

CHINESE IEP - Class of 2023 (entering Fall 2018)

The BA program in Chinese requires a minimum of 30 credits. You must take one CHN class in each semester, at least two 400-level CHN courses, and at least two Chinese/Asian culture courses from the following: HIS 171, 374; PHL 331; PSC 116, 377; RLS 131; THE 382

Please note you will need to pay a “credit overload” fee for each credit enrolled above 19 in any given semester (you will also need permission from your Dean’s Office to do so). Summer and Winter coursework similarly incur additional costs beyond your fall and spring semester tuition.

General Education Outcomes can be completed when possible, including while abroad (one CHN course will cover outcomes A3 and C2)

Requirements for each College of Engineering major can be found at: <http://uri.edu/engineering/students/program-curriculum-check-sheets/>

Freshman Year Fall Semester

CHN 101	Beginning Chinese I	3
---------	---------------------	---

Freshman Year Spring Semester

CHN 102	Beginning Chinese II	3
---------	----------------------	---

Sophomore Year Fall Semester

CHN 103	Intermediate Chinese I	3
---------	------------------------	---

Sophomore Year Spring Semester

CHN 104	Intermediate Chinese II	3
---------	-------------------------	---

Junior Year Fall Semester

CHN 205	Composition and Conversation I	3
---------	--------------------------------	---

Junior Year Spring Semester

CHN 206	Composition and Conversation II	3
---------	---------------------------------	---

Please note that at the end of the Junior Year, your proficiency level should be Intermediate-Low on the ACTFL scale – if not you have to supplement your language classwork with tutoring, summer school etc. It will be at the discretion of the director to send you abroad in case you do not meet the recommended proficiency level.

Semester Abroad

CHN 3XX/4XX	Chinese Course	4
CHN 3XX/4XX	CHN Reading	3
CHN 3XX/4XX	CHN Writing	3
	General Education Outcome(s)*	3
	General Education Outcome(s)*	3

International Internship Semester

CHN 497/498	Language Study Abroad	6
<p><i>Note:</i> This is a sample of the coursework you may be able to complete while abroad. Engineering majors on average satisfy one professional elective and one general education outcome while abroad that will apply to their BS requirements. You are responsible to complete all engineering requirements as outlined on the engineering curriculum sheet you are following. Credits completed abroad will vary by what is offered, your eligibility, and your own success.</p>		

Senior Year Fall Semester

CHN/EGR 413	Advanced Technical Chinese	3
-------------	----------------------------	---

Senior Year Spring Semester

CHN 4XX		3
---------	--	---

Preapproved Engineering Curriculum Adjustments:

Do not deter from the prescribed engineering curriculum sheet you are following unless confirmed with your engineering advisor. The following preapproved adjustments correspond to the engineering-specific curriculum sheet you are following:

Chemical Engineering: ECN 201 should most easily fit in the Sophomore Year Fall semester (although can be taken in any Fall or Spring semester, and is normally offered in the Summer). For Pharm Track, CMB 211 should be attempted in the Junior Year Fall semester.

Civil Engineering: STA 409 should be attempted in the Junior Year Spring semester (seek to complete 1 Professional Elective during your year abroad or during a Summer or Winter term at URI). CVE 355 can be taken in the Senior Year Fall Semester (your 5th year, after you return from your year abroad).

Industrial and Systems Engineering: enroll in MCE 201 in the Sophomore Year Fall Semester and ISE 240/241 in the Sophomore Year Spring Semester
