Current Status

About 65 courses are currently using Brightspace in our Spring 2020 pilot.

Faculty and staff access: February 3, 2020.

Brightspace uses URI’s new Single Sign-on login system which is also gradually rolling out to all URI systems.

– If you haven’t done so already, you will need to sync your passwords first: password.uri.edu
Moving forward

Faculty mentors will be offering workshops and office hours. List and schedule will be on website.

Faculty will be able to archive courses and migrate newer ones. More information on available tools will be provided mid-February.
