## FROM THE PRESIDENT

---

"The University of Rhode Island offers first-class education to the future leaders of the world. But perhaps even more inspiring are the students, staff, faculty, and alumni who work, teach, and learn on our campuses and in our communities. It is the dynamic interactions of our everyday lives that encourage and empower us to believe in ourselves, support one another, and be the absolute best community we can be."

—Marc Parlange

Dear Class of 2023,

Congratulations! I am pleased to formally recognize the incredible passion, commitment, and hard work you put into making today a reality. Without a doubt, your road to Commencement has been full of twists and turns, bumps and roadblocks. Indeed, the past few years have been exceedingly challenging for the world. But here at URI, I have been impressed with your agility and perseverance. Like many across the globe, you pushed yourselves to do incredible things, and I am proud to be a part of this community of big thinkers and doers who are moving us forward, together.

I am certain that when you leave the University, you will be well-equipped for whatever lies ahead and poised for success. In fact, I only have to walk through our campuses, grab a seat in the stands or the theater, listen in on a lecture or colloquium, venture into a lab, or stop to talk to any club to know that you have done great things at URI. Wherever your path takes you from here, I hope you bring a piece of the University along. I encourage you to lean on the connections you have made and the networks you have built. Stay an active and engaged member of the University, leverage the degree you have so richly earned, and you will reap the rewards for years to come. Your future is bright, with an open road on the horizon, and I can't wait to see where you go from here.

Congratulations, Class of 2023!

Sincerely,

A handwritten signature in black ink that reads "Marc Parlange".

Marc B. Parlange

President, University of Rhode Island

## ALMA MATER

All hail to thee, Rhode Island,  
We pledge our faith anew,  
While our heroes bring thee honor  
With our banner of white and blue.  
In truth we owe her much, for she's shown us the way  
To achieve and be of service to the world.  
So all hail our Alma Mater,  
Rhode Island, our guide whate'er we do.

## THE UNIVERSITY—PAST AND PRESENT

---

Think big. It's what we do every day at URI. It has been our hallmark ever since a small group of people acted on a big idea more than 131 years ago. Foresight, perseverance, and integrity have been the very foundations of the University since its beginnings in 1888, when several South Kingstown residents, the South Kingstown Town Council, and the state of Rhode Island made a collective donation of \$5,000 to purchase the 140-acre Oliver Watson Farm to establish a state agricultural school and experiment station.

Their action would exemplify the vision of President Abraham Lincoln and the Morrill Land-Grant Act of 1862, that education of the people and for the people was, and is, America's and the world's best hope for enduring prosperity and peace. In 1892, we became the Rhode Island College of Agriculture and Mechanic Arts, graduating our first 17 students just two years later. In 1951, we became the University of Rhode Island. Today, as we celebrate the University's 137th Commencement, those 140 original acres have grown into a 1,200-acre Kingston Campus, plus the Providence Campus, Narragansett Bay Campus, W. Alton Jones Campus, and the Rhode Island Nursing Education Center.

Much has happened during the past 131 years. Our colleges of nursing, pharmacy, business, engineering, arts and sciences, environment and life sciences, health sciences, and education and professional studies, and our Graduate School of Oceanography are signature centers of scholarship and research. More than 121 undergraduate and 78 graduate degree programs inspire our students and spark their creativity.

The University is known regionally and worldwide for its big ideas and pioneering research in such areas as ocean sciences, ocean engineering, coastal resiliency, food sustainability, fisheries, biomedical sciences; air, water, ground pollution, and plastic pollution; engineering, marine sciences, forensic sciences, neuroscience, pharmaceuticals, the behavioral sciences, and public health promotion.

In recognition of our enduring history, in 2017 the U.S. Department of the Interior recognized the beauty and architectural significance of our historic Quadrangle, designating the area as the University of Rhode Island Historic District, now part of the National Register of Historic Places.

Since 2007, the University has invested more than \$1 billion in campus capital projects and improvements.

In November 2022, Rhode Island voters made it possible for improvements to continue at the Narragansett Bay Campus by approving a \$100 million bond referendum. The funding will support phase two of the master plan to transform and modernize the campus, which will bolster URI's role as a leader in the blue economy. The project will also spur job creation and economic development and create sustainable and equitable career opportunities for all Rhode Islanders.

With the completion this month of a new pier and pump house at the Narragansett Bay Campus and upcoming construction of a new ocean robotics laboratory, phase one of the project is well underway. These projects will prepare the campus for the arrival of the new \$125 million National Science Foundation Regional Class Research Vessel *Narragansett Dawn*—slated to be delivered in 2024.

Work continues on the Fine Arts Center, thanks to a bond referendum approved by Rhode Islanders in 2021 to support higher education. The bond issue includes \$57.3 million to continue renovations and improvements to the 55-year-old home of URI's theater, music, and art departments. The center serves more than 5,000 students each year and brings more than 50,000 visitors to the Kingston Campus annually for stage plays, concerts, gallery shows, and smaller exhibits.

In the decades since its founding, the University has mourned its war dead, survived the Great Depression, been a part of the Civil Rights Movement, and protested wars, gun violence, and racial injustice, all while growing into a university with a global reach and broad impact in the state. Together, over the past three years, we successfully met the challenges of the COVID-19 pandemic.

In the spring of 2022, URI's 12th president, Marc B. Parlange, presided over the University's 136th Commencement, the first one held in three years on our historic Quadrangle.

As our 131st academic year draws to a close, the University's enrollment has grown to more than 17,000 undergraduate and graduate students. Today, URI has about 143,000 alumni all over the world, including almost 60,000 who call Rhode Island home. On May 19, 20, and 21, as we celebrate our 137th Commencement, President Parlange is proud to welcome and confer undergraduate and graduate degrees upon about 4,100 of our newest alumni.

## THE COMMENCEMENT EXERCISES AND ACADEMIC PAGEANTRY

---

Over the centuries, banners and flags have lent drama to public ceremonies, and the flags you see today represent the University, the history of the state, and some of the Rhode Island and international communities from which our students come. These flags help to deepen our sense of tradition and community history.

The backdrop for the Commencement exercises consists of the banners of the 10 degree-granting colleges and schools that make up the University, as well as University College for Academic Success. Traditional colors of the academic disciplines have been used: Arts and Sciences, white and golden yellow; Business, drab; Education and Professional Studies, light blue; Engineering, orange; Environment and Life Sciences, maize; the Graduate School, blue and gold; Health Sciences, sage; Nursing, apricot; Oceanography, aqua; and Pharmacy, olive green.

The flags framing the Commencement stand are associated with early Rhode Island history: the Flag Act of 1777 flag, Betsy Ross variation; the flag of the Battle of Rhode Island (1778); the Grand Union flag (1776); the 1st Rhode Island Regiment flag (1775); the Rhode Island Colony flag (1774); the Meteor flag (1707); the Union flag (1707); and the Red Ensign (1620 in New England).

The international flags remind us of the growing importance of cultural diversity, internationalization, and global awareness.

The University of Rhode Island color guard will present the colors and lead the academic procession. The grand marshal, carrying the university mace, will follow the color guard. The faculty and the candidates for degrees will follow the grand marshal.

Academic dress has its origin in the colorful gowns and hoods of the Middle Ages. In the United States, a common code of academic dress was not adopted until 1895. This decreed three kinds of gowns and three hood lengths for bachelor's, master's, and doctoral degrees. Hoods are lined with the color or colors of the university conferring the degree and are bordered with a color representing the subject of study for which the degree is conferred.

Throughout the Commencement exercises, one may see reflected the pomp and ceremony of a feudal society and the intricacies of the medieval art of heraldry—in the ritual, the dress, the ceremonial accoutrements, such as the university mace, and in the wording of the degrees conferred.

### UNIVERSITY MACE

The university mace was donated by the Class of 1963. It is made of gold-plated sterling silver and is mounted on a 3-foot rosewood staff. The URI seal, 3 inches in diameter, crowns the staff, with a sketch of Davis Hall on the back. Davis is one of the University's oldest buildings and is the site of the university bell tower.

### PRESIDENTIAL MEDALLION

The medallion worn by the president was donated to the University as a 100th birthday gift by goldsmith and University of Rhode Island alumnus Robert C. Corio '73. Made of 18-karat gold and about the size of a half dollar, it is stamped with the university seal and is bordered by an elegant, rounded setting. The chain is made of small gold ovals linked together, each engraved with the name of a university president emeritus. Through the years, the name of each new president will be added to the medallion.

### GONFALONS

Within the Commencement procession, each college will process behind gonfalons carried by one of its own graduates. Gonfalons are flags or banners, hung from crosspieces on poles, that have been used since medieval times as symbols of state or office and are now traditionally used by colleges and universities. The background of each college's gonfalon is the official URI dark blue; the stripes on the gonfalons are the traditional colors of the academic disciplines.

### 2023 NATIONAL SCHOLARSHIPS

*Some national scholarship programs are so prestigious that one can only apply if nominated by the University. This year, the following students and alumni have been recognized in such competitions:*

Six URI students have been selected as 2023 Boren awardees: Ashlynn Cunningham '24, Lillian Dissette '24, Barbara Lunz '24, Tiffany Morel '23, M.A. '25, Delaney Patch '24, and Brandon Yeh '24. Four of the six are members of the Chinese Flagship Language Program and will spend their capstone year abroad in Taiwan. The fifth student, Brandon Yeh, will spend the year in Taiwan in completion of the International Engineering Program. Tiffany Morel, a student in the accelerated B.A. to M.A. program in international relations, will spend the academic year in South Korea. An initiative of the National Security Education Program, the David L. Boren Awards provide funding opportunities for U.S. undergraduate and graduate students to study less commonly taught languages in world regions critical to U.S. interests. In exchange for funding, Boren scholars and fellows commit to working in the federal government for at least one year after graduation.

Two URI students and two alumni have been offered 2023 grant awards from the Fulbright U.S. Student Program. Timothy Berard '20 has been offered a grant to pursue an M.A. in migration studies at the University of Sussex in England. Heather DiFazio '23 has been offered a grant to conduct research in Switzerland.

Annabelle Leahy, M.M.A. '23, and M.S. '23, has been selected for the Fulbright Schuman Award to the European Union to conduct research. Nathaniel Sandoval '21 has been selected for the Fulbright English Teaching Assistant Program to Panama. Written into law by President Harry S. Truman in 1946, the Fulbright U.S. Student Program is the flagship international educational exchange program sponsored by the U.S. government.

Three URI juniors have been selected as Goldwater scholars by the Barry Goldwater Scholarship and Excellence in Education Program. They are chemical engineering majors Camila Cersosimo '24 and Aidan Kindopp '24, and mathematics major Morgan Prior '24. Established by the U.S. Congress to foster and encourage outstanding students to pursue research careers in the fields of mathematics, sciences, and engineering, the Goldwater Scholarship is the premier undergraduate award of its type in these fields.

Lina Al Taan Al Hariri '24 has been selected as a 2023 Truman scholar. The Harry S. Truman Scholarship Foundation recognizes college juniors with exceptional leadership potential who are committed to making a difference through careers in government, the nonprofit or advocacy sectors, education, or elsewhere in the public service.

### HONORARY DEGREES

**TERRY TEMPEST WILLIAMS**  
Commencement 2023 speaker  
Doctor of Humane Letters

Writer, naturalist, and freedom-of-speech advocate Terry Tempest Williams is URI's 2023 Commencement speaker.

Williams has testified before Congress on women's health and been a guest at the White House.

She wrote: the environmental literature classic *Refuge: An Unnatural History of Family and Place; An Unspoken Hunger: Stories from the Field; Desert Quartet; Leap; Red: Passion and Patience in the Desert; The Open Space of Democracy; Finding Beauty in a Broken World; When Women Were Birds; The Hour of Land: A Personal Topography of America's National Parks;* and *The Story of My Heart* by Richard Jeffries, as rediscovered by Brooke Williams and Terry Tempest Williams.

Her most recent books are *Erosion: Essays of Undoing* and *The Moon Is Behind Us*, with photographer Fazal Sheikh.

Among the honors bestowed on Williams are the 2006 Robert Marshall Award from the Wilderness Society, the Distinguished Achievement Award from the Western American Literature Association, the Wallace Stegner Award given by the Center of the American West, a Lannan Literary Fellowship, and a John Simon Guggenheim Fellowship in creative nonfiction.

She is a recipient of the Sierra Club's John Muir Award, Audubon New York Award for Environmental Writing, and the Robert Kirsch Award, a lifetime achievement prize given to a writer with a substantial connection to the American West.

Williams is writer-in-residence at the Harvard Divinity School.

ZAVEN KHACHATURIAN  
Doctor of Pharmaceutical Sciences

Zaven Khachaturian is widely recognized as the “father” of modern Alzheimer’s disease research. His scientific interest in brain mechanisms of memory and his academic career in brain research began in the late 1950s at Yale University. In the span of subsequent decades, he has served in high-level positions in academia, the private sector, and government. During his 1977–1995 tenure at the National Institutes of Health (NIH)—with the dual role of director of the Office of Alzheimer’s Disease, NIH, and director of the Neuroscience of Aging Program, National Institute on Aging/NIH—he had responsibilities for strategic planning and decisions regarding government policies for funding-administering major national programs of research on Alzheimer’s disease and brain aging.

Khachaturian was responsible for launching major national research programs. He was also instrumental in making Alzheimer’s disease a top priority of the government and the subsequent unlocking of federal funding for research. Throughout his career, he has served as a mentor to countless investigators. He had a direct hand in launching the scientific-academic careers of many prominent and successful researchers in the field of dementia-Alzheimer syndrome in the U.S. as well as other countries. As the emeritus founding editor-in-chief of *Alzheimer’s & Dementia*, which is now the top-rated journal for dementia, he continues to serve as a deeply committed mentor to successive generations of scientists.

WENDY SCHMIDT  
Doctor of Science

Wendy Schmidt is a philanthropist and investor who has spent nearly two decades creating nonprofit organizations to work with communities around the world for clean, renewable energy, resilient food systems, healthy oceans, and the protection of human rights.

Through her grant-making and investing with the Schmidt Family Foundation—founded in 2006 with her husband Eric—communities from the Navajo Nation in Arizona to the Democratic Republic of the Congo have access to clean solar and micro-hydropower energy, as well as the economic, social, and educational opportunities that come with reliable power.

The Envision Resilience Challenge—a project of another organization Schmidt founded, ReMain Nantucket—calls on professionals and students to help communities facing sea-level rise. The challenge began in Nantucket, Massachusetts, and moved in 2022 to Narragansett Bay, with URI, the Rhode Island School of Design, and Roger Williams University among the six participating universities.

The first woman and American to win the world’s largest sailing race, the Barcolana 54, in 2022, Schmidt co-founded 11th Hour Racing in Newport in 2010 to work with the sailing community and maritime industry to advance sustainable solutions around the world.

Schmidt has a master’s degree in journalism from the University of California, Berkeley, and she graduated magna cum laude from Smith College with a bachelor’s degree in sociology and anthropology.

CLINT SMITH  
Doctor of Education

Clint Smith is an interdisciplinary scholar and inspirational social justice educator, poet, author, and renowned speaker. He earned a Bachelor of Arts degree in English from Davidson College and a Ph.D. in education from Harvard University. Smith is a staff writer for *The Atlantic* and author of the No. 1 *New York Times* bestseller *How the Word Is Passed: A Reckoning with the History of Slavery Across America*, as well as the poetry collections *Counting Descent* and *New York Times* bestseller *Above Ground*.

He continues to serve as an educator through his columns in *The Atlantic*, books, poetry, and YouTube series on Black American history. Smith is a sought-after speaker, giving talks at universities; organizations including the Southern Center for Human Rights, the National Book Foundation, and the Brennan Center for Justice; and scholarly events including the National Book Festival, the Moorland-Spingarn Research Center International Black Writers Festival, and the Aspen Ideas Festival.

A former high school teacher, Smith continues to educate the public about racial and other forms of injustice. Through powerful prose, Smith’s scholarly works humanize an oppressive world. He uses poetry, novels, articles, and videos to ensure that his messages are accessible to broad audiences. He led an inspirational workshop for URI education students on anti-racist education in the summer of 2020, after the death of George Floyd.

## FACULTY EMERITI 2022–2023

*This program includes faculty members who were granted emerita/us status as of May 1, 2023.*

DONALD H. DEHAYES  
Provost Emeritus  
Office of the Provost

Donald D. DeHayes served as provost and vice president for academic affairs at URI for nearly 14 years. Confronted with unprecedented challenges, he provided leadership, strategic financial management, academic planning, and oversight for academic initiatives. He led collaborative efforts to create two academic strategic plans and oversaw increases in enrollment, retention and graduation rates, degrees awarded annually, student and faculty diversity, and research funding and institutes. He implemented strategies to restore budgets and guided the safe delivery of the academic core mission during COVID-19. He chaired the Strategic Budget and Planning Council that recommended new university investments and championed shared governance to promote diversity, equity, and inclusion through the Academic Affairs Diversity Task Force.

JOSÉ A. AMADOR  
Professor of Soil Ecology

José Amador received his Ph.D. in soil science from Cornell University in 1990. Since joining the Department of Natural Resources Science in 1992, he developed a rigorous applied research lab that focused on soil-based wastewater treatment and the effects of agriculture on soil quality. He taught more than 10 different courses to more than 5,000 students, mentored 17 M.S. and six Ph.D. students, published three books, nine book chapters, and more than 100 scholarly articles, and garnered more than \$5 million in grants while at URI. He was a strong advocate for problem-based learning, which he practiced in all of the courses he instructed.

LAURA L. BEAUVAIS  
Professor of Management

Laura Beauvais received her Ph.D. in industrial/organizational psychology from the University of Tennessee, Knoxville, joining the faculty of the URI College of Business in 1984. Over her 38 years at URI, she taught management courses at the undergraduate and graduate levels and conducted research on employee work/life balance; ethics in academia; self-concept-based motivation; union and organizational commitment; and organizational culture and change. She has served in several administrative roles at URI, including the inaugural director of the business Ph.D. program, director of the full-time Master of Business Administration Program, and vice provost for faculty affairs. She served as interim provost from 2021 until her retirement.

MARLENE DUFUAULT  
Professor of Nursing

Marlene Dufault received her nursing B.S. from Alverno College, M.S. in nursing education from URI, and Ph.D. from the University of Connecticut. Her model for translating research innovations into evidence-based clinical guidelines was used to improve outcomes in pain management, infection control, emergency triage, handoff communications, and remote cancer symptom management by Lifespan's telehealth nurses. A steering and core committee member for the Advance Clinical and Translational Research program, she received the Sigma Theta Tau Delta Upsilon Chapter-at-Large Louisa White Award.

WILLIAM B. EULER  
Professor of Chemistry/Chair

William Euler earned a Ph.D. in inorganic chemistry from Florida State University and had a postdoctoral appointment at Northwestern University before joining the Department of Chemistry at URI in 1982. His research lab trained more than 100 undergraduate and graduate students in research areas that spanned the fundamental to the applied, was awarded several million dollars in research funds, and led more than 115 peer-reviewed publications. He also served as the chair of URI's Department of Chemistry for 18 years.

---

**DAVID E. FASTOVSKY**  
Professor of Geosciences

During a 36-year career at URI, David Fastovsky taught Earth history, authored well over 100 scientific articles, and, with co-author D.B. Weishampel, wrote six editions of a popular textbook on dinosaurs. He and his students carried out extensive fieldwork globally, reconstructing Mesozoic dinosaur diversity and dinosaur-bearing paleoenvironments from Mongolia to Mexico and pioneering the then-radical idea that the dinosaur extinction was abrupt. Ultimately, he taught 19 different classes, chaired the Department of Geosciences for nine years, and led undergraduates on spring-break trips to study the geological history of Colorado Plateau in Arizona and Utah for more than 30 years.

**DAVID FAUST**  
Professor of Psychology

David Faust received his Ph.D. from Ohio University and served on the faculty at URI for more than 30 years. He published over 100 research articles and more than 10 books and received numerous awards and honors in his field. His primary areas of interest include the philosophy of science, human judgment and decision-making, ethics, neuropsychology, and psychology and law. His extensive engagement in university service included diversity and equity initiatives that spanned over 20 years. Professor Faust is extremely grateful for the many individuals at URI who contributed so much to his career and quality of life.

**PAUL FLORIN**  
Professor of Psychology

Paul Florin received his Ph.D. in clinical community psychology from Vanderbilt University in 1981. In his 42-year career at URI, he focused on implementation research and population-based prevention and health promotion. The Community Research and Services Team, established with colleagues in 1988, served as his organizational focus for integrating service to the state, scholarly productivity, and evaluation training for graduate students. He was also an enthusiastic undergraduate instructor and especially enjoyed classes with diverse adult learners at the URI Providence Campus, where he was awarded the Gilbert Mongeau Award in 2016 for outstanding service to students.

**ARTHUR J. GOLD**  
Professor of Watershed Hydrology

Arthur Gold earned his Ph.D. at Michigan State University in 1983. During his 40-year career at URI, he influenced the lives of hundreds of undergraduate and graduate students. He studied the effects of land use on water quality; served as major professor for 34 graduate students; published more than 140 journal articles; was principal investigator or co-principal investigator on \$30 million in grants; co-led the Master of Environmental Science and Management graduate program; and was chair of the Department of Natural Resources Science for nine years. He worked on watershed issues throughout the Northeast and in developing countries. Among his numerous honors and awards was the URI Foundation's Scholarly Excellence Award in 2001.

**WILLIAM GREEN**  
Professor of Landscape Architecture

In 30 years at URI, Will Green has been a tireless advocate for landscape architecture as a teacher, public speaker, and member of the American Society of Landscape Architects (ASLA) and Council of Educators in Landscape Architecture. Since 1993, he has directed the nationally recognized URI Landscape Architecture Lecture Series. Professor Green has taught core classes in design, construction, and professional practice. Through his sustainable design service-learning studios, students have learned to engage stakeholders while developing skills and design solutions for cities and towns. His work has been recognized by the RIASLA; the American Planning Association, Rhode Island Chapter; and ASLA. He received his Master of Landscape Architecture from Cornell University.

**BRIAN HEIKES**  
Professor of Oceanography

Brian Heikes earned a Ph.D. in atmospheric sciences at the University of Michigan in cooperation with the National Center for Atmospheric Research, where he worked for five years after completing his doctorate. In 1988, he joined the URI faculty in the Graduate School of Oceanography. Professor Heikes' teaching and research are in meteorology and atmospheric chemistry, focusing on the transport, transformation, and fate of trace compounds using field observations and numerical models. He and his students engage in global air quality, making measurements at sea, on land, and in the air, covering all of the world's oceans and continents.

## FACULTY EMERITI 2022–2023

*continued*

### SAU-LON JAMES HU

Professor of Ocean Engineering

Sau-Lon James Hu received his B.S. in civil engineering from the National Taiwan University in 1978. He earned his M.S. and Ph.D. degrees in civil engineering from Rice University, Houston, Texas. In the fall of 1984, Professor Hu joined the Department of Ocean Engineering at URI as an assistant professor. During his nearly 40 years at URI, he advised many graduate students. He served as the graduate director in the department for close to 15 years and was very involved in coordinating research and academic/student exchanges with our partner in the Chinese International Engineering Program, the Ocean University of China.

### DANA KOVARSKY

Professor of Communicative Disorders

Dana Kovarsky earned his Ph.D. in 1989 from the University of Texas at Austin in communication sciences and disorders and went on to complete a post-doctoral fellowship at the University of Kansas. He joined the Department of Communicative Disorders at the University of Rhode Island in 1996 and has been chair of the department for the past 13 years. Over the years, his scholarship focused on the relationship between language, culture, and clinical discourse.

### CELIA MACDONNELL

Professor of Pharmacy

Celia MacDonnell has been at the forefront of the development and advancement of interprofessional education in the state of Rhode Island. She established a collection of educational coursework, conducted with URI's College of Nursing and the Warren Alpert Medical School at Brown University. She is a member of the National Academies of Practice, an organization of interprofessional health-care practitioners and scholars elected by their peers, with a mission to foster collaboration and advise governmental bodies on our health-care system. In 2020, Professor MacDonnell was selected by her interprofessional peers as a distinguished fellow of the National Academies of Practice.

### LESLIE MAHLER

Professor of Communicative Disorders

Leslie Mahler began her career as a speech-language pathologist working in a medical setting. She joined URI's Department of Communicative Disorders in 2007 after receiving a dual Ph.D. in speech science and neuroscience. Professor Mahler integrated her clinical expertise with research and teaching to enhance academic learning and community outreach. She was a productive scholar and provided students from multiple disciplines with unique learning opportunities. Professor Mahler had a leadership role in the creation of the new interdisciplinary neuroscience major, which will benefit students, faculty, and the community for years to come.

### DIANE MARTINS

Professor of Nursing

Diane Martins earned a B.S. in nursing from Salve Regina College, an M.Ed. in community/public health nursing education from Columbia University, an M.A. in medical sociology and a Ph.D. in nursing from the University of Connecticut. Professor Martins has made sustained scholarly contributions through her longstanding commitment to vulnerable populations and theory development. She has collaborated with community partners on behalf of those who are homeless, older, and experiencing food insecurity and hunger. Professor Martins has served the population experiencing homelessness in Rhode Island since 1986 and has the distinction of being a fellow in the American Academy of Nursing.

---

**PETER NIGHTINGALE**  
Professor of Physics

Peter Nightingale received his Ph.D. in 1978 from the University of Amsterdam and joined the URI faculty in 1983. He has made immense contributions to the Department of Physics with his courses and research noted for their dedication to excellence. His research has had a major impact on the physics community and beyond. Professor Nightingale was co-author on a paper that was cited in the awarding of the 2016 Nobel Prize in physics. His social activism in the areas of poverty, nuclear weapons, and climate change arise from a genuine sense of professional responsibility and duty to current and future generations.

**ROBERT SCHWEGLER**  
Professor of Writing

Robert Schwegler earned his Ph.D. from the University of Chicago in 1978. Drawing on his research on assessment, grammar, and style, and his instruction in research writing, he authored numerous and award-winning publications that changed the way writing was taught at the college level. He brought this research, along with his scholarship on the theory and practice of the archive, to his teaching and stewardship of countless undergraduate and graduate students—the enduring legacy of his tenure spanning more than 40 years. Finally, he helped establish the University's independent Department of Writing and Rhetoric, one of the first of its kind in the United States.

**ROBERT THOMPSON**  
Professor of Marine Affairs

**STUART 'WES' WESTIN**  
Professor of Business Analytics

Stu "Wes" Westin holds an M.S. in marketing and a Ph.D. in information systems from the University of Massachusetts Amherst. He has published articles in a variety of academic journals within a range of disciplines and is a contributing author to several academic books on computing and information technologies. He served as associate editor of the Journal of Organizational and End User Computing for more than 25 years. In addition, he has developed numerous custom software systems for research, administrative, and educational applications. He has lectured in the U.S. and Europe on various information technologies topics.

## WELCOME TO THE ALUMNI COMMUNITY

Today you are joining a strong and talented community of about 143,000 alumni worldwide. You'll find many ways to stay connected to URI and your Rhody friends—through social gatherings, special events, reunions, and great networking opportunities. In addition, be sure to follow @AlumniURI on Facebook, Twitter, and Instagram. Visit [alumni.uri.edu/young-alumni](http://alumni.uri.edu/young-alumni) to find resources for recent alumni.

## SUPPORT FOR YOUR CAREER

The alumni community is a powerful resource to help you along your career journey. You'll find hundreds of alumni ready to offer advice within **URI CareerConnect**, a career mentoring platform that matches you with alumni advisors based on degree, field, location, and other criteria. Set up your profile and schedule a one-on-one conversation with a fellow Ram right away! Alumni Career Services also offers webinars and workshops throughout the year to support your career journey. Visit [alumni.uri.edu/careers](http://alumni.uri.edu/careers) to take advantage of these resources.

## ANSWER THE RHODY SENIOR CHALLENGE

Congratulations! Members of the Class of 2023, we invite you to take part in the alumni tradition of making a gift to RhodyNow, which provides immediate support to all facets of the University. Gifts of all sizes make an impact, and your participation is what matters most! Help the Class of 2023 answer the challenge, and encourage your classmates to do the same!

Leave your mark and be counted! Visit [uri.edu/give](http://uri.edu/give).

A special thank-you to the class members who stepped up to answer the challenge and can be seen wearing the philanthropy cord. Every gift does make a difference, and we are grateful for yours.
