Conversation:

- Recently, a film club wanting recognition was notified by SOC of the existence of an already established film club. While it wouldn't be logical to have two film clubs, the decision was to merge the clubs, creating the URI film club "Rhody Flicks".
- Since the changing of group names is a topic of discussion, SOC was notified that the "Pool Club" will be changing their name to "Billiards" as per some confusion among the student body believing it was a swimming club
