

2025-2026

The RCR Education Seminar will give graduate students, postdoctoral scholars, faculty, and staff the knowledge and tools to guide them through the increasingly complex ethical issues they will face during their careers. Attendees will become aware of established norms and ethical principles for responsible scholarly conduct. Attendees will learn how to apply the principles and norms to their own work and conduct their research with integrity. The sessions will be taught and facilitated by experts on each particular seminar topic. Time will be provided for discussion and Q&A.

**RCR training is required for all graduate students with a research thesis.
Attending 3 seminars of the RCR sessions satisfies the
URI Graduate School requirement for RCR training.**

Date, Time, and Location	Details
September 3, 2025 2 – 3 PM Welcome Center Hope Room	Introduction to Responsible Conduct of Research Speakers: Heather Paskalides, IRB and RCR Specialist and Dr. Brenton DeBoef, Professor of Chemistry and Dean of the College of Arts & Sciences
