

## Oct 31, 2024 | Campus Affairs Meeting

Attendees: Chair Hudson, Senator(s): Sundell, Njende, Estes

Absent: Senator(s): Sawyer, Walding and Small

Attached files:

- Chair Hudson began by checking in on the committee, asking how midterms went and encouraging us.
- Chair Hudson brought up the issue of filling out a “when to meet” so the whole committee could make it to talk with dining services about their plans for the rest of the year.
  - He began the discussion by detailing what he would like to get out of the meeting including, but not limited to, discussing ways in which we can facilitate student engagement within dining services.
  - Chair Hudson added that finding ways for the student body to communicate their wishes to dining services would be key to a higher approval rate by students.
- We then discussed implementing a campus clean up scavenger hunt to promote the sustainability efforts of our campus.
  - Chair Hudson added that this should be done before it either gets too cold this semester or in the spring semester.
  - The point was made that finding ways to engage the student body in a fun, interactive way about keeping our campus clean can foster an active agency in students as it pertains to the environment.
- Senator Sundell also added that she will be bringing a sustainability bill to the floor at our next General Assembly meeting. All the meeting attendees signed off on this bill and relayed that we will support it at the General Assembly.
- Chair Hudson wished us happy halloween, ended the meeting on the earlier side and reminded us to be safe.

Meeting End: 5:29 pm
