

ABOUT THE GENDER & WOMEN'S STUDIES DEGREE:

The BA program in Gender and Women's Studies uses feminist and interdisciplinary methods to teach, conduct research, and expand existing bodies of knowledge. Critical thinking, the production of theory, and the assumption of community and global responsibility are integral to these methods. GWS focuses on the interrelationship between the personal and political, supporting and promoting feminist teaching, learning, research, scholarship, creative activity, and professional and community service.
