

University of Rhode Island Event Planning Accessibility Toolkit

The University of Rhode Island is committed to maintaining an environment free from discrimination. Consistent with this commitment, the University prohibits all forms of illegal discrimination in all University programs and activities. Pursuant to the Americans with Disabilities Act and Section 504 of the Rehabilitation Act, the Office of Equal Opportunity offers this Accessibility Toolkit to assist the University community to promote accessibility inclusivity in a manner that is consistent with our legal obligations.

This toolkit has been adapted from the American Bar Association Accessible Meetings and Events Toolkit and provides general guidance regarding accessible elements to consider when planning virtual, in-person, small, and large-scale events. In drafting this toolkit, the American Bar Association and the Office of Equal Opportunity recognize the volume of information provided can be daunting if tackled all at once. Planning accessible in-person and virtual events will take time and may require staff training. By following the guidance in this toolkit, you will provide a space for people to share new ideas and learn from one another.

The Office of Equal Opportunity encourages University personnel to incorporate universal design into planning practices whenever possible and thanks each member of our community for continuing to make efforts to promote accessibility inclusivity.

Yours in Service,

Dorca Paulino-Smalley
Director, Office of Equal Opportunity

Internal Partners

While the amount of information contained within this toolkit may be daunting, there are several offices and individuals on campus available to consult, advise, and assist with planning and preparation. Below is a list of internal partners you can contact if you have questions when planning an event.

Community, Equity and Diversity

Reporting to the President, the Office of Community, Equity and Diversity, is tasked with promulgating University-wide diversity initiatives that directly align with the University's transformational goals and academic strategic plan. As a member of the President's Leadership Council, the Chief Diversity Officer is responsible for promoting critical consciousness, cultural humility, and compassion, for a socially just and equitable campus community. To contact the division of Community, Equity and Diversity, email uriced@etal.uri.edu or call (401) 874-7077.

Office of Equal Opportunity

Dorca Paulino-Smalley, Director of the Office of Equal Opportunity, has been designated as the Coordinator of enterprise compliance with the Americans with Disabilities Act and the Rehabilitation Act and serves as the institutional Section 504 Coordinator.

The Office of Equal Opportunity is responsible for investigating complaints of discrimination or harassment on the basis of disability (and other protected categories) in employment and service delivery. The Office of Equal Opportunity works with the individuals below to promote accessibility inclusivity in service delivery and employment. Visit the Office of Equal Opportunity website for more information or contact document-ode-uri.edu or call (401)874-4929.

Office of General Counsel

The General Counsel is the chief legal officer of the University and is responsible for the coordination and management of all legal issues affecting the University.

Lauren Jensen, Esq., Associate General Counsel, is the designated Office of General Counsel liaison for any questions relating to compliance with the ADA, Section 504, and any other state and federal laws that provide protections for individuals with disabilities. She can be contacted by email at liensen@uri.edu or call (401) 874-4491.

Disability, Access, and Inclusion

Dr. Paige Ramsdell, Assistant Dean, Disability, Access, and Inclusion, promotes compliance with Section 504 of the Rehabilitation Act by accepting, reviewing, and approving reasonable accommodation requests made by students. For more information regarding the student reasonable accommodation process <u>visit</u> the Disability, Access, and Inclusion website, email dai@uri.edu, or call (401) 874-5694.

Office of Human Resource Administration

Laura Kenerson, Director of Personnel Services, is the designated Section 501 and Section 503 Coordinator, responsible for approving and monitoring reasonable accommodation requests made by University personnel and applicants. Requests for work accommodation are made in writing to the Director of Personnel Services in Human Resource Administration who consults with appropriate officials to consider the request. Once an accommodation is made for an employee, its effectiveness is periodically monitored by both the employee and the Office of Human Resource Administration. For more information, visit the Human Resource Administration website, Reasonable Accommodations for Employees with Disabilities tab, or contact the Director of Personnel Services by email at kenerson@uri.edu or call (401) 874-5271.

Facilities Group

The Facilities Group is responsible for ensuring Americans with Disabilities Act standards for accessible design are met in accordance with Title II and Title III regulations, which require that people with disabilities have access to spaces to allow equal participation in University events. To contact the Facilities Group at the University, please visit https://web.uri.edu/facilities/work-order-request-form/ to submit a work request or call (401) 874-4060.

Web Communications Services

Brandon J. C. Fuller, Manager of Web Communications, is responsible for promoting website accessibility. For questions regarding website accessibility resources at the University, email bjcfuller@uri.edu or call (401)874-2258.

Achieving full participation and integration of people with disabilities requires the cooperative efforts and responsibility of all of the University's departments, offices, and personnel.

Exterior Features General

\square Barrier-free/step-free paths of travel for persons who use mobility aids or devices
\square Stairs with continuous handrails on both sides; no open risers (space between steps)
\square Ramps for inaccessible areas, with handrails on both sides if the rise is greater than 6 inches
\square Curb ramps/cuts for persons who use mobility aids or devices
\square Crosswalks with visual and audible signals
☐ Toileting, watering, and walking areas for service animals
Exterior Features Entrance
\Box Barrier and step-free, well-lit, slip-resistant accessible main entrance at street level so that all individuals can use this entrance
☐ Alternative accessible entrances
$\hfill \square$ Signs (Braille and tactile) indicating the location of accessible entrances
\Box Entrance connected by an accessible route to public transportation stops, accessible parking, and passenger loading zones, and public streets or sidewalks
\square Other entrances that are at street level or accessible by ramps, lifts, or golf carts
Exterior Features Doors
\Box Main entrance/exit doorways that are wide enough (32 inches with the door open 90 degrees) to accommodate mobility devices and aids
☐ Easy-to-open (automatic/push button door openers, lever handles), operable with one hand, within reach for mobility device users, lightweight (no more than 5 pounds) doors; no revolving doors. If you notice a University building has an automatic/push button door opener that is not working, report it by completing this form: https://web.uri.edu/facilities/work-order-request-form/
\square Glass doors with contrasting door frames, stickers, or bright signs

Exterior Features Parking

\Box Does the venue have sufficient accessible parking? The Americans with Disabilities Act Standards requirement has been outlined in the chart below
\Box Is there a straight pathway from the parking lot to the entrance of the venue? The pathway must have curb cuts, elevated ramps or a level path of travel must be established
\square Should you consider providing accessible paratransit services? (e.g., accessible golf cart)
☐ Accessible, clearly marked (symbol of accessibility) parking spaces (at least 1 accessible parking space for every 25 total spaces). Data source: https://www.ada.gov/topics/parking/

Total Number of Parking Spaces	Minimum Number of Required Accessible Parking Spaces Permitted
1-25	1
26-50	2
51-75	3
76-100	4
101-150	5
151-200	6
201-300	7
301-400	8
401-500	9
501-1000	2% of total
1001 and over	20, plus 1 for each 100, or fraction thereof,
	over 100

Interior Features General

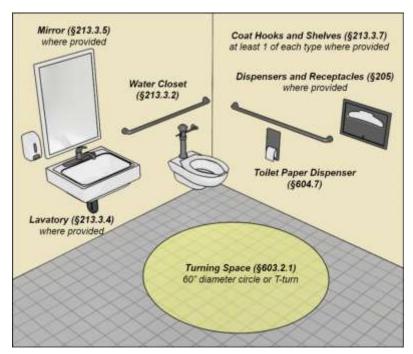

\square Well-lit areas; adjustable lighting
\square Even, stable, regular, slip-resistant, non-sloped paths of travel
\Box Sufficiently wide (64 inches for two-way traffic), barrier-free hallways and corridors to allow everyone to move about freely
\square Securely attached edges of carpets or mats
\square Clearly marked (Braille and tactile signage) accessible exits
\square Clearly marked (Braille and tactile signage) accessible restrooms located on an accessible route
\square Video screens with closed captioning
\square Registration/concierge at a height accessible by mobility device users that allows for a frontal approach and provides adequate knee clearance
$\hfill\Box$ Emergency procedures for persons with disabilities (audio and visual alarms in halls and sleeping rooms)
\Box Designated quiet room(s) with no talking, no noise, low light, and no flashing lights, images, or objects
\Box Designated room(s) with plenty of space to allow people to talk, shout, clap, make noises, jump around, and do whatever they need for stimulation/sensory needs
Interior Features Doors and Elevators
\Box Easy-to-open, lightweight (no more than 5 pounds) doors with lever handles that are easy to grasp with one hand or automatic/push button openers
\square Wide (32 inches with the door open 90 degrees) doorways for mobility devices to enter/exit
\square Clearly marked (Braille and tactile signage) elevators
\square Elevator doors that reopen automatically when obstructed by an object or person
☐ Elevator interiors that are adequately illuminated and wide enough for wheelchairs/ scooters/mobility devices to enter, maneuver within reach of controls, and exit
☐ Elevator call buttons with visual and audible signals, reachable by mobility device users

\square Elevator control buttons that are designated by Braille and tactile characters or symbols and
are reachable by wheelchair/scooter/mobility device users
☐ Elevator voice and visual display two-way emergency communication

Interior Features Restrooms

☐ Accessible restrooms

The ADA Standards do not address the number of toilet rooms or fixtures required for a facility, but instead, specify which ones must be accessible where provided. Where existing single-user toilet rooms are clustered in one location, at least half for each use must comply (§213.2., Ex. 4). In the case of single-user portable units, access is required to at least 5% at each cluster, excluding those on construction sites for construction personnel which are fully exempt (§213.2, Ex. 3, §203.2).

Venue General

☐ Barrier-free, slip-resistant path
$\hfill\square$ Proper air circulation with temperature controls
\square Space large enough to allow all persons to move about freely
\Box Clearly marked (Braille and tactile signage) accessible restrooms located on an accessible route in close proximity to rooms
$\hfill \square$ Elevators in close proximity to rooms and along an accessible route
\square Accessible exhibit areas, if there are exhibits
$\hfill\Box$ Easy-to-open, lightweight doors (no more than 5 pounds) with lever handles or automatic/push-button openers
$\hfill\square$ Doors wide enough (32 inches with the door open 90 degrees) for mobility devices to enter/exit and maneuver
$\hfill\square$ Attendants or automatic mechanism to open the doors
$\hfill \square$ Well-secured, covered cables, wires, cords, and microphones placed outside of paths of travel
$\hfill\square$ Tables for materials at a height (28 to 34 inches) reachable by mobility device users and in an accessible location
$\hfill\square$ Tables for materials at a height (28 to 34 inches) reachable by mobility device users and in an accessible location
\square Space for service animals
$\hfill\square$ Room(s) designated to allow people to talk, shout, clap, make noises, jump around, and meet stimulation needs
$\hfill\square$ Quiet room(s) in proximity (cell-phone-free space) to help individuals sensitive to overstimulation

Venue Visual ☐ Signs (with Braille and tactile characters, sans serif or simple serif large type fonts, sentence case, and good contrast) that direct attendees to all rooms ☐ Mounted signs designating permanent rooms and spaces with tactile characters that contrast with their backgrounds and Braille ☐ Well-lit space and adjacent areas Venue **Auditory** ☐ Good acoustics and a functioning auxiliary sound system ☐ Location of all audio/visual equipment in an area that does not block paths of travel Assistive listening devices, hearing or induction loops, and Communication Access Realtime Translation (CART) for attendees who are d/Deaf or hard of hearing ☐ Prominent, well-lit, visible space for interpreters to stand (e.g., raised platform with a dark, solid color background). Clear lines of sight to interpreters and real-time CART. Project interpreter live session into the large screen or provide mobile accessibility Venue Seating ☐ Barrier-free seating aisles that are wide enough (36 inches) to accommodate mobility devices ☐ If the event is outdoors in a field with grass, consider grass accessibility mats. https://www.accessrec.com/grassmat. Please contact Facilities Group to discuss potential options. ☐ Seating rows that are wide enough for attendees to walk through ☐ Preferred seating for persons with visual and hearing impairments in the front rows Reserved seating near the exits for attendees who are sensitive to crowds and need to take breaks Adequate number of spaces for mobility devices dispersed to allow location choices and viewing angles equivalent to other seating, with clear lines of sight ☐ Seats for companions accompanying persons with disabilities

☐ Space on side of or under seats for service animals

Live Streaming

\square Include a statement on your website, registration, and all other communications asking
attendees to specify their accessibility and accommodations needs. The statement should
include a deadline for requests and provides the name, email address, and phone number of
the individual to contact

Example:

The University of Rhode Island (URI) encourages all people to participate in its programs and activities. If you anticipate needing any type of accommodation or have questions about accessibility inclusion, please contact [insert first and last name] at [insert telephone number or other contact information here such as an email address].

We encourage all individuals seeking an accommodation to reach out as early as possible in advance of the event as the University's ability to provide a requested accommodation may be impacted by the timing of the request. Reasonable accommodations are offered at no cost and are available upon request.

\square Ensure that the individual hosting the meeting is trained on how to set up and implement the platform's accessibility features
\square List in all event communications accessibility/accommodations that you will provide, such as captioning, without the need for attendees to request accommodations you plan to offer
\square Provide materials that help orient participants to your chosen platform. Offer practice sessions in advance of the main event
\square Consider your audience and language level. Use plain language when appropriate. Ask attendees if they can hear everyone or if anyone is speaking too quickly
\Box Have a staff person monitor the chat or Q&A function for accessibility issues that may arise during the event and read aloud the author and questions or comments to be addressed
☐ Advise everyone orally and in the chat or Q&A function about the accessibility features/ accommodations being offered and how to use them at the start of the event, including captions. Do a check of access features. Invite attendees to raise access concerns during the event and instruct them on how to do so
\Box If there are any barriers or extra steps to joining the event, such as passwords or requiring the user to input information to join, make sure all attendees know and understand how to do so
\square Offer different ways that individuals can access the event, including via the Internet and dial in

\Box Consider providing CART (real-time captioning) for all events even if the virtual platform generates automatic captions, as these are often unreliable. Captioning creates a transcript of the event that can be used by everyone, including those who attend the live event
☐ Describe all images and videos for blind/visually impaired individuals, as well as for those joining by phone. Some videos with descriptive audio can be found on YouTube or youdescribe.org
\Box Sharing a video is not accessible for blind and/or deaf and hard of hearing persons. Ensure that the video is captioned and also describes what is happening during the event
\Box For people who read lips, ensure that speakers have their cameras on and are well-lit, and cameras show a close profile
\Box Ensure that the environment behind presenters is not distracting. If it is, use a virtual background, but note that some can wash out faces
☐ Allow only one person to speak at a time. This will also help the captioner(s) and ASL interpreter(s) more accurately interpret

Materials Promotional and Registrational Materials

Include a statement in your registration materials that lets attendees know that alternative formats are available upon request. Here are two sample statements:

- The materials are available in alternative formats upon request. Please contact [name, email address, telephone number (including TTY)] by [deadline date].
 The materials are available in alternative formats. Please check the format you need:
- □ Braille
 □ Large Print: Font Size ___
 □ Digital File: Format ___

Materials Accessibility Statement

□Other

Stating in these materials that the University's in-person or virtual event is accessible is essential to encouraging persons with disabilities to participate. Here is a sample statement:

The University of Rhode Island aims to host events that enable individuals of all abilities to participate fully and equally.

Consider including images of persons with various disabilities, as well as universal access symbols (available at http://www.aarts.net.au/resources/universalaccess-symbols). Consider using "people-first" language in your materials: a "person with a disability," rather than a "disabled person." Remember, the person, not their disability, is the focus.

Materials Registration

\square Provide a range of registering options: online, telephone (voice and text), and email.
\square Make sure your registration forms are accessible for persons using assistive technologies such as screen readers, text readers, screen magnification software, speech input software, and alternative input devices for individuals unable to use a mouse or keyboard (e.g., head pointers, motion or eye tracking, single switch entry devices).
\square Include explicit labeling for all form fields, as well as for other user inputs like drop-down menus and "submit" or "buy" buttons.

Materials Accommodations and Accessibility Statement

The University of Rhode Island (URI) encourages all people to participate in its programs and activities. If you anticipate needing any type of accommodation or have questions about accessibility inclusion, please contact [insert first and last name] at [insert telephone number or other contact information here such as an email address].

We encourage all individuals seeking an accommodation to reach out as early as possible in advance of the event as the University's ability to provide a requested accommodation may be impacted by the timing of the request. Reasonable accommodations are offered at no cost and are available upon request.

Materials Personal Care Attendant Statement

Some persons with disabilities may bring their personal care attendants to events. On the registration form, ask about personal attendants and offer an extra admissions ticket for the attendant (this ticket should be provided in addition). Here is a sample statement to include in the registration form/website:

"A personal care attendant will be accompanying me: _Yes _No."

Materials Promotional and Registration Materials Checklist

\square Provide alternative registration options (online, telephone, text, email)
\square Include a statement that meeting/event is accessible
\square Include a request for accommodations statement
$\hfill\square$ Inquire about personal care attendants and service animals
$\hfill \square$ Designate staff to handle accommodation and accessibility requests
$\hfill\square$ Ensure that your website and mobile apps are accessible
$\hfill\square$ Include an accessibility link for meeting/event on your website in a prominent place
$\hfill \square$ Identify any barriers that cannot be eliminated and ways they have been mitigated
\square Ensure that the fonts used are sans serif
Materials Persons with Visual Impairments Checklist: Text Format
\Box Use a 16-point font size when possible, but if that is not practical, at least 14 point
☐ Avoid highly stylized fonts
\Box Use easy-to-read fonts with clearly defined letters and clear spacing between the letters, such as sans-serif fonts (e.g., Helvetica, Verdana, Arial)
\square Avoid underlining or italicizing large volumes of text
\square Avoid using blocks of capital letters for more than a couple of words
\square Spell out numbers
Materials Persons with Visual Impairments Checklist: Layout
\square Align all text on the left, rather than centered or right justified
\square Use one-inch margins
\square Do not hyperlink URLs because underlining reduces readability
$\hfill\Box$ Do not place text directly over or wrap text around an image
☐ Use at least 1.5 spacing between lines of text paragraphs

Materials Persons with Visual Impairments Checklist: Contrast and Color

\square Ensure good contrast between the text and background colors
☐ Use black text
\square Use cream instead of white paper for printed materials
Materials Persons with Visual Impairments Checklist: Contrast and Color
\square Choose a matte rather than a glossy finish
\square Avoid using thin paper, which can bleed images and text from the reverse

Website Checklist

☐ Become familiar with Web Accessibility Resources at URI: https://www.uri.edu/wordpress/accessibility/
☐ Ensure your webpage complies with the current Web Content Accessibility Guidelines (WCAG): https://www.w3.org/TR/WCAG20/#guidelines
$\hfill\square$ Ensure that foreground and background color combinations contrast
\square Use a sans serif font like Arial or Calibri
\square Provide color invert and magnification tools
\Box Ensure that any background images are not too "busy" (e.g., have many lines, patterns, or colors) that could make the foreground more difficult to read and understand
\square Provide text equivalents to auditory and visual content (e.g., videos and images)
\Box Ensure that the "alt text" (alternative text attribute) of the image tag conveys what is important or relevant about the image
☐ Avoid flashing images
\square Ensure that any moving text can be paused, stopped, and hidden
\Box For all videos, provide closed captioning in a readable font with high-contrast colors at a readable speed. Where the format allows, captions should be able to be turned on and off (toggled), and should feature controls for font size, color, and location
$\hfill \square$ Avoid drop-down menus that cannot be accessed by persons with limited dexterity or mobility impairments with just a keyboard
☐ If using CAPTCHAs (Completely Automated Public Turing Tests to Tell Computers and Humans Apart), ensure that there are multiple options (e.g., image and audio or "I'm not a robot" CAPTCHA options)
$\hfill\Box$ Define page hierarchy with header tags and lists, and include "breadcrumbs" to assist in navigation where appropriate
\Box Ensure that all websites and pages are compatible with mobile devices, and can be viewed on them without difficulty

Live Event Checklist General

\square Announce when the meeting begins and ends
\square Build multiple breaks into the schedule, preferably 5-10 minutes every hour
\square Allow space for interpreters to comfortably do their jobs. If outdoors, identify a shaded area
\Box For large events, allow people with relevant disabilities to find seats before the general audience, you may provide a different check-in time or express check-in line
\square If possible, provide all materials (papers, PowerPoints, agendas, slides) in alternative formats (e.g., large print, Braille, electronic, audio CDs, etc.) and in advance of the meeting/event
\square Make electronic versions of materials available in plain text, rich text, or Microsoft Word formats and post them on the website
$\hfill\square$ Make materials available in advance to interpreters and other support personnel to familiarize themselves with the materials and ask any questions
Live Event Checklist Structure
$\hfill\square$ At the start of the meeting, introduce the interpreter(s) and other service providers
\Box At the start of the meeting, orally describe the room layout and location of restrooms, emergency exits, break rooms, and food/beverages
\Box Allow for regular breaks (about every hour) for attendees, service animals, and access service providers such as interpreters, CART providers, notetakers, and readers
\Box Ensure that the virtual environment behind the presenters is not distracting. If it is, use a virtual background, but note that some can wash out faces.
\square Allow only one person to speak at a time. This will also help the captioner(s) and ASL interpreter(s) more accurately interpret.
\Box Have each person say their name each time they speak so that attendees, captioners, and interpreters know who is speaking.

Live Event Checklist Speakers

☐ Always face the audience or camera
☐ Use a microphone
$\hfill \square$ Keep hands and other objects away from your mouth when speaking
\square If interpreters are being used, do not walk while speaking
\square Be visible to everyone; stand in good light or make sure your camera is on you and well lit
\square Do not stand in front of a window or bright screen in order to avoid the silhouette effect
\square Speak in well-modulated tones and at a pace that allows interpreters to interpret accurately
\square Use simple language; avoid acronyms, jargon, and idioms
$\hfill\Box$ Give attendees enough time to process information by pausing between topics
\Box Use multiple communication methods to accommodate different learning styles (verbal information, pictures, and diagrams, text, auditory)
\square Provide captioning for all videos
☐ Provide CART for all sessions
☐ Describe verbally all visual materials (e.g., slides, charts, PowerPoints, etc.)

Accessibility Etiquette Staff, Volunteer, and Vendor Obligations

$\hfill\square$ Treat the person with the same respect that you extend to every person
\square Focus on the person, not their disability
☐ Do not ask about their disability
\Box Do not make assumptions about the person's ability or inability to participate in an activity or
perform a task
\Box Do not assume that the presence of one disability (e.g., a speech impairment) indicates the
presence of another (e.g., a cognitive impairment)
\square Do not make decisions for the person
\square Ask each person what will make them most comfortable
\square Always ask the person if they need assistance and how you can assist; do not assume they
need help
\square Address the person directly rather than the sign language interpreter, reader, or other
access providers
Accessibility Etiquette
Persons Who Use Mobility Devices
$\hfill\square$ When speaking for more than a few minutes, bend to eye level or pull up a chair
☐ Never lean on, push, move, or touch the mobility device

Accessibility Etiquette Persons Who Use Service Animals

\square Service animals are not required to wear a vest when they are working
\square You can ask two questions regarding a service animal: 1) is this a service animal? 2) what
duties does it perform?
\square Remember that service animals perform a variety of tasks, many of which may not be
immediately visible; do not make assumptions, and remember to respect the handler's privacy
\square Approach a service animal calmly and speak to the person, not the animal
\square Do not touch, pet, feed, whistle, or make sounds at the service animal without asking
permission; the service animal is working, and petting or otherwise engaging with it could
distract and stop it from performing its duties
\square Walk on the opposite side of the service animal
Accessibility Etiquette Persons Who Are Blind or Have Visual Impairments
☐ Ask the person their name
☐ Introduce yourself and others if present
☐ Identify your job or role
\square Avoid touching without permission; to get their attention, say their name or, "excuse me"
☐ Avoid shouting
☐ Be descriptive when giving directions
\square Offer your arm if person needs to be guided
☐ Avoid using visually-oriented references
\square Describe where you are going and any obstacles if you are serving as a guide
☐ Find a place with good lighting, but not too bright
\square With permission, guide the person's hand to the back of a chair if you offer someone a seat
☐ Let the person know when you are leaving

Accessibility Etiquette Persons Who Are Deaf or Hard of Hearing

\Box To get their attention, wave to them; avoid touching them without permission, and only the
tap lightly on their shoulder
\square Ask the person how they prefer to communicate (e.g., sign language, gesturing, writing, or
speaking)
☐ Face the person when talking
☐ Speak clearly, avoiding gum chewing or obscuring your mouth with your hand
\square Use your normal tone of voice and volume
☐ Maintain eye contact with the d/Deaf or hard-of-hearing person
\square Have pen and paper or a device to text on hand as an alternative communication method
\square Address the person rather than their interpreter
☐ Avoid spaces with background noise
☐ Find a well-lit room, but avoid glare
\square Ensure that the venue has an induction loop that stops background noise from interfering if
the person is wearing a hearing aid
$\hfill\square$ When communicating with a person who reads lips, speak clearly in a normal way that does
not overexaggerate words, use short and simple sentences, avoid blocking your face, and stand
in a well-lit place
\Box If there is a window in the room, place the person with their back to it to avoid the silhouett
effect
\square In groups, request that people speak one at a time
\Box If communicating in a smaller group setting, arrange seating or stand in a circle so d/Deaf or
hard of hearing attendees can see signing and/or lipreading
\square Ask, if you have any doubts, if the person understood you
\square Do not pretend to understand when you do not
☐ Ask for clarification if you do not understand something

\square Be aware of situations involving announcements or calling out names so you can notify
persons who are d/Deaf or have other hearing loss
Accessibility Etiquette Persons with Speech Difficulties
\square Ask each person what will make them most comfortable
☐ Give the person your full attention
☐ Find a quiet space
☐ Listen carefully
$\hfill\square$ Do not finish sentences for the person or interrupt
\square Do not pretend to understand when you do not
\Box If you do not understand, ask the person to repeat; if you still are unable to understand, ask the person to write the information or recommend an alternative method of communicating
\square Consider writing as an alternative means of communicating
Accessibility Etiquette Persons with Learning and Cognitive Difficulties
\square Ask each person what will make them most comfortable
\square Ask the person how they prefer to communicate (e.g., written or verbal)
☐ Listen carefully
☐ Speak clearly
☐ Check for understanding
☐ Use clear, concrete language, avoiding abstractions
$\hfill\square$ Allow the person extra time to process the information and ask questions
☐ Don't overload the person with too much information
\square Find a quiet place without distractions

Accessibility Etiquette Persons with Developmental Disabilities

☐ Ask each person what will make them most comfortable
☐ Keep to the person's schedule and routine
☐ Speak clearly
$\hfill\square$ Do not use "baby" talk, and speak at a normal volume unless asked to do otherwise
\square Model your pace of speech and vocabulary on that of the person
☐ Ask neutral questions
☐ Allow time for decision-making
\square Use simple words and concrete, not abstract, concepts
☐ Break down complex concepts into small parts
\square Verify responses by repeating questions in a different way
$\hfill\square$ If you are not sure if the person understood you, ask them to repeat the information
Accessibility Etiquette Persons with Psychosocial Conditions
\square Ask if there is a preferred time to communicate
$\hfill\square$ Schedule communications in the late morning or early afternoon
\square Keep the pressure of the situation to a minimum
$\hfill\square$ Use automated reminders to highlight times and locations of meetings
☐ Provide written instructions
☐ Allow for breaks

Post-Event Survey

If creating a post-event survey, you may incorporate some of the questions below into the survey.

These questions will allow planners to examine ways to both increase and improve the accessibility of your future meetings and events. For instance, how would you rate the accessibility of the items below, on a scale of one (1) to five (5): One (1): Very Accessible; Two (2): Somewhat Accessible; Three (3): Not Very Accessible; Four (4): Inaccessible; Five (5): Not Applicable or N/A

Applicable of 1477	1	ı		1	
	1	2	3	4	5
	Very	Somewhat	Not Very	Inaccessible	N/A
