What is the URI Energy Fellows Program? Why should I apply?
A paid work opportunity for undergraduate and graduate students interested in clean energy careers, networking and professional development. Over 75% of alums have secured clean energy jobs since the program began in 2008!

Who should apply? How do I apply for the 2023 program?
Motivated undergraduate or graduate students with a strong interest in clean energy, sustainability and the environment. Students enrolled in any academic major through December 2023 are eligible. Visit uri.edu/coopext/energy-fellows-program and submit your application by Friday, October 28.

When does the 2023 Energy Fellows Program begin and end?
Friday, January 20 (orientation) until Tuesday, December 12 (final presentations).

Where do URI Energy Fellows work?
Placements vary year-to-year, but usually include energy-related businesses, state policy agencies and nongovernmental organizations. In 2022, students were placed at National Grid, Green Development LLC, CommerceRI, URI Grid Security Laboratory, RI Office of Energy Resources, and more!

Questions?
Contact Kaylyn Keane, Energy Fellows Program Coordinator, at KKeane@uri.edu.

APPLICATIONS DUE FRIDAY, OCTOBER 28, 2022!
