HELLO AND WELCOME

to the URI German IEP Study Abroad Survival Guide – Part 1! Congrats for making it this far and take a deep breath - it will all make more sense soon (hopefully). The purpose of this guide is to answer as many questions as possible about Germany, Germans, the IEP, Darmstadt, and lots of other things you might be wondering about. It was made by students who studied abroad and want to help you avoid any big issues with your year abroad. This doesn’t mean everything will always go perfectly, but what’s a year abroad without some stories to tell? So without further ado,

lass uns doch mal anfangen!

THE YEAR BEFORE

Information session

Attend the Info session for both TU Braunschweig and TU Darmstadt (TU-DA) on October 5th, 2018 – you will have to choose your preference today, but can change your mind until you will need to apply to one of them in the Spring of 2019. We will also collect your student data and interests, in order to help you make the most out of your year abroad, and find suitable scholarships for you. Please go to the following link and fill out the form during the meeting:

http://web.uri.edu/iep/survey

Keep in touch

Join the “GIEP/IBP Abroad 2019/20” WhatsApp Group for students who are going to Germany in their academic year 2019/20 by opening the following link on your phone:

https://chat.whatsapp.com/LICKQkB2Nh8ju23ezAjpY

There are many application deadlines in the next months. You will have to apply to study abroad, register at the German university, get your courses pre-approved, apply for student housing, and find your internship in Germany. You are therefore required to check your URI email and WhatsApp groups on a regular basis, and reply to any email messages from the IEP program within 48 hours, and WhatsApp messages within 24 hours.

Also join the “German IEP Support” WhatsApp Group if you are in your 3rd, 4th or 5th year of the program by opening up the following link on your phone:

http://goo.gl/b53g5i

Here you can exchange ideas with students going abroad, those who are in Germany right now and those who have returned from Germany. Returning students are an excellent resource to have to answer any questions you might have!

Opportunities for students with a high GPA

If your GPA is 3.6+, come see Dr. Berka to get yourself set up for a research institute project in Germany (see page 10) and for DAAD scholarship application (see page 5).

If you have a 3.3 GPA, and would like to earn 3 credits of MCE, CHE, ELE etc. 491 professional elective credits, talk to Dr. Berka about research institutes in Braunschweig (see page 10) or the IREP (page Error! Bookmark not defined.).
Apply for your passport

Make sure you apply for a passport ASAP, as it can take up to 8 weeks to receive it. Apply at Wakefield Post Office (551 Kingstown Rd, Wakefield, RI 02879) for new passport if you do not have one yet; international students apply for a visa through the German Consulate Boston. While you’re getting your picture taken, wear something respectable and get at least 6 extra copies of the passport picture, and scan one in so you have it digitally.

If you already have a passport check that it is valid until at least 6 months after the end of your study program in Germany. Also make sure to get a scanned and several physical copies, just like the folks who had to apply for a new passport, which will be used to get yourself established overseas.

Bring a copy of your valid American (or other) passport to GER 201 on November 30th 2018! If you are not taking GER 201, please attend this session.

Apply for scholarships

Students in the German IEP benefit from a wide array of scholarship opportunities. Below are some of the most common scholarships awarded to IEP students. For additional opportunities please consult https://web.uri.edu/iep/scholarships/ for sponsors such as the Fund of Education Abroad (21.01.2019), Technology Addiction Awareness Scholarship (30.01.2019), I Have a Dream Scholarship (31.01.2019), Women in Engineering Scholarship (31.04.2019), Out to Innovate Scholarships for LGBT STEM Students (01.06.2019), Go Global Scholarship (30.06.2019), Society of Women Engineers Scholarships (for deadlines please visit: http://societyofwomenengineers.swe.org/scholarships), and scholarships offered by the Modern and Classical Languages and Literatures Department (contact Damon Rarick, rarick@uri.edu).

Office of National Fellowships & Academic Opportunities (ONFA)

ONFAO advises and assists qualified undergraduates interested in applying for national and international scholarships and fellowships. URI students have won or been finalists in a wide range of prestigious competitions including the Boren, Fulbright, Gates, Goldwater, Marshall, Rhodes, Truman, and Udall scholarships. To be considered for nomination, students must submit their application to ONFAO. A selection committee then selects the official URI candidate(s), who then complete the official scholarship application with guidance from Kathleen Maher (k maher@uri.edu), who oversees the program, and faculty volunteers. For 2018/19 info sessions please visit: https://web.uri.edu/fellowships/.

Beatrice S. Demers Foreign Language Fellows Program

This scholarship is for students who share a passion for developing fluency in another language, and a plan of study which is designed to increase language proficiency by a significant margin. This is a scholarship set up by a former URI professor and IEP students have won a lot of money. Please contact Kathleen Maher (k maher@uri.edu) on details regarding the information session. Be sure to start early so you can give time to your references writing letters of recommendation. While the deadline for application submissions is on January 13, 2019, the internal deadline for URI students to submit drafts of the application and to request recommendations is on December 4th, 2018. Students are encouraged to review the criteria and work with Niko or Sigrid on an application. See Demers Info Session Presentation, 10 Steps to Apply for the Demers and Tips for Demers Letter Writers.
DAAD Study Scholarship
The DAAD (Deutscher Akademiker Austausch Dienst) is a German government-run program “for the support of international academic cooperation.” For the undergraduate study abroad scholarship this comes in the form of ~€750 per month. This is an involved application, so you will need to be working on it during the fall semester to have it done by the end of January deadline (check the website for the exact date). Along with letters of recommendation and a full application, you will need to have an institute placement in Braunschweig, so you’ll need to e-mail institutes and find a place willing to take you in and give you some sort of project. This is not something you can do during break, because people in Germany just won’t email you back during the holidays. You also need a German professor to fill out a language evaluation form, and to get an official transcript to mail in with the application. Long story short, start early.
https://www.daad.org/undergrad

Benjamin A. Gilman International Scholarship
The Gilman Program diversifies the kinds of students who study abroad and the countries and regions where they go by awarding over 2,300 scholarships of up to $5,000. Applicants must be US Citizens receiving a Pell Grant. Students are encouraged to apply for the fall application cycle but are also welcome to apply for the summer application cycle depending on their date of departure and intended plans. For more information regarding the program and application please visit: https://www.gilmanscholarship.org/

IEP Scholarships
The IEP also has a number of in-house scholarships which are just for you. Some are based on language, some on engineering major etc. For more information please visit: https://web.uri.edu/iep/scholarships/iep-scholarships-application/

H. J. Klein Foundation Scholarship
The objective of the H. J. Klein Foundation is to sponsor international exchange by granting scholarships to students for a stay abroad. Support is granted to students of all specialist fields who have shown proven commitment/ involvement in fostering international exchange. Further information about the Foundation and your application can be found on by visiting: https://www.schott.com/hjklein-stiftung/english/information-for-applicants/index.html

Optional: Apply for preliminary experiences abroad
For students enrolled in the German IEP, it is crucial to get some short-term immersion experience in the country in which they will spend their senior year. Please review the following internship, research and study opportunities that are available in Germany to gain preliminary experience, and to foster professional and personal relationships that will serve you later during your official term abroad.

USA Interns-Program
The program assists the development of future global leaders by encouraging students to do a summer internship (8 weeks to 6 months) with a German host employer. Selected candidates may expect a wide range of services including employment matching, post-match coordination, information on German work
permit waiver, orientation seminar and assistance in writing a professional cover letter and resume. A payment of 250 Euros must be arranged with the application before any further plans may be made. For more information regarding the program and application please visit: https://www.steubenschurz/usainterns/applications/applications.htm

DAAD RISE
RISE (Research Internships in Science and Engineering) Germany offers summer research internships in Germany for undergraduate students from North America. In their internships, students are carefully matched with doctoral students- whom they will assist and who will serve as their mentors. Interns receive a monthly stipend of 750 EUR to cover every day costs. DAAD provides health insurance, accident and personal liability insurance. About 300 scholarships are available each year. Letters of reference are due by January 7th, 2019. For more information regarding the program and application please visit: https://www.daad.de/rise/en/rise-germany/find-an-internship/application-portal/

CBYX for Young Professionals
The Congress-Bundestag Youth Exchange for Young Professionals (CBYX) is a yearlong fellowship to study and work in Germany. The CBYX program annually provides 75 participants with 2 months intensive German language training, 1 semester of study at a German university or university of applied sciences, 3-month internship with a German company in the participant’s career field, transatlantic airfare, health insurance, and monthly living expense stipends. For more information regarding the program and application please visit: https://culturalvistas.org/programs/abroad/congress-bundestag-youth-exchange-young-professionals/

University Summer Course Grant
This specialized Deutscher Akademischer Austauschdienst (DAAD) program provides scholarships to attend a broad range of three- to four-week summer courses at German universities which focus mainly on German language and literary, cultural, political and economic aspects of modern and contemporary Germany. Applications are open to undergraduates who have completed at least two academic years at the start of the scholarship period and requires German language skills equivalent at least to level A1 of the Common European Framework of Reference for Languages. For more information regarding the program and application please visit: https://www.daad.org/en/find-funding/undergraduate-opportunities/university-summer-course-grant/

J-Term in Germany
This program lead by URI’s German Department will allow students to explore the culture, technology environment and communicate with their budding language skills. Course work will be supplemented with company visits, city tours and research institute visits. Additionally students will visit the Deutsches Museum, the Pinakothek Munich, the Daimler Museum Stuttgart, and more. Students must be enrolled in Germany during the 2018/19 academic year to be eligible to apply for this program. Students will earn 3 URI credits for GER 487: Directed Study. For more information regarding the program and application please visit: https://uri-sa.terradotta.com/index.cfm?FuseAction=Programs.ViewProgram&Program_ID=10504

UROP International
RWTH Aachen’s Undergraduate Research Opportunities Program (UROP International) is designed for students from North America universities who have a GPA of 3.2 or higher and wish to gain research experience by conducting research projects at RWTH Aachen University. The program during a ten-week
research summer school between the middle of May and the end of July. A total of 60 students can participate but only 30 scholarships of 1,850 Euros each are available. If you do not receive a scholarship, you should estimate around 2,000 Euros for your living expenses. In addition you need to include three months’ rent (ranging from 220 and 300 Euros a month) and the cost of enrollment, which is approximately 230 Euros and includes a ticket for public transportation in the state of North Rhine-Westphalia. Additionally, there is a deposit of two months’ rent, which is reimbursed when you move out as long as the dorm is left in good condition. US or Canadian citizens usually do not need to apply for a visa if their stay does not exceed a duration of 3 months. For more information regarding the program and application please visit: http://www.rwth-aachen.de/cms/root/Studium lm-Studium/ Angebote-fuer-Studierende/UROP/UROP- lNternational/ ~wnr/ Informationen-fuer-Studierende/ lidx/1/

ThinkSwiss Research Scholarships
ThinkSwiss Scholarships support highly motivated and qualified U.S. undergraduate students to get a research experience or to participate in a summer school course in Switzerland. This program provides a monthly scholarship of CHF 1,600 (approx. USD 1,650) for a period of 2 to 3 months (CHF 4,800 maximum), which covers the majority of the average student’s living costs. For more information regarding the program and application please visit: http://thinkswiss.tumblr.com/About

International Research Experience Program (IREP)
If you have a GPA of 3.1 or higher, you can apply for the International Research Experience Program (IREP) at TU-DA. The main objective of the program is to foster research insights in an intercultural context. The IREP program offers a scholarship of 400 EUR per month for a total of three months, and also pays the enrollment fee for you. TU-DA suggests to apply for three different projects - even if they have the same supervisor because only one student can work on one project. For more information regarding the program and application please visit: https://www.tu-darmstadt.de/international/inbound/short_programmes/irep/index.en.jsp

Optional: German-STEM Summer School in Berlin
Spend the summer in Berlin, immerse yourself in German language and culture, and learn from experts in the STEM fields about the role of Germany in the sciences, technology, and engineering. The program includes 4 credits in German and 4 credits in Advanced Technical German (a graduation requirement) Talk to Dr. Tracksdorf (tracksdorf@uri.edu) to apply for scholarships through the Max Kade Foundation. For more information please visit: uri.edu/Berlin

Take care of URI paperwork
URIAbroad Pre-Decision Phase
The pre-decision phase begins the University of Rhode Island’s (URI) formal process to determine if you are eligible to participate in a study abroad program. Michael Forster (mwfoster@uri.edu) from the Office of International Education (OIE) will come to the TI House (61 Upper College Road, South Kingstown, RI 02881) to introduce you to the Study Abroad platform and to help you start your application. Please bring your laptops. For information regarding the application please consult step 2 on: https://web.uri.edu/international/the-study-away-process/ and refer to the following steps outlined under step 2 on the IEP website: https://web.uri.edu/iep/prepareforgermany/
The Prior Approval Form
The first thing you need to do is figure out which courses you need to take. Putting courses on this list doesn’t mean you have to take them, but transferring credits from courses you take that are not on the sheet and given to the OIE at URI will be much more difficult to transfer. So put anything that you think you might take or are remotely interested in taking on the list. There is also a stock list of classes that have been approved in the past, and an explanation of how you actually find the times and places in the “classes” section later. If you want to try something new, you need to go onto the main TU Darmstadt (TU-DA) website (www.tu-darmstadt.de). Then you need to start getting signatures from the head of the department that the credits are being transferred to, in most cases all the IEP and German classes everyone be approval by either Dr. Tracksdorf (tracksdorf@uri.edu) or Dr. Berka (sigrid_berka@uri.edu) but some engineering or math courses may need a signature from the respective engineering or math department head.

For students with a GPA of 3.3 or higher, there is the chance to engage in a research project at TU Darmstadt. You will work there for 10 hours/week, present a final report and write a summary in English for your URI advisor. That way you can earn 3 special problem credits (professional development). If interested, you need to have prior approval for it from a URI faculty in your engineering department who also serves as a mentor skyping/emailing with you about your progress. If you haven’t looked into that yet, here’s the list of research institutes or profile areas, with links to more information: https://www.tu-darmstadt.de/universitaet/profil_forschung/index.en.jsp

If you want to take an extra German grammar or conversation class (which is a great idea and a lot of students do), that also goes through either Dr. Tracksdorf or Dr. Berka. Since there are so few required classes to take at TU-DA, extra grammar courses would be especially helpful for the internship part of the year. You should also put a research project on this form; these transfer as “special projects” generally. Once all the classes are added, get it signed by your advisor and Assistant Dean of Student Affairs, Jared Abdirkin, by dropping the form off with his assistant Wendy in the IEP House (67 Upper College Road, South Kingstown, RI 02881). Wendy will notify you when the form is signed by him ready to be picked up. Then get it in to Dr. Berka and Tom Hospod (tomh@uri.edu); keep a copy of it for your own records.

URIAbroad Post-Decision Phase
The post-decision phase instructions will be accessible via your URIAbroad account and must be submitted by May 1st, 2019. If you have any questions please contact Michael Forster (mwfoster@uri.edu) from the OIE.

Take GER 202 and finish your internship applications
You need to make a Lebenslauf (resume) and a Bewerbungsschreiben (cover letter) in German, which you will use for institutes and internships. There are different norms for both of these in Germany, so you can’t just translate something you have in English. For example, it is customary to put a professional picture of yourself on your resume, as well as details like age and marital status. In this course, you will learn about possible companies to complete your required internship at, write your cover letters, and develop skills needed to be successful during your year abroad. If you take GER 202 or not, submit the final internship application(s) to Dr. Tracksdorf or Dr. Berka by May 4th, 2019.

You can get some examples of previous students from either Dr. Tracksdorf or Dr. Berka, but here are some other resources for them:
Apply for your semester at the TU Darmstadt

To register at TU-DA please visit: [https://tuda.moveon4.de/locallogin/55b8849b84fb96032c000000/eng](https://tuda.moveon4.de/locallogin/55b8849b84fb96032c000000/eng) and follow the following steps:

1. Print out the completed application as a .PDF file
2. Write a motivation letter why you want to study at TU-DA
3. Obtain a housing application from either Dr. Tracksdorf ([tracksdorf@uri.edu](mailto:tracksdorf@uri.edu)) or Dr. Berka ([sigrid_berka@uri.edu](mailto:sigrid_berka@uri.edu)) and complete the form
4. Drop off the previous 3 forms along with your prior approval form, student ID and transcript at the TI house or scan them to either Dr. Tracksdorf or Dr. Berka

Either Dr. Tracksdorf or Dr. Berka will then create a combined application package which includes the applications, prior approval form, transcript, the TU-DA paperwork you filled out earlier and your passport copy. Please send this application package to Herrn Patrick Stärke from the International Office ([staerke.pa@pvw.tu-darmstadt.de](mailto:staerke.pa@pvw.tu-darmstadt.de)) as an e-mail attachment.

Final deadline for going abroad in 2019/20

Ideally, submitted your applied at the TU Braunschweig (see page 9) and submitted your URI paperwork (see page Error! Bookmark not defined.) by March 31st, and already sent your internship application(s) to Niko. If you haven’t, please note: April 30th is the absolute deadline to submit everything in the StudyAbroad platform @URI/ all materials must be received for TU Braunschweig as well. Dr. Berka and Dr. Tracksdorf have to send your application package to the partner universities by this date. **You may not be able to go abroad if your materials were not ready to be send by this date!**

Plan ahead

Another thing to do during your year before you travel abroad is to figure out exactly what you still need to do in order to graduate. There are two good resources for this: one is a “Graduation worksheet” which either Dr. Tracksdorf ([tracksdorf@uri.edu](mailto:tracksdorf@uri.edu)) or Dr. Berka ([sigrid_berka@uri.edu](mailto:sigrid_berka@uri.edu)) will give you during one of your preparation meetings, the other is your curriculum sheet. You should meet with Sigrid and your COE
advisor to make sure you are clear on what classes you will need to enroll February/March the following year in order to graduate. Curriculum sheets can be found here: http://web.uri.edu/iep/curriculum/#german.

Note: Although you won’t be at URI for your year abroad, it is strongly encouraged that you check your URI-email and e-Campus account on a regular basis for billings, FAFSA, holds etc. If you have any questions regarding financial aid during the year abroad, you should contact a financial advisor in Green Hall. In the event of any changes to your intended plan of study, program cancellation, reduction in course load, program relocation or other events please notify either Dr. Tracksdorf or Dr. Berka and the Office of International Education (oie@etal.uri.edu).

Setup a research project

For students with a GPA of 3.3 or higher, there is the chance to engage in a research project at one of the unique TU institutes in Darmstadt. You will work there for 10 hrs. a week, present a final report and write a summary in English for your URI advisor. That way you can earn 3 special problem credits. If interested, you need to have prior approval for it from a URI faculty in your engineering department who also serves as a mentor skyping/emailing with you about your progress.

Note: This does not work in English; you have to deal with it in German. If you are applying for the DAAD scholarship, you will have to take care of this much earlier, and meet with Sigrid in 2018 (see page 4)

Jump-start your year abroad

Study & Internship Program (SIP)
Spend a semester at a leading German University of Applied Sciences (UAS), then intern in a company, research institute, or nonprofit. You may also choose to enroll in an intensive German course before the beginning of the study term or in a course during the study semester, information on affordable language programs will be provided to successful applications. To be eligible, applicants must be currently enrolled as sophomore or juniors and have an outstanding record of academic achievement (minimum GPA of 3.0). If selected, you will receive a full tuition waiver for both semesters (enrollment is also required during the internship to maintain residency in Germany) and the benefits provided to exchange students at the host UAS. Successful applicants are also eligible for the UAS7 Travel Scholarship as well to which 1000 Euros will be awarded for travel expenses if selected. For more information regarding the program and application please visit: http://www.uas7.org/scholarships/study-a-internship-program.html

FISITA Travel Bursary Work Experience Programme
FISITA offers student engineers the opportunity to apply for a travel bursary, of up to 2000 Euros, to help with the costs of taking part in organized work placements (internships, exchange programs etc.) in automotive companies and research institutions overseas. To be eligible to apply, you must: be studying engineering at undergraduate or postgraduate level at a recognized college or university, have arranged an industry or research placement in an automotive company or organization overseas and be a member of a FISITA member society (in U.S. it would be SAE-International) Student membership costs $25. For more information please visit: https://www.fisita.com/yfia/academia-industry/workexperience
Practice your German

Feeling Nervous about German? - *Mach keinen Stress!* If you already spoke perfect German, you wouldn’t need to go anyway. But if you start to get nervous, here are a couple things you can use to practice a bit beforehand.

AT URI
- Buddies (recommendation: go once a week)
- Tandem
- Kaffeestunde
- Movie Nights

ON-LINE TRANSLATORS
- If you haven’t been introduced to it already, LEO ([www.leo.org](http://www.leo.org)) is just about the best German-to-English dictionary on the web.
  **Download the dict.cc app to your smartphone and install the German/English dictionary – this will let you look up vocabulary on your phone on the fly without an internet connection**
- Linguee ([www.linguee.com/](http://www.linguee.com/)) – unlike LEO, Linguee incorporates a search engine that provides access to large amounts of bilingual sentence pairs found online.

GAMES, MEDIA, & HOW-TO
- There are tons of games and quizzes on [www.sporcle.com](http://www.sporcle.com) and some other quiz sites. Here’s one for example: [http://www.sporcle.com/games/McFly/essentialgermanverbs](http://www.sporcle.com/games/McFly/essentialgermanverbs). These are a nice easy way to practice some basic vocab.
- *Mein Weg nach Deutschland* ([https://www.youtube.com/watch?v=PMj9kUPrnBk](https://www.youtube.com/watch?v=PMj9kUPrnBk)) – A YouTube video series published by Goethe-Institute provides an excellent resource for those to imagine what it’s like to be an *Ausländer* in Germany
- MrWissen2go ([https://www.youtube.com/user/MrWissen2go](https://www.youtube.com/user/MrWissen2go)) – a great YouTube Chanel that talks about current topics in word affairs and in pop-culture auf Deutsch.
- *Learn German: Deutsch für Euch* ([https://www.youtube.com/user/DeutschFuerEuch](https://www.youtube.com/user/DeutschFuerEuch)) - a great YouTube Chanel that can serve as a good refresher on your basic grammar and vocabulary
- *Get Germanized* ([https://www.youtube.com/channel/UCesZBmRS6lgZ3uuiB8RdX0A](https://www.youtube.com/channel/UCesZBmRS6lgZ3uuiB8RdX0A)) – a great YouTube Chanel that talks about German culture and language auf Deutsch and in English.
- And here’s another nice one so you can ask Germans where they are from and not have to awkwardly nod when you have no idea what they are saying: [https://online.seterra.com/en/vgp/3014](https://online.seterra.com/en/vgp/3014)
- You can also download apps like Duolingo ([https://www.duolingo.com/](https://www.duolingo.com/))for free!
- Coffee Break is a popular language podcast on Spotify. Listen to Coffee Break German when you are on-the-go to hear some great lessons in the context of situations you may encounter abroad ([https://open.spotify.com/show/3QiX0ZkJiLyGWmpemackWB](https://open.spotify.com/show/3QiX0ZkJiLyGWmpemackWB))
- Deutsche Welle ([https://www.dw.com/de/themen/s-9077](https://www.dw.com/de/themen/s-9077)) and Tagesschau ([https://www.tagesschau.de/](https://www.tagesschau.de/)) are also great news sites geared for people learning German. It’s also a great way to stay up-to-date on current events.
- [https://forvo.com/](https://forvo.com/) is a site where native speakers from all languages put up clips of themselves pronouncing words. So use this if you see a word but don’t know how it’s pronounced.
www.about.com has a surprisingly good German learning section, with a lot of well-written articles about grammar and pronunciation. Here are a couple interesting ones:

- Falsche Freunde - words that may seem similar to English words, but aren’t: [https://www.thoughtco.com/french-english-false-cognates-faux-amis-1364675](https://www.thoughtco.com/french-english-false-cognates-faux-amis-1364675)
- The passive form - not quite as fun as Konjunktiv II, but still up there: [https://www.thoughtco.com/the-passive-voice-in-german-4068771](https://www.thoughtco.com/the-passive-voice-in-german-4068771)

MUSIC

- Seeed - Augenbling, Riddim No.1, Aufstehn. Probably the biggest act in Germany right now, they have stuff anywhere from reggae to dance music. Check out the guest verse from CeeLo Green on Aufstehn; it comes out of nowhere.
- Madsen – is a German rock band that hails from the Wendland. Their music combines elements of pop, rock, indie and punk together with lyrics in German. Songs worth listening to include: Du schreibst Geschichte, Wenn der Regen und Du bist wie du bist.
- Peter Fox - Alles Neu, Haus am See. The lead man in Seeed, he also has a really well known solo album, Stadttaffe. The whole thing is worth a listen.
- Kraftklub - Ich will nicht nach Berlin, Eure Mädchen - A rock/punk group who really don’t like the hipsters in Berlin.
- Cro - Einmal um die Welt, Du. He describes his music as “Raop,” Rap/Hip Hop. Some pretty clever lyrics and relaxing feel.
- Clueso - Gewinner, Chicago, Barfuss. Acoustic guitar music, a bit of a breather. If this is more your thing, also check out Philipp Poisel or Bosse.
- Die Ärzte - Westerland. Some old rockers, kind of like the Green Day of Germany. Not the most new/hip music, but worth a listen.
- Lena - 99 Luftballons. What, were we going to NOT put this on the list?
- Honorable Mentions: Die Toten Hosen and Fettes Brot - Two more pretty well-known German bands.
