**ABOUT THE NON-PROFIT ADMINISTRATION DEGREE:**

The BS in Non-Profit Administration is designed to be an interdependent major that combines historical and theoretical understandings of non-profit and not-for-profit organizations' structural underpinnings; and applied understandings of their impacts on interrelationships between organizational behaviors; individual attitudes of multiple constituents (e.g., external partners and internal stakeholders). And, importantly, this unique major – addressing the gap in focus on nonprofit, not-for-profit, and quasi-market organizations – provides students opportunities to apply foundational and theoretical knowledge to applied internship experiences where clients will receive a research-based deliverable.
