November was our busiest month so far and we are not expecting things to slow down anytime soon. ProTip: As we ramp up for finals, consider arriving early in the morning if you need to use a 3D printer.

**Laser Cut Anatomy Puzzles**

This semester we have been working with Dr. Marcella Thompson from Nursing to develop various teaching aids for young, indigenous children and their families. One of our most recent projects has been using Adobe Illustrator to design anatomy puzzles to be cut on the laser cutter. These puzzles are fun and educational, teaching children where contaminants go once they enter the body through the food that they consume. The hope is to change how future generations eat.

**New 3D Printer for Reservation**

MakerspaceURI has acquired a brand new Dremel 3D20 Idea Builder for the sole purpose of being reserved for classes. Professors who assign projects utilizing 3D printing are encouraged to make a reservation by contacting our manager at eauzmann@uri.edu. During the period of reservation, your students will be the only ones to have access to this printer, making it easy for them to complete their assignment and alleviating the workflow of other machines for everyone else. *Please make reservations at least a week in advance.*

**Highlighted December Events**

MakerspaceURI will be getting festive this month with A Cookie Cutter Workshop on December 4th in celebration of National Cookie Day. Stop by anytime between 12-2pm to learn how to use Rhino and TinkerCAD to design a custom cookie cutter for 3D printing. We are also bringing back our VR Party for finals. Whether you are new to virtual reality or a seasoned expert, feel free to join us during Finals to take a break from studying. We look forward to seeing you and wish you luck on all of your exams!

**MakerspaceURI Mailing List**

If you would like to stay up-to-date with the latest MakerspaceURI news, workshops and opportunities, please join our mailing list by filling out the form [Here](#).

**Upcoming Events**

- **Fridays during the Fall Semester - Sticker Fridays** (stop by anytime between 12-3pm)
