PROGRAM CHANGES: (5)

COLLEGE OF ENGINEERING:

Environmental Engineering Minor: (contact Jared Abdirkin)
Modification of the existing minor in environmental engineering, adding several course options.
(See Appendix A)

COLLEGE OF ARTS AND SCIENCES:

CRIMINOLOGY AND CRIMINAL JUSTICE (CCJ): (contact: Jill Doerner)
BA - CCJ major: (See Appendix B)
We are making some changes to the CCJ program to allow us more control over the courses in the major, to ensure students are ready for advanced course work by changing the prerequisites for our upper level courses, and to more effectively limit the number of internal transfers into the major by requiring students have at least a 2.5 GPA.

With the approval of the Department of Sociology and Anthropology (see email from Chair Kris Bovy included in this package), we are moving a number of courses out of Sociology and into CCJ. In some cases, these courses are only listed as SOC courses and will now be listed as CCJ courses; in other cases, we are removing the cross-listing with Sociology. All of those course changes are included in this package.

In addition, we propose to add the prerequisite to all of our upper-level courses of a C or better in each of our introductory courses, CCJ/SOC 230 and CCJ/PSC 274(H). We believe this is important for students to be successful in upper level courses, as well as the major overall.

We are also proposing to remove SOC 300, Topics in Sociology from our electives to reflect that we have been approved to offer a CCJ 200 and CCJ 400 topics course and SOC 300 is no longer necessary to offer CCJ topics.

ENGLISH DEPARTMENT: (contact: Travis Williams)
BA - English major; Create 2 tracks: (See Appendix C)
This proposal accomplishes three goals:
1. Replacement of the current, single track in the English Major with two tracks: Literature and Creative Writing.
2. Elimination of the Creative Writing Option in the English Major.
3. Redefinition of the requirements of the English Major.

CHEMISTRY DEPARTMENT: (contact: James Smith)
Forensic Science Minor: (See Appendix D)
Adding catalog language to the minor in Forensic Science that provides guidance for students and advisors as to course selection.

POLITICAL SCIENCE DEPARTMENT: (contact: Marc Hutchison)
International Studies and Diplomacy Program: (See Appendix E)
This minor change is intended to incorporate the new Global Language and Area Studies major which was approved in the Faculty Senate during the 2018-2019 academic year.
NEW COURSE CODE: (1)

UNIVERSITY LIBRARY:  (contact: Mary McDonald)

Creation of New Course Code - LTI (Library Technology and Innovation)  (See Appendix F)

We are requesting a new course code of LTI (Library Technology and Innovation). The purpose of this course code is for the development and creation of courses with a focus on emerging technologies such as artificial intelligence, big data, open access, data trends and the challenges that new technology brings. Many courses will be geared to Grand Challenge as well as across disciplines.
