

POSTDOCTORAL FELLOW SALARY
GUIDELINES
JUNE 11, 2025

The University of Rhode Island (URI) requires a minimum budgeted annual salary of \$62,232 for postdoctoral research fellows on all sponsored research proposals submitted on or after July 1, 2025. This rate reflects the current NIH/NRSA minimum stipend level and will be reviewed and updated annually. In some cases, Principal Investigators (PIs) may request a higher salary (e.g., when a postdoc's existing salary exceeds the minimum); however, internal equity must be maintained when setting salaries above the threshold. For guidance on appropriate salary levels above the minimum, contact the Provost's Office or the Office of Human Resource Administration.
