General Education Courses

UNIVERSITY OF RHODE ISLAND 2005-2006

Students are to follow the General Education Program for the year they are admitted. A copy of each year's General Education Program can be found at www.uri.edu/facsen

The purpose of general education at the University of Rhode Island is to lay a foundation for the lifelong enrichment of the human experience and for a thoughtful and active engagement with the world around us. This foundation is built on recognition of the complex nature of the natural and human worlds. The objective of general education is to introduce students to the fundamental dimensions of this complexity and to build an appreciation of different ways of understanding it and different cultural responses to it. Two of the courses taken as part of a student's general education program must be selected from courses designated by a "D". Only one course in a foreign language may be applied to the diversity (D) requirement. A detailed description with updates of the general education policy can be found at: www.uri.edu/facsen.

Students should work with an academic advisor each semester for appropriate general education and major course selections.
