Grow It, Try It, Like It Curriculum & RIELDS Alignment

*Grow It, Try It, Like It!* is a garden-themed nutrition education kit for child care center staff to introduce fruits (peaches, strawberries, and cantaloupe) and vegetables (spinach, sweet potato, and crookneck squash) to preschool age children. *Grow It, Try It, Like It* links activities at child care centers with resources for use at home. This kit aims to introduce fruits and vegetables in positive, engaging activities and increases the likelihood that young children will taste and eat a wider variety of healthy foods.

*Grow It, Try It, Like It!* is more than a resource for introducing fruits and vegetables to young children. It provides learning opportunities that contribute to each child’s individual growth and development. This guide provides suggestions for how to align the curriculum with the Rhode Island Early Learning Development Standards. The alignment guide includes the following:

- *Grow It, Try It, Like It!* Kit Main Concepts & Structure
- 9 Developmental Components Identified by the RIELDS:
  - Physical Health & Motor Development (PH)
  - Social & Emotional Development (SE)
  - Language Development (LD)
  - Literacy (L)
  - Cognitive Development (CD)
  - Mathematics (M)
  - Science (S)
  - Social Studies (SS)
  - Creative Arts (CA)

*Grow It, Try It, Like It!* Kit Main Concepts & Structure

Throughout the kit there are three main concepts:

1. Children can have fun while learning about nutrient and fiber-rich foods such as fruits and vegetables.
2. Fruits and vegetables grow from plants or trees in the ground, are harvested, and are taken from the farm/orchard to grocery stores and farmers’ markets.
3. Fruits and vegetables can be prepared and eaten in many different and fun ways.

The kit includes 7 booklets featuring the fruits and vegetables with fun activities based in an imaginary garden at “Tasty Acres Farm”.

- Booklet 1 includes a teaching guide, garden arts and crafts, paper master copies, and resources
- Booklets 2-7 feature a specific fruit or vegetable. The booklets have an identical setup that includes planning charts, activity categories, and materials to send home. The activity categories include:
  - A: Hands-on activities
  - B: Planting activities
  - C: Songs and stories
  - D: Nutrition education activities
