

Academic Program	List of States for which the curriculum meets State educational requirements for licensure or certification	Comments
Ph.D. Clinical Psychology	All States and U.S. territories	Please note that while our curriculum meets the requirements of all US states, most, if not all, states have a postdoctoral supervised hours requirement. Thus, upon completion of our program, students have additional requirements to be met prior to being eligible to sit for the licensing exam.
M.S. School Psychology	All States and U.S. territories	Our MS curriculum meets the requirements of the National Association of School Psychologists, which provides for certification as a Nationally Certified School Psychologist. Students still must apply for certification in each state separately, however, in order to obtain credentials through the individual State department of education.
Ph.D. School Psychology	All States and U.S. territories	As an accredited body of the American Psychological Association, our PhD program meets the requirements of all US states; most, if not all, states have a postdoctoral supervised hours requirement. Thus, upon completion of our program, students have additional requirements to be met prior to being eligible to take a licensing exam. Our PhD curriculum also meets the requirements of the National Association of School Psychologists, which provides for certification as a Nationally Certified School Psychologist. Students still must apply for certification in each state separately, however, in order to obtain credentials through the individual State department of education.
