Professor Brand is the author of four textbooks and numerous articles and book chapters. She was the recipient of URI's Multicultural Student Services Center Diversity Award

DAVID BYRD

Professor of Education

David Byrd earned his Ph.D. in teacher education from Syracuse University. A full professor of secondary social studies education in the Alan Shawn Feinstein College of Education, he authored more than 40 articles, books, and chapters. His research focuses on teacher education, clinical experiences, partnerships, and teaching methodologies. Professor Byrd is the coeditor of the *Handbook of Research on Teacher Education: A Project of the Association of Teacher Educators* and the coauthor of *Methods for Effective Teaching*, contracted by Pearson for a 10th edition. He secured more than \$15 million in public grants supporting effective teacher preparation programs.

MARGARET CHARPENTIER

Clinical Professor of Pharmacy

Margaret Charpentier '87, Pharm.D. '93, was clinical professor of pharmacy and served as director of experiential education (1999–2004). She was a founding board member of Clinica Esperanza in Providence (2007), a medical advisory committee member for the Rhode Island Free Clinic (2002–2007), and was on the board of directors for the Gaia Foundation, a clinic for HIV patient care in Bamako, Mali (2007–2010). Her passion for educating the next generation of pharmacists was recognized multiple times through the student-awarded Teacher of the Year at URI's College of Pharmacy.

JEREMY COLLIE

Professor of Oceanography

Jeremy Collie is a fisheries oceanographer who specializes in the population dynamics and production of marine animals. His areas of expertise include fish feeding and prey selection, predator-prey interactions, and benthic habitat studies. Professor Collie taught fish population dynamics, fisheries oceanography, and ecosystem-based fisheries science and management, among other courses. During his tenure at URI, 32 graduate students completed their degree programs under his supervision. As professor emeritus, he is supervising three graduate students until their degree completion in 2025 while working part time on a research project funded by the National Oceanic and Atmospheric Administration.

JOAN R. DUGAS

Clinical Associate Professor of Nursing

Joan Dugas '91, M.S. '06, has dedicated nearly two decades to the URI College of Nursing, serving as clinical associate professor since 2015 and clinical assistant professor from 2006 to 2015. Throughout her tenure, she made significant contributions to nursing education, curriculum development, and student mentorship. A certified nurse educator, she has played a pivotal role in advancing nursing pedagogy, interprofessional education, and gerontological nursing. Her leadership in faculty affairs, curriculum development, and clinical instruction has left a lasting impact on the college.

DAVID L. FREEMAN

Professor of Chemistry

David L. Freeman received a B.S. in chemistry from the University of California, Berkeley, and an M.A. in chemistry and Ph.D. in chemical physics, both from Harvard University. After postdoctoral appointments at the Battelle Memorial Institute in Columbus, Ohio, and the University of Utah, he was appointed to the URI faculty in 1976. In addition to his teaching duties, Professor Freeman has published nearly 100 papers in various areas of theoretical physical chemistry, as well as a book in electronic structure theory.

KATHLEEN GORMAN

Professor of Psychology

In 2000, Kathleen Gorman joined the faculty of the URI Department of Psychology and became the first director of the URI Feinstein Center for a Hunger Free America. She was promoted to full professor in 2019. Her research examines the effects of hunger and food insecurity on low-income families, college students, and older adults. From 2001 to 2020, Professor Gorman ran the SNAP Outreach Project for the R.I. Department of Human Services, leading hundreds of URI undergraduates to help low-income Rhode Islanders access food assistance. She received a Ph.D. in human development from the University of Maryland in 1987.

WAYNE WENCHAO HE

Professor of Chinese

Wayne Wenchao He was professor of Chinese and director of the URI Chinese Language Flagship Program. He served as a board member of the Chinese Language Teachers Association, USA (2014–2018) and worked on its steering committee (2015–2018), was the founding president of the New England Chinese Language Teachers Association (NECLTA) in 2012 and the Chinese Language Teachers Association of Greater New York in 2002, and received a Lifetime Achievement Award from NECLTA in 2024. He published 18 academic books and numerous scholastic papers during his career. During his tenure, he secured more than \$10 million in grants for URI.

SANDY HICKS

Associate Professor of Education

Sandy Hicks earned her Ph.D. in language, reading, and culture from the University of Arizona. An associate professor of elementary education in the Alan Shawn Feinstein College of Education and program coordinator for the elementary education program, she focused on teacher preparation, social studies methods, and multicultural education. Professor Hicks served in a leadership capacity in both the URI Faculty Senate and URI Chapter of the American Association of University Professors. She was committed to preparing teachers who are culturally responsive, able to help children empower themselves through their educational experiences, and able to make a difference in the world.

JOHN KIRBY

Dean, College of the Environment and Life Sciences

John Kirby received his Ph.D. in 1990 from Oregon State University, studying reproductive biology of male fowl. He completed a postdoctoral fellowship at Northwestern University and served on the Northwestern Medical School faculty before joining the University of Arkansas faculty where he became a full professor and served as interim associate dean and then director of the Interdisciplinary Cell and Molecular Biology Program. He joined South Dakota State University as associate dean and director of the South Dakota Agricultural Experiment Station. In 2010, he became dean of the URI College of the Environment and Life Sciences and director of URI's Agricultural Experiment Station and Cooperative Extension.

BRIAN K. MAYNARD

Professor of Plant Sciences and Entomology

Brian Maynard joined the URI Department of Plant Sciences and Entomology in 1992. In the ensuing 33 years, he taught a variety of horticulture courses and conducted research and outreach in support of the state's green industry. He received numerous awards for his teaching and outreach work, chaired the department, upgraded the URI greenhouse range and botanical gardens, and instilled generations of URI horticulture students with a knowledge and love of plants. Professor Maynard leaves behind a legacy of more than 450 trees planted on campus, ensuring URI will remain a beautiful place to study for many years to come.

MICHAEL MCGREGOR

Teaching Professor of Chemistry

College of Arts and Sciences

Mike McGregor, M.S. '79, Ph.D. '83, earned a B.A. at Macalester College and an M.S. and Ph.D. in chemistry at URI, studying organic pollution in the coastal ocean for the Environmental Protection Agency. Following a career at Medtronic and J.T. Baker, he became director of the URI Teknor-Apex Laboratory. The lab produced a steady stream of solutions for chemical problems and trained dozens of nuclear magnetic resonance spectrometer users from around the world. Professor McGregor taught across the chemistry curriculum, from introductory up to senior and graduate courses and was a leader in the G2C Gateway course improvement process, chairing the CHM 101 analysis committee.

RICHARD "RIC" MCINTYRE

Professor of Economics

Ric McIntyre '79 received a B.A. in economics and political science from URI and a Ph.D. in economics from the University of Massachusetts. He received the URI Foundation Award for Teaching Excellence in 1997. Professor McIntyre was URI Honors Program director (2006–2013) and chair of the Department of Economics (2015–2020). He was a visiting scholar at École Normale Supérieure Paris-Saclay and Université Rennes 2 in France and directed URI study abroad in Cuba. Professor McIntyre is the author of *Are Worker Rights Human Rights?* and more than 70 academic and popular papers and reports and is writing a book on American capitalist class exceptionalism.

ARTHUR MEAD

Professor of Economics

Art Mead arrived in Rhode Island in 1976 with the tall ships. He taught economics to large classes and research methods to economics majors for 48 years, taught in the URI Honors program and at the U.S. Department of Defense. He received the URI Foundation Award for Teaching Excellence in 2005 and the Sheila Black Grubman Faculty Outstanding Service Award for service to the Faculty Senate in 2020. His research activities included demographics, economics education, regional economics, and the fashion business. He received his B.A. in mathematics and his Ph.D. in economics from Boston College.

MARY MOEN

Associate Professor, Graduate School of Library and Information Studies

Mary Moen, M.L.I.S. '03, Ph.D. '15, earned both of her advanced degrees from URI. She has coordinated the School Library Media (SLM) program for the Graduate School of Library and Information Studies since 2016. She has supervised dozens of students earning SLM certification, served on the Graduate Council, and oversaw four accreditation reviews of the SLM program. She was co-principal investigator on two assessment grants, program director of an Institute of Museum and Library Services-funded grant, and was awarded an American Association of School Librarians research grant sponsored by School Library Connection.

PETER PATON

Professor of Natural Resources Science

Peter Paton was a wildlife biologist in the URI Department of Natural Resources Science (1995–2025) and department chair for 11 years. His research and teaching focused on the conservation of shorebirds, migratory land birds, and pool-breeding amphibians. He published more than 100 journal articles, but his greatest passion was going on field labs with undergraduates. He was awarded the URI College of the Environment and Life Sciences (CELS) Research Excellence Award in 2003, the CELS Teaching Excellence Award in 2015, and the Distinguished Naturalist Award by the Rhode Island Natural History Survey in 2024. He was inducted into the CELS Hall of Fame in 2024.

DEBORAH RIEBE

Associate Dean of Health Sciences

Deb Riebe, M.S. '90, received her Ph.D. in exercise science from the University of Connecticut and joined the URI Department of Kinesiology in 1995. Her teaching and research focused on physical activity and health. She published more than 100 research articles, books, and chapters, and her work has been cited more than 37,000 times. During her career, Professor Riebe held several leadership roles at URI including kinesiology department chair and the College of Health Sciences associate dean and interim dean. She was awarded fellowships in both the American College of Sports Medicine and the National Academy of Kinesiology.

JOSEPH S. ROSSI

Professor of Health Sciences, Director of the Behavior Change Research Center, Director of the Behavioral Science Program

Joseph S. Rossi, M.A. '80, Ph.D. '85, received his Ph.D. in experimental psychology from URI and joined the URI Department of Psychology faculty in 1985. His teaching and research focused on quantitative methods and health behavior change. He was codeveloper of the transtheoretical model of behavior change and, with colleagues from the Cancer Prevention Research Center, was principal investigator, co-PI, or co-investigator on more than 60 grants totaling about \$75 million. The recipient of the 2003 URI Foundation Scholarly Excellence Award, Professor Rossi is one of the highest impact authors in psychology and public health, with more than 200 publications receiving over 44,000 citations.

LEWIS ROTHSTEIN

Professor of Oceanography

Lewis Rothstein is a physical oceanographer who has published on a range of topics including ocean gyre dynamics, climate impacts on ocean gyre and coastal circulations, climate stressors on the biogeochemistry-ecology-physics of Narragansett Bay, hurricane air-sea interactions, El Niño, and ocean frontal structure dynamics. He served as editor of the *Journal of Geophysical Research*; steering committee member of the World Ocean Circulation Experiment; chair of the National Science Foundation Orion numerical modeling committee; principal investigator of the National Oceanographic Partnership Program for transdisciplinary ocean modeling; URI Metcalf Institute science director; and major professor and mentor to 15 Ph.D. and seven postdoctoral scholars.

ABRAN SALAZAR

Professor of Communication Studies

Abran J. Salazar, a professor with the URI Department of Communication Studies, received his B.A. and M.A. from Eastern New Mexico University and his Ph.D. from the University of Iowa. His teaching and research interests concern small group, interpersonal, and health communication. His research appears in *Human Communication Research*, *Health Communication*, *Small Group Research*, *The Handbook of Group Communication Theory and Research*, *New Directions in Group Communication*, and elsewhere. His scholarly and service activities have been recognized by international, national, regional and university organizations. He served on more than 60 M.A. and Ph.D. comprehensive examination, thesis, and dissertation committees.

MARK STOLT

Professor of Natural Resources Science

Mark Stolt's work at URI focuses on using soils information to solve environmental issues. His research was supported by the U.S. Department of Agriculture, the National Oceanic and Atmospheric Administration, the U.S. Environmental Protection Agency, and Sea Grant. He is a fellow of the Soil Science Society of America, receiving several awards for his work in wetland soils, soil survey, and classification. He published more than 75 highly cited peer-reviewed papers and taught thousands of students about soil management and use for a better world. He coached the URI soils judging team, which won numerous regional competitions and a national championship.

KATHLEEN TORRENS

Professor of Communication Studies,
Director of Graduate Studies

Kathleen Torrens earned her Ph.D. in speech communication from the University of Minnesota Twin Cities and joined the URI faculty in 2003. During her tenure, she developed the University's first online pedagogy course and subsequently helped to establish the Office for the Advancement of Teaching and Learning. Her work at URI has been recognized with two college advising awards and the URI Foundation & Alumni Engagement Teaching Excellence Award in 2020.

FREDERICK VETTER

Professor of Electrical, Computer,
and Biomedical Engineering

Fred Vetter has an M.S. in electrical engineering from the University of California, Davis, and an M.S. and Ph.D. in bioengineering from the University of California San Diego. He joined URI's Department of Electrical, Computer, and Biomedical Engineering in 2002, helped develop the biomedical engineering program, and played a critical role in shaping the curriculum. He has earned many awards, including the National Science Foundation Career Award, the Albert E. Carlotti Faculty Excellence Award, and the Outstanding Intellectual Property Award. The Society for Experimental Mechanics recognized his research with the Best Overall Symposium Paper Award.

JYH-HONE WANG

Professor of Mechanical, Industrial,
and Systems Engineering

Jyh-Hone Wang, a full professor in URI's Department of Mechanical, Industrial and Systems Engineering, obtained his B.S. degree in industrial engineering from Tunghai University, and his M.S. and Ph.D. degrees in industrial engineering from the University of Iowa. He joined URI in 1995 and has been engaged in human factors and driving safety research in transportation. His works have been published by many technical journals. He has taught many mainstream industrial engineering courses at URI and has served the University in various capacities, including department chair, graduate and undergraduate student advisor, Faculty Senate, and URI Summer Institute faculty leader.

JAMES MACE WARD

Teaching Professor of History

James Mace Ward, who earned his doctorate from Stanford University in 2008, has taught undergraduate, graduate, and honors courses in modern European history at URI since 2013, specializing in World War II, the Cold War, nationalism, and Central and Eastern Europe. His publications have won several academic prizes, including recognition from the Association for Slavic, East European, and Eurasian Studies. He has held fellowships at the U.S. Holocaust Memorial Museum and the Imre Kertész Kolleg in Jena, Germany. His current research project is a history of modern expropriation framed as a voyage down the Danube from Vienna to Budapest.

LINDA WELTERS

Professor of Textiles, Fashion
Merchandising, and Design

Linda Welters received her Ph.D. from the University of Minnesota in 1981. She served as chair of the URI Department of Textiles, Fashion Merchandising and Design for 18 years and was also director of the department's graduate program and director of the Historic Textile and Costume Collection. During her tenure at URI, Professor Welters was editor of *Dress*, the scholarly journal of the Costume Society of America, and editor of the series *Textiles that Changed the World* (Bloomsbury). She received the Distinguished Scholar Award from the International Textile and Apparel Association in 2002 and the Scholarly Excellence Award from the URI Foundation in 2005.

CHERYL A. WILGA

Associate Dean, Research
and Graduate Education

Cheryl Wilga received her B.S. and Ph.D. from the University of South Florida and completed postdoctoral studies at the University of California, Irvine, and Harvard University, where she was also a research associate. She was chair of the URI Department of Biological Sciences and then associate dean for research for the URI College of the Environment and Life Sciences (CELS). She received the CELS Research Excellence Award in 2009. An international expert on shark feeding biomechanics and locomotion fluid dynamics, her research was supported by the National Science Foundation. Her ongoing patented research focuses on developing synthetic cartilage implants for knee meniscus and intervertebral discs based on the biomechanics of shark cartilage.

COLLEGE OF ARTS AND SCIENCES

Some names of degree candidates may have been added or withdrawn from the official graduation list after this program was published. Notations of distinction for graduation—cum laude, magna cum laude, and summa cum laude—are those in effect at the time of publishing.

WELCOME TO THE ALUMNI COMMUNITY

Today you are joining a strong and talented community of about 148,000 alumni worldwide. You'll find many ways to stay connected to URI and your Rhody friends—through Homecoming, social gatherings, special events, and great networking opportunities. In addition, be sure to follow @AlumniURI on Facebook, LinkedIn, and Instagram. Visit alumni.uri.edu/young-alumni to find resources for recent alumni.

SUPPORT FOR YOUR CAREER

The alumni community is a powerful resource to help you along your career journey. You'll find hundreds of alumni ready to offer advice within **URI CareerConnect**, a career mentoring platform that matches you with alumni advisors based on degree, field, location, and other criteria. Set up your profile and schedule a one-on-one conversation with a fellow Ram right away! Alumni Career Services also offers webinars and workshops throughout the year to support your career journey. Visit alumni.uri.edu/careers to take advantage of these resources.

ANSWER THE RHODY SENIOR CHALLENGE

Congratulations! Before officially becoming alumni, we invite you to take part in the tradition of making a gift to RhodyNow, which provides immediate support to all facets of the University. Gifts of all sizes make an impact, and your participation is what matters most! Help answer the challenge, and encourage your classmates to do the same!

Leave your mark, and be counted! Visit uri.edu/give.

We would like to extend a special thank-you to the class members who stepped up to answer the challenge and can be seen wearing the philanthropy honor cord—a long, light blue, black, and white, braided cord that graduate contributors wear over the neck and shoulders. Every gift does make a difference, and we are grateful for yours.
