  - \_\_\_\_ MAKE CANVA: CMB Showcase

CMB Annual Research Showcase - October 30th - 5-7 pm - 010

CBLs: Students interested in learning more about the degree programs and the cutting-edge research underway in the Department of Cell and Molecular Biology (CMB), or are already majoring in CMB, BTC, or MLS and want to get to know the faculty better, are encouraged to attend! This is an opportunity for students to:

- Learn more about the degree programs offered through CMB, (Biotechnology, Cell and Molecular Biology, Medical Laboratory Science) and research opportunities with CMB faculty.
- Meet CMB faculty and learn more about research interests
- Meet other like-minded students

- Hear from recent graduates of the program
- Talk with other students currently working in the labs with CMB faculty
- A preliminary outline of the activities include:
  - Undergraduate research poster presentations
  - Introductions to the department and the three degree programs offered by the department
  - Personal journey to becoming a research scientist (CMB faculty member)
  - Alumni presentations (personal stories from recent graduates)
  - Faculty research presentations
- Food and drink will be available for attendees. Current majors and department faculty will be available to answer questions.
