ITALIAN IEP – Entering Class 2019 (Graduation year 2024)

The BA program in Italian requires a minimum of 30 credits (excluding ITL 100, 101 and 102). You must take at least one ITL class in each semester. As an IEP student, you should take two classes in your Junior year, including ITL 305, or ITL 480, before going abroad for your 4th year. Please contact Professor La Luna to explore other options, such as taking only up to ITL 206, and/or ITL 301, ITL 302, before going abroad. Up to 3 credits from ITL 390 or ITL 395 (both courses are taught in English) can be used towards the major. You must take two 400-level courses in order to complete your Italian major. **Please note:**

- That at the end of the Junior Year, your proficiency level should be Intermediate-High on the ACTFL scale – if not you have to supplement your language classwork with tutoring, summer school etc. It will be at the discretion of the director to send you abroad in case you do not meet the recommended proficiency level.
- If you cannot participate in the URI Summer Program in Italy, and plan to stay in the US in the summer, it is highly recommended that you do an internship with a company in your engineering field

Courses throughout this guide marked with an asterisk (*) are not required, however are strongly recommended.
General Education Outcomes can be completed when possible, including while abroad (one ITL course will cover outcomes A3 and C2).
Requirements for each College of Engineering majors can be found at: http://uri.edu/engineering/students/program-curriculum-check-sheets/

Freshman Year Fall Semester

ITL 101 (or ITL 100)	Beginning Italian I (or Intensive Beginning Italian I & II)	3 (or 6)

Freshman Year Spring Semester

ITL 102 (or ITL 100)	Beginning Italian II (or Intensive Beginning Italian I & II)	3 (or 6)

Take ITL 103, 104 at the URI Summer Program in Calabria, Italy, to complete your major quickly and prepare you for your Year Abroad.

Sophomore Year Fall Semester

ITL 103	Intermediate Italian I	3

Sophomore Year Spring Semester

ITL 104	Intermediate Italian II	3

Take ITL 205, 206 at the URI Summer Program in Calabria, Italy, to complete your major quickly and prepare you for your Year Abroad.

Junior Year Fall Semester

ITL 205 ITL 301 or 302*	Conversation and Composition I and possibly Civilization or Italy I or II	3 or 6

Junior Year Spring Semester

ITL 206 ITL 305*	Conversation and Composition II and/or possibly Advanced Conversation and Composition	3 or 6

Take ITL 301, 302, 305* at the URI Summer Program in Italy to complete your major quickly and prepare you for your Year Abroad
Please notice that ITL 305* is a very important course, along with ITL 480*, to prepare you for your year abroad. You need a permission number from your instructor to take it together with ITL 205

Semester Abroad

ITL 2XX/3XX	Intensive Language Course	3 or 6
EGR 491/XXX	Engineering Course in Italian	3
ITL 4XX	Italian Literature, History, Culture Course in Italian	3
ITL 4XX	Italian Literature, History, Culture Course in Italian	3
GE XXX	General Education Outcome(s)	3

International Internship Semester

ITL 316, 317	Language Study Abroad	6

Note: This is a sample of the coursework you may be able to complete while abroad. For more information please visit our website https://web.uri.edu/iep/preparing-for-your-year-abroad-italian-iep/ . We require that during your year abroad, you take an Italian Language course and an Engineering course of your choice. For the rest, you can take any course that you need in order to complete your majors, including any General Education outcome(s). Credits completed abroad will vary by eligibility, what is offered, and your successful completion. Aside from the Intensive Language Course, you have to pass at least two courses in Italian at one of our partner universities in order to be eligible for one of the six-month internships, and to keep or extend your student visa status.

Senior Year Fall Semester

ITL 3XX/4XX	Advanced Literature/Culture Course	3

Senior Year Spring Semester

ITL 4XX	Advanced Literature/Culture Course	3

Credit overload: Please note you will need to pay a "credit overload" fee for each credit enrolled above 19 in any given semester (and need permission from your Dean's Office to do so). Summer and Winter coursework similarly incur additional costs beyond your fall and spring semester tuition.

Notes for Engineering Curriculum Adjustments:

</div>

Do not deter from the prescribed engineering curriculum sheet you are following unless confirmed with your engineering advisor. The following approved adjustments correspond to the engineering-specific curriculum sheet you are following:

Chemical Engineering: **ECN 201** should most easily fit in the Sophomore Year Fall semester (although can be taken in any Fall or Spring semester, and is normally offered in the Summer). For Pharm Track, **CMB 211** should be attempted in the Junior Year Fall semester, and **BIO 341** in the Senior Year Fall semester (your 5th year, after you return from your year abroad). **CMB 311** should be completed Sophomore year as outlined.

Civil Engineering: **STA 409** should be attempted in the Junior Year Spring semester. **1 Professional Elective** should be completed during your year abroad or summer/winter term at URI. **CVE 355** can be taken in the Senior Year Fall Semester (your 5th year, after you return from your year abroad).

Computer Engineering: **MTH 215** can be attempted in Sophomore or Junior year Spring (and is normally offered in the Fall and Summer)

Industrial and Systems Engineering: take **MCE 201** in the Sophomore Year Fall Semester and **ISE 240/241** in the Sophomore Year Spring Semester
