Internship Search Guide

1. Go to URI’s Center for Career and Experiential Education (CCEE) Health & Health Administration Career Cluster page: https://web.uri.edu/career/health-and-health-administration/
   - Click the “Searching for a Job/Internship” tab. It’s the first one listed which has health-specific resources within the tab for students to look through.
   - Contact for Ashley Foley, Career Education Specialist for HDF. can be found on this page.

2. Do a Google search for “Human service agencies in RI” to contact the agencies directly. Cold calling is better than an email. Inquire about possible internships and/or volunteering (this work can become an internship).

3. Make an appointment on starfish to discuss internship possibilities with an advisor, course instructor or professor or career education specialist.

4. URI Volunteer website: https://web.uri.edu/career/feinstein-volunteer-search/

5. LinkedIn: https://students.linkedin.com
