

Students presenting a poster must submit their poster pdf [HERE](#) by Monday, March 16th if they would like the poster printed for them by the university. Please reach out if that date is an issue, and we can work together to make sure your work is ready for the conference!

As noted by the printer: do not use full-color backgrounds over the entire poster as it bleeds through the paper and can be difficult to prevent streaking in. The poster dimensions will be 32" x 40".

Students presenting a paper orally should prepare to speak for about 12 minutes. This usually translates to approximately 5 double-spaced pages.
