

CHINESE IEP - Entering Fall 2023

The BA program in Chinese requires a minimum of 30 credits. You must take one CHN class in each semester, at least two 400-level CHN courses, and at least two Chinese/Asian culture courses from the following: HIS 171, 374; PHL 331; PSC 116, 377; RLS 131; THE 382. Students in the Chinese Language Flagship Program may take CHN 315 and 316 or CHN 315H and 316H in lieu of the 6 credits at the 400-level and 6 credits in literature and civilization. If you start at the CHN 104/205 level or above and have taken 3-4 years of Chinese or more during HS, you might be able to receive 3 credits of CHN toward your Chinese major (<https://bit.ly/urilanginccred>).

Please note you will need to pay a “credit overload” fee for each credit enrolled above 19 in any given semester (you will also need permission from your Dean’s Office to do so). Summer and winter coursework similarly incur additional costs beyond your fall and spring semester tuition.

General Education Outcomes can be completed when possible, including while abroad (one CHN course will cover outcomes A3 and C2)

Requirements for each College of Engineering major can be found at: <http://uri.edu/engineering/students/program-curriculum-check-sheets/>

<p>Note: This is a sample of the coursework you may be able to complete while abroad. Engineering majors normally satisfy one professional elective and one general education outcome while abroad that will apply to their BS requirements. You are responsible to complete all engineering requirements as outlined on the engineering curriculum sheet you are following. Credits completed abroad will vary by what is offered, your eligibility, and your own success.</p>

Preapproved Engineering Curriculum Adjustments:

Do not deter from the prescribed engineering curriculum sheet you are following unless confirmed with your engineering advisor. The following preapproved adjustments correspond to the engineering-specific curriculum sheet you are following:

Chemical Engineering: ECN 201 should most easily fit in the Sophomore Year Fall Semester (although can be taken in any fall or spring semester, and is normally offered in the summer).

Civil Engineering: STA 409 should be attempted in the Junior Year Spring Semester (seek to complete **1 Professional Elective** during your year abroad or during a summer or winter term at URI). CVE 355 can be taken in the Senior Year Fall Semester (your 5th year, after you return from your year abroad).

Computer Engineering: MTH 215 can be attempted in Sophomore or Junior Year Spring (and is normally offered in the fall and summer)

Industrial and Systems Engineering: enroll in MCE 201 in the Sophomore Year Fall Semester and ISE 240/241 in the Sophomore Year Spring Semester

CHN/EGR 413*

For CPE majors, CHN/EGR 413 counts as any of the required professional electives.

For BME majors, CHN/EGR 413 counts as the required professional elective.

For ELE majors CHN/ EGR 413 counts as the fourth professional elective in the B category as a 300 or 400 level COE course not required by the major.
