

Balance and Mobility Study

SEEKING: Healthy adults for balance and mobility study

Purpose:

To compare physical performance in adults with total and without a total knee replacement

Requirements:

Participation is voluntary. Participants should be: 50-80 years old, without a knee replacement and without limitations in mobility due to other medical conditions.

What will you be asked to do?

- You will be asked to complete questionnaires about your health and physical function.
- You will be asked to perform tests and measures that assess your mobility, balance, strength, and range of motion.
- You will be asked to attend one session at URI's Physical Therapy department, which will last approximately 90 minutes.

Compensation:
\$30 Amazon Gift Card
