IMPORTANT STUDENT INFORMATION

GENERAL EDUCATION GUIDELINES:

General education is 40 credits. Each of the 12 outcomes (A1-D1) must be met by at least 3 credits. A single course may meet more than one outcome, but cannot be double counted towards the 40 credit total. At least one course must be a Grand Challenge (G). No more than 12 credits can have the same course code (HPR courses may have more than 12 credits). General education courses may also be used to meet the requirements of the major or minor when appropriate.

TRANSFERRING FROM UNIVERSITY COLLEGE TO THE COLLEGE OF HEALTH SCIENCES AND KINESIOLOGY:

To transfer out of University College, you must have earned 24 credits, passed BIO 101, and have a minimum GPA of 2.0.

INFORMATION ABOUT GRADUATE SCHOOL:

Some students are interested in attending graduate programs at the completion of their undergraduate degree. The following information should help students select the appropriate courses to qualify for graduate programs.

Exercise Science: At the completion of your undergraduate program, you will have the prerequisites necessary to qualify for the URI graduate program in exercise science, as well as other programs across the U.S. Exercise Science graduate programs often vary in focus. Work with your academic advisor in selecting programs.

Physical Therapy: Students Interested in pursuing a Doctorate in Physical Therapy can view a list of physical therapy programs throughout the U.S. along with prerequisites, application deadline dates, PT observations requirements and GRE requirements by program at <http://www.ptcas.org/ProgramPrereqs/>

University of Rhode Island PT School Prerequisites:

- 12 credits of Biology: BIO 101, 121, 242, 244 (required in pre-professional track)
- 8 credits of Chemistry: CHM 103, 105, 124, 126 (required in pre-professional track)
- 8 credits of Physics: PHY 111, 185, 112, 186 (use free elective or general education credit)
- 6 credits of Psychology including a second level PSY course (e.g., developmental, adolescent, social...): PSY 113 required; use free elective or general education credit for second level course
- 3 Credits of Pre-Calculus: use free elective or general education credit to take MTH 111
- 3 credits of Statistics: (required in pre-professional track)
- 3 credits of Communication: COM 100 required

Note: Other PT programs often include additional/different prerequisites such as requiring BIO 102 or requiring a higher level chemistry (CHM 101 in place of CHM 103). For specific information about individual schools, students are encouraged to review individual web sites for schools that they are interested in attending so that they can use free elective or general education courses to fulfill any additional requirements.

Occupational Therapy: There is little consistency in prerequisites among graduate programs in occupational therapy. A list of OT program by state can be found at <http://www.aota.org?Education-Careers/Find-School.aspx>. For specific information about prerequisites for individual schools of interest, students are encouraged to review individual websites. Free elective or general education courses can be used to fulfill any additional requirements.

Physician Assistant: PA programs typically require chemistry courses at a higher level than required by KIN (e.g., CHM 101, 102, 226 and 227 in place of CMN 103, 105, 126, and 126 – these can be substituted) and additional basic science courses. For targeted advising, students interested in PA should contact the Pre-Health Professions Advising Program during their freshman year (Lippitt Hall, Room 302F).
