Intellectual Property (IP) and Non-Disclosure Agreements (NDA)

ELECOMP Capstone Design Projects may result in ideas, inventions, creations, developments or improvements that are important to corporate sponsors. All sponsors and the University sign a mutually acceptable Sponsorship Agreement; a copy can be obtained from the Capstone Design Program (CDP) Director. The parts related to IP and NDA, in the Agreement are reproduced below:

**Intellectual Property**

Students, CDP Director and Sponsor agree:

1. That Sponsor retains exclusive, worldwide ownership of all URI rights, title and interest to products, data, drawings, processes, software, object and source code, technologies, and all other intellectual property developed in the performance of their work on the Project.
2. URI agrees to waive all rights of the CDP Director in favor of Sponsor in any improvement to Sponsor’s intellectual property and shall assist Sponsor, as necessary, in Sponsor’s efforts to obtain and perfect Sponsor’s title to such intellectual property in the United States and any other country which Sponsor deems appropriate; all at the sole expense of Sponsor.
3. Sponsor understands and agrees that URI does not have rights to intellectual property developed by Students in the performance of their work on the Project, and that Students must agree to waive their rights in favor of Sponsor, and in any improvement to Sponsor’s intellectual property, in a separate agreement.
4. Any rewards that Sponsor routinely provides its employees will be provided to Students by Sponsor if Students are named as inventors on a first filed United States Patent application.

**Non-Disclosure Agreements (NDA)**

During the course of the Project, Sponsor may entrust their Team Students, and the CDP Director, with business related information that Sponsor may consider confidential. In order to protect the proprietary interests of Sponsor and Students’ needs to meet educational objectives, the Students, CDP Director and Sponsor agree to the following terms and conditions governing the disclosure and use of such information:

1. The Sponsor will clearly label as “confidential” information shared with CDP Director or Students that is to be treated as confidential. Confidential information is that which is generally not known to the public, and is labeled as confidential,
and may include but is not limited to information such as customer data, product specifications, drawings, test methods, product plans, manufacturing process methods, production schedules, business costs, profit, sales, etc. In addition, the Sponsor **MUST** have their students on the team, and CDP Director, sign their own **NDA** (Non-Disclosure Agreement). This can be done in person at the Sponsor Facility, or sent to the CDP Director, who will get the signatures and send via pdf attachments to the Sponsor.

2. Information shared by Sponsor with Students or the CDP Director is done so in good faith and with the understanding that Students and CDP Director will use this information in the best interests of the Project.

3. In the context of the Project, it is understood that Students will make presentations and may discuss project ideas with fellow students in the Capstone Program. The CDP sponsor list, project descriptions and project posters are not considered to be confidential.

4. Confidential information will not be disclosed outside the URI community for a period of three years, unless specifically authorized by Sponsor. Additionally, when confidential information is discussed within the URI community with students or faculty not party to this Sponsorship Agreement, such information shall be identified as confidential information, which cannot be disseminated to the public.

5. Students and CDP Director will have the right to publish and present information concerning the Project, either on-campus or off-campus. Students and CDP Director will have the right to publish and present information concerning the Project at the Symposium in December and the Summit in May. Publications or presentations for audiences outside the URI community will be submitted for review to Sponsor at least three weeks in advance of publication submittal or presentation. Sponsor will have this time frame to respond with any clarifications regarding information that might be considered confidential or might otherwise jeopardize Sponsor's ability to obtain intellectual property protection. Students and CDP Director will not disclose information that Sponsor identifies as confidential or which Sponsor has identified as that which would jeopardize its ability to obtain intellectual property protection.
