Select **Notifications** to customize notification settings and appointment reminder preferences.
Check Out Your Search Bar!

You can search for faculty and staff on campus that have appointment availability by typing their last name into the Search Bar above your success network. This is useful for those staff who do not display in your default connections.
Check Out Your Success Network!

Your success network will be the first thing you see when you login. Here, you can easily access faculty and staff you are connected with. Click on the three boxes next to their name to schedule an appointment, send them an email, or view their profile.

Services

Below your success network you will find services.

Under “Your Services” you will find services you are connected with, such as the option to change your major or minor.

Under “Other Services” you will find additional resources that might be helpful to you.
When you click on a service, it will bring you to a page where you can get an overview of what that service does, as well as the people there you can connect with. Just like in your Success Network, you can set up an appointment with the team members by clicking the three boxes, and then schedule.
In your Menu you can find your Dashboard. Here, you will see a Calendar with the appointments you set up, as well as any Notifications relevant to you. Below that you will see Connections and Services, which you can also view in your Success Network.
Your Dashboard

Scrolling further down in your Dashboard you can also view any Kudos raised for you by instructors telling you that you did a good job!
