

THE UNIVERSITY OF RHODE ISLAND

FALL COMMENCEMENT

December 13, 2025

FROM THE PRESIDENT

"The research university is one of the greatest contributions the United States has given the world—and URI graduates carry that legacy forward. Their degrees matter now more than ever, as they bring innovation, evidence-based thinking, creativity, and a spirit of service to their communities and professions. They are driving discovery, strengthening the economy, and improving lives across Rhode Island and beyond."

—Marc B. Parlange

Dear Class of 2025,

Congratulations! Today, we honor your hard work, your persistence, and your creativity. You may be leaving here, but commencement, by definition, marks the start of something new—your next chapter in life—and the beginning of all that lies ahead.

You are graduating from a research university—indeed one of the greatest in the country—a distinction that sets you apart. Research universities are places of curiosity, discovery, and purpose. They have given rise to life-changing innovations—from the internet to vaccines, sustainable farming and fishing techniques to smartphone technology. These breakthroughs didn't happen by chance; they started with a seed of an idea by faculty and students—just like you—in labs, classrooms, and field stations—places not unlike the ones you've studied in here.

You are also graduating from a public research university, which means your journey here has been part of a centuries-old mission: to serve the public good. As a public institution, our purpose is not just to generate knowledge—but to apply it in ways that strengthen our communities, drive local economies, improve health, and prepare future leaders who serve the evolving needs of our society.

Now, you take this mission with you. Whether you go on to start companies, care for patients, create art, engineer new systems, teach the next generation, or tackle problems we haven't even imagined yet—your work will matter. Your choices will matter. You are the lifeblood of your communities, and we need you—your ideas, your energy, your values—more than ever.

As you celebrate today, take a moment to recognize those who helped you reach this point. Behind every graduate is a network of support—family, friends, professors, mentors, and staff—who encouraged you, challenged you, and believed in you. As you move forward, stay connected to the University. Share your journey. And when you're able, give back. Your continued involvement will strengthen URI for generations to come.

We are so proud of you. We believe in you. And we can't wait to see what you'll do next. Congratulations!

Kind regards,

A handwritten signature in cursive script that reads "Marc Parlange".

Marc B. Parlange
President, University of Rhode Island

ALMA MATER

All hail to thee, Rhode Island,
We pledge our faith anew,
While our heroes bring thee honor
With our banner of white and blue.
In truth we owe her much, for she's shown us the way
To achieve and be of service to the world.
So all hail our Alma Mater,
Rhode Island, our guide whate'er we do.

Think big. It's what we do every day at URI. It has been our hallmark ever since a small group of people acted on a big idea more than 130 years ago. Foresight, perseverance, and integrity have been the very foundations of the University since its beginnings in 1888, when several South Kingstown residents, the South Kingstown Town Council, and the state of Rhode Island made a collective donation of \$5,000 to purchase the 140-acre Oliver Watson Farm to establish a state agricultural school and experiment station.

Their action exemplified the vision of President Abraham Lincoln and the Morrill Land-Grant College Act of 1862, that education of the people and for the people was, and is, America's and the world's best hope for enduring prosperity and peace. In 1892, the Rhode Island College of Agriculture and Mechanic Arts was formed, graduating its first 17 students just two years later. In 1951, the college became the University of Rhode Island, and those 140 original acres have grown into a 1,200-acre Kingston Campus, with additional locations throughout Rhode Island, including the Narragansett Bay Campus, the W. Alton Jones Campus, and in Providence, the state's capital city.

Much has happened during the past 133 years. The University is known locally and globally for its big ideas and innovative research across a broad range of disciplines, striving for practical solutions to the world's most important challenges.

In February 2025, the University ascended to the United States' highest level of research universities by earning the prestigious R1 designation in the Carnegie Classification of Institutions of Higher Education, placing it among

the top 5% of degree-granting post-secondary institutions nationally. The recognition reflects URI's broad impact and evolution into a world-class hub for research, innovation, entrepreneurship, and public scholarship.

Research conducted at URI transforms society's understanding of the world. Researchers are helping scientists deduce the volume of sea ice production and improve climate models of deep ocean currents. Visionary creative thinkers are imagining new ways of experiencing music and the visual arts that encourage inclusion and diversity. Innovators are isolating new molecules from blooms of cyanobacteria for potential use as therapeutics against a wide range of diseases.

URI's colleges of nursing, pharmacy, business, engineering, arts and sciences, environment and life sciences, health sciences, and education, and the Graduate School of Oceanography are signature centers of scholarship and research. Some 200 undergraduate and graduate degree programs inspire students, spark their creativity, and prepare them for the future.

Twice named the No. 1 public university in New England by *The Wall Street Journal*, URI is not only a leading global education and research institution—its Kingston Campus is also a national historic site. In 2017, the U.S. Department of the Interior recognized the beauty and architectural significance of the historic Quadrangle, designating the area as the University of Rhode Island Historic District, now part of the National Register of Historic Places.

At URI, historic preservation is paired with remarkable progress. Since 2007, the University has invested more than \$1 billion in campus capital projects and improvements. The University is nearing completion of a comprehensive renovation of the Fine Arts Center, which serves more than 5,000 students each year and brings more than 50,000 visitors to the Kingston Campus annually for plays, concerts, gallery shows, and exhibits. Notable renovations are underway on the University's athletics and recreation facilities. Three new on-campus student residence halls will be constructed under an innovative public-private partnership. And transformative investments in the Narragansett Bay Campus will bolster URI's role as a leader in the blue economy and make it a cutting-edge home for the new National Science Foundation regional class research vessel *Narragansett Dawn*.

Rhode Island voters approved an \$87.5 million investment for a biomedical sciences building on the Kingston Campus, which will enable the University to continue to lead with cutting-edge research and education across a range of biomedical, biotechnology, and science-related fields.

With a bold vision for the future, the University's enrollment has grown to more than 17,000 undergraduate and graduate students. Today, URI has some 148,000 alumni around the world, including more than 60,000 who call Rhode Island home. We congratulate our newest graduates and welcome them to the proud University of Rhode Island alumni community.

THE COMMENCEMENT EXERCISES AND ACADEMIC PAGEANTRY

Over the centuries, banners and flags have lent drama to public ceremonies, and the flags you see today represent the University and international communities from which our students come.

Gonfalons are flags or banners hung from crosspieces on poles that have been used since medieval times as symbols of state or office and are now traditionally used by colleges and universities. The Commencement gonfalons represent the degree-granting colleges and schools that make up the University. Traditional colors of the academic disciplines have been used: Arts and Sciences, white and golden yellow; Business, drab; Education, light blue; Engineering, orange; Environment and Life Sciences, maize; the Graduate School, blue and gold; Health Sciences, sage; Nursing, apricot; Oceanography, aqua; and Pharmacy, olive green.

The international flags remind us of the importance of cultural diversity, internationalization, and global awareness.

The grand marshal, carrying the university mace, will lead the academic procession. The candidates for degrees and faculty will follow the grand marshal.

Academic dress has its origin in the colorful gowns and hoods of the Middle Ages. In the United States, a common code of academic dress was not adopted until 1895. This decreed three kinds of gowns and three hood lengths

for bachelor's, master's, and doctoral degrees. Hoods are lined with the color or colors of the university conferring the degree and are bordered with a color representing the subject of study for which the degree is conferred.

Throughout the Commencement exercises, one may see reflected the pomp and ceremony of a feudal society and the intricacies of the medieval art of heraldry—in the ritual, the dress, the ceremonial accoutrements, such as the university mace, and in the wording of the degrees conferred.

UNIVERSITY MACE

The university mace was donated by the Class of 1963. It is made of gold-plated sterling silver and is mounted on a 3-foot rosewood staff. The URI seal, 3 inches in diameter, crowns the staff, with a sketch of Davis Hall on the back. Davis is one of the University's oldest buildings and is the site of the university bell tower.

* Commissioned in December

** To be commissioned in January 2026

This program includes faculty members who were granted emerita/us status as of Nov. 1, 2025.

MATTHEW M. BODAH
Professor of Economics

Matthew Bodah, M.S. '88, earned his Ph.D. from Michigan State University, joined URI's faculty in 1992, and became chair of the Department of Economics in 2009. He received the College of Arts and Sciences Administrative Excellence Award in 2012 and led URI's reaccreditation in 2017, the same year he was named vice provost for academic personnel and budget. He received the 2011 Reverend Charles P. Quirk Award, was honored by the R.I. Labor History Society in 2015, and recently received the Myron C. Taylor Management Award. While on the faculty, he maintained a practice as a labor arbitrator and mediator.

TERRY BRADLEY
Professor of Fisheries, Animal and Veterinary Sciences

Terry Bradley, M.S. '80, served as a professor in the Department of Fisheries, Animal and Veterinary Sciences for 41 years. He taught an array of fish and aquaculture courses covering all aspects of the discipline, from fish physiology to basic practices of aquaculture, culture of salmonids and marine finfish, to systems design and operation. His research ranged from production and analysis of transgenic trout to development of techniques for culture of novel marine species and investigations of the effects of nanoparticles on development and growth of larval fish. He was pleased to mentor numerous promising and enthusiastic undergraduate and graduate students.

SHANETTE HARRIS
Professor of Clinical Psychology

Shanette Harris received her Ph.D. in clinical psychology from Virginia Polytechnic Institute in 1989. After serving as an assistant professor at the University of Tennessee from 1989 to 1994, she joined the URI faculty as an assistant professor of psychology and African and African American studies in 1994. She served as president of the Association of Social and Behavioral Scientists Inc. Her research focused on understanding the factors that influence the educational, psychosocial, and physical health of African heritage populations, including eating disorders in Black women, Black male masculinity, and barriers to Black men's college success.

DAVID NELSON
Professor of Cell and Molecular Biology

David Nelson received his A.B. and Ph.D. from University of California, Los Angeles, and his M.S. from the University of Wisconsin-Madison. Following postdoctoral training at the University of California, Berkeley, he joined the URI Department of Microbiology in 1982. At URI, he was major professor to 33 graduate students, published extensively, and served as an editor and reviewer of journal articles. He received \$11 million in research funds; was named CELS Research Scientist of 2001; created and was director of the Genomics and Sequencing Center on campus; and served on numerous committees at URI. His research on pathogenic bacteria resulted in four patents.

KATHERINE PETERSSON
Professor of Animal and Veterinary Science

Katherine Petersson is a professor and chair of the Department of Fisheries, Animal and Veterinary Sciences at the University of Rhode Island. She earned her B.S. in animal science from Texas A&M University (1982) and her M.S. (1986) and Ph.D. (1990) from Cornell University. Her integrated research/outreach program focuses on three areas: using natural plant products and *Bacillus thuringiensis* proteins against gastrointestinal nematodes in small ruminants; enhancing immune responses of sheep and goats to gastrointestinal parasites; and promoting adoption of integrated parasite control practices among small ruminant producers to improve livestock health and welfare.

COLLEGE OF ARTS AND SCIENCES

Some names of degree candidates may have been added or withdrawn from the official graduation list after this program was published. Notations of distinction for graduation—cum laude, magna cum laude, and summa cum laude—are those in effect at the time of publishing.

WELCOME TO THE ALUMNI COMMUNITY

Today, you're joining a strong and talented community of more than 148,000 URI alumni around the world. There are countless ways to stay connected to URI and your Rhody friends—from Homecoming and social gatherings to special events and valuable networking opportunities.

Wherever your next steps may take you, remember there are Rams nearby—ready to connect, support, and cheer you on. We're so excited to stay in touch as you join our alumni community and can't wait to see all you accomplish. You'll always have a home here, so stay connected and keep being part of your Rhody family.

Be sure to follow @AlumniURI on Instagram, LinkedIn, and Facebook, and visit alumni.uri.edu/young-alumni to explore upcoming events, opportunities, and resources designed especially for recent graduates.

ANSWER THE RHODY SENIOR CHALLENGE

Congratulations! Before officially becoming alumni, we invite you to take part in the tradition of making a gift to RhodyNow, which provides immediate support to all facets of the University. Gifts of all sizes make an impact, and your participation is what matters most! Help answer the challenge, and encourage your classmates to do the same!

Leave your mark, and be counted! Visit uri.edu/give.

A special thank-you to the class members who stepped up to answer the challenge and can be seen wearing the philanthropy honor cord. Every gift does make a difference, and we are grateful for yours.

This program is printed on paper containing post-consumer fiber.
