Import Sakai Tools with Content from Another Course Site

1. From the newly created site click **Site Info**
2. Click **Import from Site**
3. Choose **Merge my data** (existing tool content will not be erased and replaced)
4. Select which **course site(s)** tools you would like to import (tools not present in your new course will not be listed here. To add tools, do this in **Site Info__Manage tools**)
5. Select all the tools you would like to import
6. Click **Finish**
