I submit the enclosed informational report to the Faculty Senate for its consideration. This report summarizes activities of the Honors Program and Visiting Scholars Committee during the immediately past 2017-2018 academic year.

ANNUAL REPORT
HONORS PROGRAM AND VISITING SCHOLARS COMMITTEE
2017-2018

The Honors Office has three distinct divisions: The Honors Program; National Fellowships Program; and Pre-Health Professions Advising Program.

HONORS PROGRAM

A. Eligibility Standards

Students may participate in the Honors Program if they meet the following standards: Sophomores, juniors, and seniors must have earned at least a 3.40 cumulative grade point average at URI; transfer students must have received a GPA of 3.40 or better at their previous institution to be eligible for honors courses. Incoming freshmen are invited to participate in the Honors Program based on one of the following:

- a cumulative high school GPA of 3.80 or higher (SAT scores are not considered)
- a cumulative high school GPA of 3.50 and higher AND a combined SAT score of 1300 or higher in Critical Reading and Mathematics (or ACT 27 or higher)

We decided on the dual eligibility criteria because SAT scores are highly correlated with family income; we wanted to be sure we were not excluding first generation and Pell eligible students.

Eligible accepted students AY 2018-19
3.5 > GPA and 1300 > SAT/27 > ACT = 104 students
3.8 > GPA (no SAT/ACT) = 889 students

B. Early Registration for Honors Program

Participation in Early Registration advising suggests a means by which to assess student commitment to completing the Honors Program. Early Registration advising requires both student completion of a form detailing their progress toward meeting program requirement and their signature on a statement confirming their intention to complete the entire program.

1. Early Registration advising:
   AY 2017-2018: 803 students declaring an intent to complete the Honors Program.
C. Courses and Enrollment

During the Fall 2017 semester, the Honors Program offered 53 Honors courses (in addition to Honors Projects, Honors Directed Study and Administrative Internships).

In the Spring 2018 semester, we offered 37 Honors courses (in addition to Honors Projects, Administrative Internships and Honors Directed Study).

Class Enrollments

- Fall 2017: 1091 students
- Spring 2018: 629 students

D. Faculty and Staff

The Honors faculty is drawn from seven of the University’s colleges. See Appendix A for a list of those who taught Honors courses in 2017-2018. Over the past several years we have consciously attempted to increase the disciplinary diversity of our course offerings.

E. Honors Colloquium

The Fall 2017 Honors Colloquium, *Origins: Life, the Universe and Everything* was coordinated by Alycia Mosley Austin (Graduate School), Dawn Cardace (Department of Geosciences), Joel Chandlee (Department of Cell and Molecular Biology), Holly Dunsworth (Department of Sociology and Anthropology), and Albert Kausch (Department of Cell and Molecular Biology) with the assistance of Deborah Gardiner of the Honors Program.

The Colloquium examined topics such as *Genesis: The Scientific Quest for Life’s Origins*, *The Dynamic Unconscious Mind*, and *The Search for another Earth*.

Hakeem Oluseyi, Astrophysicist, cosmologist, inventor, TV host, and educator, was the opening speaker for the Colloquium and discussed *The Birth of Being: From the Big Bang to Babies*. He is space sciences education manager for NASA’s Science Mission Directorate and Distinguished Research Professor of Physics and Space Sciences at Florida Institute of Technology.

The special colloquium event *Tomorrow & Beyond: 40 Years of the Jane Goodall Institute* was presented by Dr. Jane Goodall, DBE, primatologist, ethologist, anthropologist, United Nations Messenger of Peace, and founder of the Jane Goodall Institute and the Roots and Shoots program.

The Colloquium closed with a presentation by Anil Seth, Neuroscientist editor, author and blogger. He is a professor of cognitive and computational neuroscience at the University of Sussex, co-director of the Sackler Center for Consciousness Science, and editor-in-chief of *Neuroscience of Consciousness*.

In addition to financial support from the Honors Program, sponsors in support of the Fall 2017 Honors Colloquium were:
2017-2018 was the eighth year that the Colloquium was web-streamed live on the URI homepage. This will continue, as will archiving of most public lectures for more widespread use. The URI Department of Media & Technology Services, the URI Department of Communications and Marketing and the URI Publications Office also wonderfully support the Colloquium.

For Spring 2018, we offered 3 Honors Colloquia: *Trekonomics: Life & Economics*, directed by Liam Malloy, Associate Professor, Department of Economics; *CSI Oceans*, directed by Karen Wishner, Professor, URI Graduate School of Oceanography; and *Mathematics & Humanity*, directed by Mark Comerford, Associate Professor, URI Mathematics Department.

**F. Visiting Scholars**

We supported several faculty proposals to bring visiting scholars to campus. We also worked with Vice Provost Laura Beauvais to award grants for international distinguished visiting scholars. One scholar visited the campus for a semester visit and taught an Honors 300-level course during the fall semester. We will work with the Provost’s office in developing and evaluating this program.

**G. Honors Project Conference and Awards Ceremony**

Honors Projects were presented at the eleventh annual Honors Project Conference on May 2, 2018. The student conference scheduled poster presentations throughout the day for humanities, social science, natural science, and professional college projects in the Memorial Union, Rainville Ballroom. Each student completing a project also contributed an abstract to the conference program, available in the Honors Program office in Lippitt Hall. Presenters and titles are listed in Appendix B along with faculty sponsors. Associate Director Carolyn Hames serves as the primary advisor to students completing the Honors Program and is the main organizer of the annual Honors conference.

I want to express sincere appreciation to these faculty sponsors who devote their time to mentoring the students completing their Honors Projects. Their contribution is particularly remarkable in that sixty-eight of these faculty members were not teaching an Honors course in 2017-2018. Together with the sixty-one faculty teaching Honors courses, this brings the total number of faculty participating in the Honors Program during 2016-2017 to one hundred and twenty-nine (129).
I. Honors Program and Visiting Scholars Committee 2017-2018

The members of the Honors Program and Visiting Scholars Committee during the past year were: Lynne Derbyshire, COM, Director, Honors Program; Ali Akanda, CVE; Jennifer Audette, PT; Jill Doerner, SOC; Skye Leedahl, HDF; Rob Widell, HIS; Rachael Sardinha, Student Senate.

J. Honors Housing

Housing is available to qualifying upper class Honors students on the 4th floor of the Garrahy apartments and sophomore housing for 50 students in Coddington Hall.

NATIONAL FELLOWSHIPS, AY 2017-2018

Led by Honors Assistant Director Kathleen Maher, the Office of National Fellowships and Academic Opportunities offers guidance and support to students applying for prestigious external fellowships and scholarships. It is important to note that these opportunities are not restricted to Honors Program students; the office works with students from any student background who meet the eligibility requirements. This includes graduate students for certain international awards, as well as many recent alumni.

For awards requiring formal institutional nomination or endorsement, 13 of our 26 nominees became finalists or awardees during the AY 17-18 competitions. Awardees hailed from the colleges of Arts and Sciences, Business, Engineering and the Environment & Life Sciences.

5 BOREN SCHOLARS

The National Security Education Program funds overseas study of languages critical to national security through the Boren Scholarship for undergraduates. Students are awarded approximately $20,000 and in return are obliged to work in federal employment (which aligns with their career goals) for a period of one year. Scholars also have the opportunity to attend a convocation ceremony in Washington, D.C. where they meet with their representatives in Congress. URI has a very strong track record in this program. This year 5 of our 6 applicants (84%) were named Boren Scholars, tying us for fifth place in the nation (with three other schools that also were awarded 5 Borens) out of 321 institutions with applicants. The national success rate was 28% (221/794). Since 2011 we have had 16 Boren Scholars – a success rate of over 50% – as well as three alternates.

Our 2018 Boren Scholars are:

1. **Salita Daraphet ’19**, a Chinese Flagship Program student with majors in Global Business & Chinese, received funding to support her Chinese Flagship Capstone Year at Beijing Union University.

2. **Emily Hadfield ’19**, a Chinese Flagship Program junior with majors in Global Business & Chinese was also awarded funds to support her Chinese Flagship Capstone Year at Beijing Union University, however she declined this award in favor of a Demers Fellowship.

3. **Chase Hall ’19**, a Chinese Flagship Program junior with majors in Political Science & Chinese and a minor in theatre was awarded funds to support his Chinese Flagship Capstone Year at Nanjing University.
4. **Tabatha Lewis’18**, a Peace Corps Prep Program senior with a major in Environmental Science & Management who is also pursuing a graduate certificate in hydrology, received full funding to participate in the inaugural class of the Boren Award’s Indonesian Flagship Languages Initiative (IFLI), which included an 8-week summer program at the University of Wisconsin-Madison, followed by a semester of intensive language study at the State University of Malang Indonesia. Subsequently she will spend the spring semester at one of our partner universities, the Univerisitas Islam Indonesia, where she will conduct research with one of Dr. Tom Boving’s collaborators.

5. **Christopher Parisella ’19**, an Honors Program and Peace Corps Prep Program student with majors in Political Science and Writing & Rhetoric, and minors in international development and French, received full funding to participate in the Boren Award’s African Flagship Languages Initiative (AFLI) program in French, which included an 8-week summer program at the University of Florida, followed by a semester of intensive French and survival Wolof in Senegal.

We would also like to recognize **Erik Schlicht ‘20 (PSC & THE)** for completing the rigorous Boren application process.

### 2 FULBRIGHT US STUDENT GRANTEES (Colombia and Spain)

Four of our 13 nominees to the Fulbright (31%) made it through the national screening process and were forwarded to the host countries for final review. Ultimately, two were awarded Fulbrights.

1. **Wilfredo Tangui ’18**, a pre-med Talent Development Scholar and Honors Program graduate with a degree in Biological Sciences and minors in Leadership Studies and Japanese, was awarded a Fulbright English Teaching Assistantship to Colombia.

2. **Jenna Ziegelmayer ’18**, an Honors Program graduate with majors in Communication Studies, Writing & Rhetoric, and Spanish, as well as a minor in Leadership Studies, was awarded a Fulbright English Teaching Assistantship to Spain.

URI’s other Fulbright nominees were:

- Morgan Adroved ‘18 (Honors Program with Cell and Molecular Biology)
- Rachel Bellisle ‘18 (Honors Program with Biomedical Engineering)
- DeAngelo Berry ‘17 (Writing & Rhetoric and Public Relations)
- Zoe Comingore ‘18 (Honors Program with Spanish and Writing & Rhetoric)
- Marisa DeCollibus ’17 (Honors Program with Psychology)
- Keegan Glennon ’16 (Honors Program with Philosophy and Psychology)
- Michael Grenier ’18 (Philosophy and Music)
- Kayla Lombardi ’18 (IBP: German and Supply Chain Management)
- Cassidy McCartan ’18 (Honors Program with Theater)
- Martin Miles ’16 (Honors Program with Biology)
- Katherine Owens ’17 (Honors Program with Philosophy).

### 2 GOLDWATER HONORABLE MENTIONS
The most prestigious undergraduate award for students in STEM disciplines, the Goldwater Scholarship recognizes those with strong potential for graduate studies and a STEM research career. For the 2018 cycle, URI nominated four students, two of whom received Honorable Mentions:

1. **Ryan Geib ’19**, an Honors Program student with a Mathematics major with minors in Chemistry and Biological Sciences. Ryan’s research mentor was Lenore Martin.

2. **Dean Kareemo ’19**, an Honors Program student with a Pharmaceutical Sciences major. Dean’s research mentor is Abraham Kovoor.

URI’s other nominees to the 2018 Goldwater were **Melissa Morris ‘19** (Honors Program with Chemistry major) and **Scott Selig ’19** (Biomedical Engineering and Germany).

**1 TRUMAN SCHOLAR**

Each year the Truman Foundation selects 60 college juniors who wish to make a difference through public service with a $30,000 award for graduate studies, as well a special summer internship program in Washington, D.C. Membership in the Truman Scholar community also leads to the benefit of an active lifelong professional network and special recruitment into leading graduate programs.

**Andrew Boardman ’19** is URI’s 15th Truman Scholar since the program’s inception in 1975. An Economics major and Honors Program student, Andy passed through a rigorous three-part competition including an interview before a distinguished panel of 8 in New York City. Andy hopes to contribute to the creation of policies which, in his words, will “ensure that all Americans—of all ages and backgrounds—have equal opportunity and a fair shot at upward mobility.”

URI’s other nominee to the 2018 Truman competition was **Brandon Lovejoy ’19**, with History, Theater and Public Relations majors.

**1 UDALL HONORABLE MENTION**

Each year the Udall Foundation awards 50 scholarships and 50 Honorable Mentions to sophomores and juniors across the nation in recognition of their leadership, public service and commitment to issues related to the environment or to Native America nations.

This year **Emma Mather ’21** (Honors Program with Wildlife Conservation and Biology) received an Honorable Mention from the Udall Scholarship Program.

URI’s other nominees were **Sarah O’Neil ’20** (Environmental and Natural Resource Economics) and **Krista Noe ’19** (Environmental Science and Management).

**OTHER NOTABLE RESULTS**

In addition to awards requiring institutional nomination, the Office of National Fellowships and Academic Opportunities offers guidance, feedback and interview preparation to students applying for many other nationally competitive awards, the most significant 2017-2018 results of which are noted below.
1. International Engineering Program student *Timothy Boyd ’20* (Electrical Engineering and German) won a **DAAD (GERMAN ACADEMIC EXCHANGE SERVICE) UNDERGRADUATE SCHOLARSHIP** to support their year abroad in Germany.

2. *Taylor Smith ’19* (Mechanical Engineering) received a funded 10-week engineering research internship at the Technische Universität Dresden in Dresden, Germany through the **2018 DAAD RISE Program** (aka the German Academic Exchange Service Research Internships in Science and Engineering Program.) Taylor investigated vibration analysis on rotating composite compressor blades with application in jet engines, with a focus on modal and finite element analysis.

3. Since its inception in 2011 the **BEATRICE S. DEMERS FOREIGN LANGUAGE FELLOWS PROGRAM** has awarded just under $1.5 million almost exclusively to URI students, who receive preference in the competition. This year 18 URI students were collectively awarded $233,900 from the Demers to support immersion experiences in foreign languages.

   They are:

   - **Elliot Anderson** (French and Civil & Environmental Engineering IEP)
   - **Julian Andriuli** (Japanese and Mechanical Engineering IEP)
   - **Salita Daraphet** (Chinese and Global Business IBP/Flagship)
   - **Sandra Deeb** (French and Ocean Engineering IEP)
   - **Kelly Domogala** (Spanish and Industrial & Systems IEP)
   - **Elliot Engleman** (French and Ocean Engineering IEP)
   - **James Gannon** (Spanish and Electrical Engineering IEP)
   - **Nina Gardner** (Spanish and Civil & Environmental Engineering IEP)
   - **Emily Hadfield** (Chinese & Global Business IBP/Flagship)
   - **Kimi Harrington** (French and Civil & Environmental Engineering IEP)
   - **Justin Hayes** (Spanish, Chemical Engineering IEP, and Cell & Molecular Biology)
   - **Mark Keenan** (German and Mechanical Engineering IEP)
   - **Robyn Johnson** (Spanish and Industrial & Systems IEP)
   - **Paul Kelley** (Arabic, non-matriculated student)
   - **Sophia Lavoie** (Arabic, Art History and English)
   - **Cynthia Malambi** (French and Political Science)
   - **Kevin Speckman** (Chinese and Environmental & Natural Resource Economics)
   - **Maeve Story** (German and Ocean Engineering IEP)

4. Three students were selected for **FREEMAN AWARDS FOR STUDY IN ASIA (FREEMAN-ASIA) PROGRAM.** They are:

   - **Dylan Kennedy ’20** (Chinese IEP in Biomedical Engineering) for AY 2018-19 study in China
   - **Claudia Yao** (Chinese Flagship) for Spring 2018 study in Shanghai
   - **Nicole Zurita** (Chinese Flagship) for summer 2018 study in China

5. The **BENJAMIN A. GILMAN INTERNATIONAL SCHOLARSHIP PROGRAM** is a U.S. Department of State undergraduate study abroad scholarship program for U.S. citizens of limited financial means (Pell grant recipients). While Gilman Scholarship applications are processed through the Office of International Education and Enrollment Services/Financial Aid, the Office of National Fellowships and Academic Opportunities assists in the promotion of the...
Gilman and critiques applications for Honors and Pre-Health students, as well as others who request assistance.

This year URI was honored as a “Top Producer” of Gilman Scholars for the preceding year (AY16-17) in two categories: mid-sized institutions and for STEM majors. URI was also selected through a competitive proposal process to host a regional training workshop for advisors on the Gilman Scholarship and Critical Language Scholarship on behalf of the US Department of State Bureau of Educational and Cultural Affairs. Kathleen Maher joined Tom Hospod and Kelly Watts from the Office of International Education to conduct this workshop for advisors from a broad range of over thirty institutions from throughout the Northeast. The director of the US Department of State Office of Global Educational Programs was also in attendance and offered opening remarks. As an outcome of this event, Kathleen Maher was subsequently asked to serve as a panelist on a national webinar for advisors at land-grant colleges hosted by the USDA as part of an initiative to increase the number of students applying for the Department of State Critical Language Scholarship for which Maher serves as an advisor and reviewer, and Tom Hospod was invited to serve as a panelist at the Diversity Abroad Conference to promote the Gilman Scholarship.

During the 2017-2018 academic year, 10 URI applicants were awarded Gilman Scholarships ranging from $325 to $5000.

- Patrick Curtis, Spring 2018 to Germany
- James Farrell, Spring 2018 to Spain
- Michael Grenier, Spring 2018 to United Kingdom
- Justin Hayes, AY 2018-19 to Spain
- Dylan Kennedy, AY 2018-19 to China
- Benjamin Lee, Spring 2018 to Germany
- Cynthia Malambi, AY 2018-19 to France
- Sandra Meetran, Spring 2018 to Spain
- Elizabeth Ramon, Spring 2018 to Japan
- Claudia Yao, Spring 2018 to China

6. Two sophomore marine biology students were selected as NOAA HOLLINGS SCHOLARS this year. They are Erin Tully ’20 and Max Zavell ’20. Over the course of two years they will each receive $19,000 in scholarship monies, a 10-week paid internship at an NOAA location and participate in several NOAA-organized professional development conferences. Since the programs inception in 2005, twenty-seven URI sophomores have been named Hollings Scholars.

7. The Rhode Island Foundation’s MICHAEL P. METCALF MEMORIAL FUND AND CHRISTINE T. GRINAVIC ADVENTURER’S FUND supports independent enrichment projects. Yasmin Hussein ’20 (Honors, Political Science, Public Relations) used her award to fund an internship with The Mother’s School Society in the West Bank, which focuses on providing assistance specifically to women in the West Bank, and to “elevate the role and position of the Palestinian woman inside the family as well as inside her community, through empowering her on her educational, economic, social, political, health and cultural rights”.

8. Ryan Geib ’19 (Honors Program with Mathematics) was selected to participate in a National Institutes of Health Summer Internship in the Laboratory of Immune Systems Biology.
9. **Zoe Comingore’18** (Spanish, Writing and Rhetoric) was selected by the Spanish Government to serve as a **North American Language & Culture Assistant** in Spain.

10. **Sam Foer ‘20** (Honors, Philosophy) was selected to attend **2018 NATIONAL ISI HONORS SCHOLARS SUMMER CONFERENCE**.

11. **Long Zou ’20** (Chinese IEP) was selected as an alternate in the highly competitive (<10%) Critical Language Scholarship Program.

12. **Kira Wencek ’19** (Honors Program with Computer Sciences and Art) is the recipient of the **US-Japan Bridging Scholarship** to support her study abroad semester in Japan.

......

While this year’s successes are exciting, it is important to note two points:

First, that those who apply but do not win or place in these competitions still derive a great deal of value from the campus process. Each year students tell us of how this deep, guided reflection on their accomplishments, goals and aspirations, has led them to discover other opportunities, or perhaps to realize a better professional path. It aids them identifying their mentors and in realizing the extent of their accomplishments, as well as any gaps which they need to address to successfully pursue their goals.

Secondly, that NONE of these successes would have been possible without dedicated faculty mentors who go above and beyond to support their students. Two, three or oftentimes four letters of recommendation from URI faculty members, as well as an institutional letter of endorsement or campus evaluation are required per application. A great letter takes a substantial amount of time to prepare! Boiler-plate letters and empty superlatives do not suffice for these special opportunities. Faculty themselves often prepare multiple drafts of their letters. We wish to heartily thank the faculty who put in that time, and in so doing launch their mentees into opportunities which are often transformative personally, professionally and intellectually.

There are too many letter writers to list here, but we would like to offer special recognition to the following members of the campus community who have gone a step further and offered their time on selection review committees and/or have served on mock interview panels. (Any omissions are surely accidental – please let us know if your name is missing.)

…and more

As we aim to increase the number of applicants to external prestigious awards, the need for faculty mentors and interview panelists will continue to grow. If you would like to get more involved, please contact Kathleen Maher directly. The current year is off to a strong start – Charlie Santos ’18 (Honors Program with Philosophy) interviewed at the British Consul General’s residence in
Boston last month and is currently on the nationwide reserve list for the Marshall Scholarship. Stay tuned.

**APPENDIX**

**URI Web Stories on Fellowships Winners**

[https://www.uri.edu/who/wilfredo-tangui-18/](https://www.uri.edu/who/wilfredo-tangui-18/)

[https://www.uri.edu/features/destination-spain/](https://www.uri.edu/features/destination-spain/)

[https://www.uri.edu/features/uris-newest-truman-scholar/](https://www.uri.edu/features/uris-newest-truman-scholar/)

[https://www.uri.edu/features/recipe-for-success/](https://www.uri.edu/features/recipe-for-success/)

Assistant Director Andrew Simmons leads the Pre-Health Professions Advising Program and chairs the Health Professions Advisory Committee (HPAC). His primary advising is with juniors, seniors, and recent alumni.

Maegan Cook is the advisor for freshman and sophomore pre-health students. She is also an advisor in the College of the Environment and Life Sciences (CELS) for students majoring in Biology, Biological Sciences, and Cell & Molecular Biology.

The Pre-Health Program supports student and recent alumni preparing to apply for admission to medical, dental, optometry, physician assistant, and other health profession training programs that require a degree beyond the baccalaureate (with the exception of pre-veterinary, which has a program in CELS). Though housed in the Honors Program, Pre-Health Advising is open to all URI students.

The program is guided by four goals:

1. **Knowledge**—students will gain knowledge of their intended profession sufficient to make an informed career choice related to their abilities, attributes, and values— even if this ultimately leads them to careers outside of the health professions.

2. **Planning**—students will create and continuously refine a rigorous and personally fulfilling academic and experiential pre-health plan. Such a plan will facilitate development of the high-level knowledge, skills, and personal attributes (as defined by the various health professions) needed for success in the admission process as well as the study and practice of health care.

3. **Reflection**—students will continuously assess and/or reflect on their learning in order to understand areas of strength and those in need of improvement, and to become increasingly aware of and understand their own motivation for a career in the health professions.

4. **Application**—students will develop carefully planned and well-timed applications to health profession schools.

Each of these goals is addressed through workshops, events, web and print resources, outreach, and individual advising. The pre-health program plans and implements over 20 workshops and events each year. The program also maintains a list of around 1,000 students and recent alumni interested in health professions.

Students and recent alumni receive comprehensive support for their applications through the HPAC. Each year, the Committee interviews students and recent alumni applying for admission to medical, dental, optometry, or podiatry school. The process begins with a self-assessment interview with the HPAC Chair to determine their readiness for the process. Applicants deemed to be ready then submit a comprehensive dossier that includes a personal statement, list of activities, and academic information. During the spring semester each student participates in a multiple mini interview session with HPAC, and then one individual interview with a committee member. With information gathered from the dossier and interviews, along with recommendation letters submitted by individuals familiar with the applicant’s work, the HAC Chair prepares a comprehensive letter of recommendation from HPAC, which is forwarded to each applicant’s designated schools along
with their supporting letters of recommendation. This committee letter is either required or strongly preferred by medical and several other health profession schools.

Special Admission Routs:

- **The Brown Early Identification Program**: URI has an agreement with the Alpert Medical School at Brown University whereby highly qualified students can apply for an early contingent admission. In past years this program was for sophomores; however, AMS has recently revised the program so that it is now for first semester juniors. In the spring of 2017, URI nominated 4 students for the EIP; of these, AMS offered interviews to three and admitted one. URI will be nominating students to Brown once again in November, 2018.

- **The URI-Johnson and Wales Master of Physician Assistant Studies Articulation Agreement**. Through this agreement, up to six qualified URI students are admitted to the JWU PA program. For the 2018 admission cycle, six applicants were admitted through the articulation agreement (an additional student who applied was admitted to a different program and withdrew her application to JWU). An addition URI graduate was admitted to JWU outside of the articulation.

For the 2019 cycle, four applicants have been admitted thus far; one of these applicants has decided to matriculate elsewhere. Another applicant was placed on the wait list after her interview. One URI applicant was rejected after being interviewed. This applicant did poorly on the interview and is continuing with applications to other PA programs.

Center for Nonviolence & Peace Studies: Thupten Tendhar, Visiting Buddhist Geshe Scholar.

College of Nursing: Carolyn Hames, Associate Professor (Nursing).

Graduate School of Oceanography: Karen Wishner, Professor, GSO; Arthur Spivack, Professor, GSO.

College of Pharmacy: Jeffrey Bratberg, Professor Clinical (Pharmacy Practice); Brett Feret, Professor Clinical (Pharmacy Practice); Brian Quilliam, Professor (Pharmacy).
HONORS POSTERS

MORGANNE ADROVED
Cell and Molecular Biology
Sponsor: Niall Howlett (Cell and Molecular Biology)
Insight into the regulation of the Fanconi anemia D2 protein, a major DNA repair protein

BRITNY ANDERSEN
Accounting
Sponsor: Cynthia Blanthorne (Accounting)
Service Based Learning of Income Taxes

JORDAN BALLETTO
Nutrition/Dietetics
Sponsor: Brietta Oaks (Nutrition and Food Sciences)
Multivitamin Usage and Anemia in College Students

VICTORIA BOND
Art
Sponsor: Barbara Pagh (Art)
Climate Change in Narragansett Bay

AISLYNE CALIANOS
Marine Affairs, Spanish
Sponsor: Megan Echevarria (Modern and Classical Languages and Literatures)
Climate Change, Colonialism, and Second Class Citizenry: A Case Study on the Impacts of Hurricane Maria in Puerto Rico

KATELYNN CAMERON
Animal Science and Technology
Sponsor: Maria Hoffman (Fisheries, Animal & Veterinary Sciences)
The Effect of High Maternal Milk Production During Pregnancy on Neonatal Health and Metabolism
HONORS POSTERS

HAYLEY CEDARHOLM
Political Science
Sponsor: Geoffrey Greene (Nutrition and Food Sciences)

Vegan in College: Simple, Affordable, Healthy Meals for Students

DANIELLE CODERRE
CMB: Biochemistry
Sponsor: Matthew Kiesewetter (Chemistry)

Investigations into Ring-Opening Polymerization of Functionalized E-Caprolactones

ZOE COMINGORE
Writing and Rhetoric, Spanish
Sponsor: Léhua Ledbetter (Writing & Rhetoric, Harrington School of Communication and Media)

Rhetorical Question

NICHOLAS CORITSIDIS
Environmental and Natural Resource Economics
Sponsor: Ann Salazar (Communication Studies, Harrington School of Communication and Media)

Potable Peru

JOHN CUNHA
Theatre
Sponsor: Rachel Walshe (Theatre)

Creating a Happy Ending for Socially Relevant Television
HONORS POSTERS

CONNOR CURTIS
Human Development and Family Studies
Sponsor: Robert Widell (History)
Service Leadership: The First Year Student Experience

SARAH DANKO
Nursing
Sponsor: Ginette Ferszt (Nursing)
Improving Access to Collegiate Substance Use Prevention Resources

LAURYN DEVINE
Textile Merchandising and Design, Psychology
Sponsor: Jessica Strübel (Textile Merchandising and Design)
Body Dissatisfaction and Dress Among Transgender Individuals

BRANDON DONOHOE
Biology, Communcation Studies
Sponsor: Charles Kell (English)
Storytelling Through Hip-Hop

HAYLEY DOYLE
Elementary Education, Spanish
Sponsor: Nicole Hersey (Secondary Education, Mathematics)
KHA Drama Club

KYLA DUFFY
History, Political Science
Sponsor: Aaron Ley (Political Science)
Polarization and the Supreme Court

AARON EIGHMEY
Applied Mathematics
Sponsor: Jacob Earp (Kinesiology)
Effects of Post Activation Potentiation on Upper and Lower Extremities
HONORS POSTERS

MEGHAN ELLIS
Public Relations
Sponsor: Shane Donaldson (Media Relations, URI Athletic Department)

MEGHAN FLANAGAN
Communicative Disorders
Sponsor: Pamela Rohland (Disability Services)

HAILEY FLAVIN
Journalism
Sponsor: Alison Jackson Fraiser (Center for Student Leadership Development)

EMILY GALLAGHER
Cell and Molecular Biology
Sponsor: Sara Murphy (Thanatology)

ALLISON GALLANT
Biology, Psychology
Sponsor: Kathleen Webster (Psychology)

LINDSAY GEITZ
Fine Arts
Sponsor: Barbara Pagh (Art & Art History)

BRIDGET HALL
History, Political Science
Sponsor: Ian Mather (History)

Stat Crew for Dummies

Understanding Deaf Culture

Sophomore Breakthrough Experience

Physician Suicide: An Overlooked Epidemic

Ethnographic Insight into the Developmentally Diverse World of Twins: “L & J”

Color Across Cultures

Standing Their Ground: The Grand Caillou/Dulac Band of Biloxi-Chitimacha-Choctaw Indians and their Fight to Preserve Community and Cultural Heritage from Climate Change and Land Loss in Southern Louisiana
HONORS POSTERS

SAMANTHA HATFIELD
Animal Veterinary Science
Sponsor: Anthony Mallilo (Fisheries, Animal and Veterinary Sciences)
Veterinary Training Practices in Pinnipeds

ELLIS IACONO
Biology, Journalism
Sponsor: Sara Murphy (Thanatology)
Priorities- A Documentary Investigation of HIV Education in Rhode Island

LAUREN INTRAVAIA
Cell and Molecular Biology
Sponsor: Cate Morrison (Communication Studies, Harrington School of Communication and Media)
Going Viral: Facebook Effective Models of Vaccine Information Communication

DEAN KAREEMO
Pharmaceutical Sciences
Sponsor: Abraham Kvoor (Biomedical Pharmaceutical Sciences)
Investigation of pharmacochaperone actions of antipsychotic drugs at the D2-dopamine receptor

AIDEN KEENE
Biomedical Engineering
Sponsor: Walter Besio (Electrical, Computer and Biomedical Engineering)
Modeling EEG and tDCS in SCIRun Software Packages

KATHERINE
KELLENBERGER
Cell and Molecular Biology
Sponsor: Jodi Canberg (Cell and Molecular Biology)
Cloning and functional analysis of the Escherichia coli cell division protein ZapE
HONORS POSTERS

CLAIRE KENNA
Finance
Sponsor: Susan Trostle Brand (School of Education)
Examining and Promoting Inclusivity in Children’s Literature: An Analysis of Race and Gender

SHANNON KOLASINSKI
Supply Chain Management &
LUCY MOYES
Supply Chain Management
Sponsor: Douglas Hales (Supply Chain Management)
“Good Vibrations”
