Hi teachers,

Thank you for participating in the FFVP Fruit and Veggie Challenge.

This challenge will take place from ______________ to ______________.
Please limit the duration of the challenge to one month.

The purpose of this challenge is to encourage children to try fruits and vegetables. Children may place a sticker (which should be the same color as the fruit or veggie) on the rainbow poster for every fruit or vegetable he or she tastes. Please note that sometimes there may be more than one type of fruit or veggie served, for example, cantaloupe and blueberry cups.

Please count fruits and vegetables that are provided from the Fresh Fruit and Vegetable Program only for this challenge. These are the fruit and vegetable snacks that are delivered to your classrooms. While it is important to encourage children to consume fruits and vegetables at lunch and at home, they cannot earn stickers for them.

Please conclude the challenge on the date listed above and contact me so that I can collect the posters and determine the winner. The winning classroom will receive a URI SNAP-Ed workshop including a food prep and tasting station.

Thank you,
Paula Paolino, RD, LDN
