Community English Classes for International Students, Interns, Scholars, & Family

FALL 2019

This class supports the language and orientation needs of international graduate students, interns, scholars, and families. Content focuses on expanding cultural awareness as well as enhancing fluency in conversational English through vocabulary development, interactive dialogues, presentations, readings, and activities. We will also support ways for students to further enrich their lives, while at the URI campus, by participating in local events and exploring local venues.
