

Signs and Symptoms of Cognitive Impairment in Older Adults

Live Webinar

Tuesday, November 19, 2024 | 8:00–9:00 AM EST

Learning Objectives:

After completing this webinar, participants will be able to:

- ❖ Review the difference between normal and pathological memory loss
- ❖ Evaluate a patient's medication regimen for medications that may be causing or worsening cognitive symptoms
- ❖ Discuss the value of identification of early memory loss in association with the approval of disease modifying treatments for Alzheimer's disease

Speaker:

John Stoukides, MD, RPh

*Chief, Division of Geriatrics and Palliative
Medicine, Roger Williams Medical Center
Medical Director, Roger Williams Senior
Health Care Associates
Medical Director, Rhode Island Mood and
Memory Research Institute*
