Expectations

Respect Everyone – create inclusive communities where all members of our community can succeed.

Student Focused – all that we do is focused on student success.

Be Good Financial Stewards – the money we use is money likely coming from our students and their family members and the state of Rhode Island; we will respect this in our decision making.

Customer Service – we are service providers and we will provide the highest level of customer service to the University community and all of our stakeholders.

Communication – we will practice clear, transparent, timely communication.

Collaboration – we will collaborate with each other across the Division and with partners across the University. We are not in competition with each other.

Highest Ethical Standards – we will follow federal, state, university, division, and department laws, policies, and procedures in all that we do.

University First – in decision making we will focus first on the URI community, second on our Division, and then on our individual Departments.

Sustainability – we will practice a holistic approach to being sustainable in our delivery of services to our stakeholders.

Engagement – we will be engaged on campus. We will do this by attending a diverse range of events across the university.

Professional development – we will develop a deep bench that will enhance our university community and our individual professions.
