

FRENCH IEP – Entering Class 2018 (graduation year 2023)

The BA program in French requires a minimum of 30 credits (excluding FRN 101 and 102). Of the 30 credits in French, six must be at the 400-level, and of these six, three must be a literature course. It is highly recommended that IEP students take FRN 350 before going abroad in the 4th year.

Courses throughout this guide marked with an asterisk (*) are not required, however are strongly recommended. Please note you will need to pay a “credit overload” fee for each credit enrolled above 19 in any given semester (and need permission from your Dean’s Office to do so). Summer and Winter coursework similarly incur additional costs beyond your fall and spring semester tuition.

General Education Outcomes can be completed when possible, including while abroad (one FRN will cover outcomes A3 and C2)

Requirements for each College of Engineering majors can be found at: <http://uri.edu/engineering/students/program-curriculum-check-sheets/>

Freshman Year Fall Semester

FRN 103*	Intermediate French I	3
----------	-----------------------	---

Freshman Year Spring Semester

FRN 104*	Intermediate French II	3
----------	------------------------	---

* If starting at FRN 101 or FRN 102, plan on taking summer classes after the first year to accelerate your learning of French.

Sophomore Year Fall Semester

FRN 204	Composition I	3
---------	---------------	---

Sophomore Year Spring Semester

FRN 207	Oral Expression I	3
---------	-------------------	---

Junior Year Fall Semester

FRN 3XX**		3
-----------	--	---

Junior Year Spring Semester

FRN 350 or FRN 3XX**	Topics in French for Specific Purposes (French for Engineering)	3
-------------------------	--	---

** One of the 300-level courses needs to be either FRN 309 or FRN 310. Please note that at the end of the Junior Year, your proficiency level should be Intermediate-High on the ACTFL scale – if not you have to supplement your language classwork with tutoring, summer school etc. It will be at the discretion of the director to send you abroad in case you do not meet the recommended proficiency level.

FRN 2XX/FRN 3XX, 3 Cr - Intensive August Language class at UTC*

Semester Abroad

FRN2XX/3XX	French class	3
	General education course	3
	Engineering elective	3
	Engineering elective	3
	Engineering elective	3
		15

International Internship Semester

FRN 315/316	Language Study Abroad	6
<p>Note: This is a sample of the coursework you may be able to complete while abroad. You are responsible to complete all engineering requirements as outlined on the engineering curriculum sheet you are following. Credits completed abroad will vary by what is offered, eligibility, and your successful completion.</p> <p>Successful completion of at least four of the courses at the Université de Technologie de Compiègne will guarantee an internship placement through UTC. Anything less will put the internship in jeopardy.</p>		

Senior Year Fall Semester

FRN 4XX	Advanced Literature/Culture Course	3
---------	------------------------------------	---

Senior Year Spring Semester

FRN 4XX	Advanced Literature/Culture Course	3
---------	------------------------------------	---

Notes for Engineering Curriculum Adjustments:

Do not deter from the prescribed engineering curriculum sheet you are following unless confirmed with your engineering advisor. The following approved adjustments correspond to the engineering-specific curriculum sheet you are following:

Chemical Engineering: ECN 201 should most easily fit in the Sophomore Year Fall semester (although can be taken in any Fall or Spring semester, and is normally offered in the Summer). For Pharm Track, CMB 211 should be attempted in the Sophomore year Fall semester.

Civil Engineering: STA 409 should be attempted in the Junior Year Spring semester. 1 Professional Elective should be completed during your year abroad, or during a summer/winter term at URI. CVE 355 can be taken in the Senior Year Fall Semester (your 5th year, after you return from your year abroad).

Industrial and Systems Engineering: take MCE 201 in the Sophomore Year Fall Semester and ISE 240/241 in the Sophomore Year Spring Semester
