REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE AND SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS IN ACCORDANCE WITH OMB CIRCULAR A-133

The Board of Governors for Higher Education State of Rhode Island and Providence Plantations

Compliance

We have audited the compliance of the University of Rhode Island (a component unit of the State of Rhode Island and Providence Plantations) with the types of compliance requirements described in the "U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement" that are applicable to each of its major Federal programs for the year ended June 30, 2009. The University of Rhode Island's major Federal programs are identified in the Summary of Auditor's Results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major Federal programs is the responsibility of the University of Rhode Island's management. Our responsibility is to express an opinion on the University of Rhode Island's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, "Audits of States, Local Governments, and Non-profit Organizations." Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on major Federal programs have occurred. An audit includes examining, on a test basis, evidence about the University of Rhode Island's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the University of Rhode Island's compliance with those requirements.

In our opinion, the University of Rhode Island complied, in all material respects, with the requirements referred to above that are applicable to each of its major Federal programs for the year ended June 30, 2009.

Internal Control Over Compliance

The management of the University of Rhode Island is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the University of Rhode Island's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University of Rhode Island's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2009-1 to be a significant deficiency.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not consider the deficiency described in the accompanying schedule of findings and questioned costs to be material weaknesses, as defined above.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the University of Rhode Island as of and for the year ended June 30, 2009, and have issued our report thereon dated September 30, 2009. Our audit was performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying schedule of expenditures of Federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the Board of Governors for Higher Education, management of the University of Rhode Island, the State of Rhode Island Auditor General's Office, Rhode Island Department of Administration, Federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

November 30, 2009

(except for the Schedule of Federal Awards, which is dated September 30, 2009)

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Board of Governors for Higher Education State of Rhode Island and Providence Plantations

We have audited the financial statements of the University of Rhode Island (the "University") (a component unit of the State of Rhode Island and Providence Plantations) as of and for the year ended June 30, 2009, and have issued our report thereon dated September 30, 2009, which included a reference to the report of the other auditor who audited the discretely presented component unit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Other auditors audited the financial statements of the University of Rhode Island Foundation, as described in our report on the University's financial statements.

This report does not include the results of the other auditors' testing of controls over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the University's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the University's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles, such that there is more than a remote likelihood that a misstatement of the University's financial statements that is more than inconsequential will not be prevented or detected by the University's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the University's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies or material weaknesses. We did not identify and deficiencies in internal control over financial reporting that we considered to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the University in a separate letter dated September 30, 2009.

This report is intended solely for the information and use of the Board of Governors for Higher Education and management of University of Rhode Island, the Rhode Island Auditor General, Rhode Island Department of Administration, and federal awarding agencies and pass-through entities, and is not intended to be, and should not be, used by anyone other than these specified parties.

Schedule of Current Year Findings and Questioned Costs - Continued

June 30, 2009

Major programs of University of Rhode Island include:

Grantor/pass-through grantor/program title	CFDA Number
Student Financial Assistance Cluster:	
Federal Supplemental Education Opportunity Grant Program	84.007
Federal Direct Student Loans (Note 2)	84.268
Federal Work Study Program	84.033
Federal Perkins Loan Program	84.038
Federal Pell Grant Program	84.063
Health Professional Student Loan Program	93.342
Nursing Student Loan Program	93.364
Academic Competitiveness Grants	84.375
National Science and Mathematics Access to Retain Talent Gran	t 84.376
Research and Development Cluster	Various

The dollar threshold to distinguish between Type A and Type B programs is \$9,500,000.

The University does not qualify as a low-risk auditee.

Findings and Questioned Costs Relating to Federal Awards

Finding number:

2009-1

Federal agency:

U.S. Department of Education

Programs:

Student Financial Assistance Cluster

CFDA #'s:

84.375

Award year:

2009

Condition/Criteria

In order for a student to qualify for an Academic Competitiveness Grant (ACG) they are required to have successfully completed a rigorous secondary school program. The University was unable to provide us with documentation evidencing that three of the forty students tested, aggregating \$3,900 of ACG funds, had completed such a program.

(a Component Unit of the State of Rhode Island and Providence Plantations)

Schedule of Current Year Findings and Questioned Costs - Continued

June 30, 2009

According to 34 C.F.R. Part 691.15, an institution must document a student's completion of a rigorous secondary school program of study using either documentation provided directly to the institution by the cognizant authority or documentation from the cognizant authority provided by the student. An example of a document that can satisfy the requirement is a high school transcript.

Cause/Effect

The cause of this condition has been attributed to the University's policy of maintaining high school transcripts for only the student's freshmen year. The three students for which the required documentation was unavailable were all sophomores.

Recommendation

We recommend that management of the University implement policies and procedures to ensure that the proper documentation is maintained to support the Academic Competitiveness Grant.

Questioned Costs

Questioned costs totaled \$3,900.

Views of Responsible Officials

The University concurs with the recommendation. The University acknowledges that it could not provide proof of an ACG student recipient's completion of a rigorous secondary school program of study. However, it should be noted that all potential ACG recipients were initially reviewed for eligibility before awarding the grant for their freshman year. While the Admission office did not retain these high school transcripts, they have since changed their business process, beginning with the 2008-09 academic year, to scan in all high school transcripts and save them on the University computer system.

Schedule of Prior Year Findings and Questioned Costs

June 30, 2009

Finding number:

2008-1

Federal agency:

U.S. Department of Education

Programs: CFDA number: Federal Pell Grant Program (Pell)

84.063

Award year:

2008

Condition/Criteria

Per OMB No. 1845-0039, institutions must report student payment data within thirty calendar days after the school makes the payment or becomes aware of the need to make an adjustment to previously reported student payment data or expected student payment data.

During the prior year test work, it was noted that twelve of thirty students' Pell disbursements tested were not reported to the Department of Education in a timely manner. The reporting occurred from one to forty-nine days past due.

Auditor's current year comment

This finding was corrected.

Finding number:

2008-2

Federal agency:

U.S. Department of Education

Programs:

Federal Family Education Loan Program (FFEL)

CFDA number:

84.032

Award year:

2008

Condition/Criteria

Per 34 CFR Section 668.165, "If an institution credits a student's account at the institution with Direct Loan, FPL, or FFEL funds, no earlier than 30 days before and no later than 30 days after crediting the student's account at the institution, the institution, must notify the student, or parent of (1) the date and amount of the disbursement, and (2) the student's right or parent's right to cancel all or a potion of that loan or loan disbursement and have the loan proceeds returned to the holder of that loan. The requirement on FFEL funds applies only if the funds disbursed by electronic funds transfer payment or master check."

Out of the eligibility sample of thirty students, six students' disbursements notifications tested did not agree to the underlying student accounting records. We noted second disbursements were described in the student letters in cases where there was not a disbursement; variance between the subsidized and unsubsidized classifications in the letters; incorrect dating one letter; multiple

(a Component Unit of the State of Rhode Island and Providence Plantations)

Schedule of Prior Year Findings and Questioned Costs - Continued

June 30, 2009

incorrect letters being received by the same student; and incorrect numbers of loans communicated to students.

Auditor's current year comment

This finding was corrected.

Finding number:

2008-3

Federal agency:

U.S. Department of Education

Programs:

Various

CFDA number:

Various

Award year:

2008

Condition/Criteria

Out of a sample of thirty students, four students Cost of Attendance (COA) tested were calculated incorrectly. In the exceptions noted, the students were not over-awarded aid.

Auditor's current year comment

This finding was corrected.

Finding number:

2008-4

Federal agency:

U.S. Department of Education

Programs:

Federal Work-Study Program (FWS)

CFDA number:

84.033

Award year:

2008

Condition/Criteria

Per 34 CFR 675.20, "(a) Eligible FWS employers. A student may be employed under the FWS program by – (1) The institution in which the student is enrolled; (2) A Federal, state or local public agency; (3) A private nonprofit organization; or (4) A private for-profit organization. (b) Agreement between institution and organization. (1) If an institution wishes to have its students employed under this part by a Federal, state or local public agency, or a private nonprofit or for-profit organization, it shall enter into a written agreement with that agency or organization. This agreement must set forth the FWS work conditions. The agreement must indicate whether the institution or the agency or organization shall pay the students employed, except that the

(a Component Unit of the State of Rhode Island and Providence Plantations)

Schedule of Prior Year Findings and Questioned Costs - Continued

June 30, 2009

agreement between an institution and a for-profit organization must require the employer to pay the nonfederal share of the student".

Out of a sample of 30 off-campus Federal work-study students, fifteen of the students tested did not have written agreements with their employers.

Auditor's current year comment

This finding was corrected.

Notes to the Schedule of Expenditures of Federal Awards

June 30, 2009

Note 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activities of University of Rhode Island (the "University") (a component unit of the State of Rhode Island and Providence Plantations) and is presented on the accrual basis of accounting.

For purposes of the Schedule, federal awards include all grants, contracts, and similar agreements entered into directly between the University, agencies, departments of the federal government, and all subawards to the University by nonfederal organizations pursuant to federal grants, contracts, and similar agreements.

Note 2 - Federal Direct Student Loans Program

The University disbursed \$77,039,611 of loans under the Federal Direct Student Loans program which includes Stafford Subsidized and Unsubsidized Loans and Parents' Loans. It is not practical to determine the balances of loans outstanding to students of the University under this program as of June 30, 2009. The University is responsible for the performance of certain administrative duties and, accordingly, these loans are not included in the University's financial statements.

Note 3 - Federal Perkins, Health Professional Student and Nursing Student Loan Programs

During the year ended June 30, 2009, \$534,879 in loans were advanced under the Federal Perkins Loan Program, \$271,400, in loans were advanced under the Health Professional Student Loan Program and \$25,300 were advanced under the Nursing Loan Program. As of June 30, 2009 loan balances receivable under the Perkins, Health Professional Student and Nursing Loan Programs were \$10,036,754, \$1,684,760 and \$1,420,202, respectively.
