ABOUT THE PHYSICS BS DEGREE-Interdisciplinary Track:

The BS in Physics-Interdisciplinary track provides preparation primarily for students who want to combine their physics degree with a degree in secondary education and/or in general are not planning to move on to graduate studies in physics. The curriculum provides a general background in both theoretical and experimental physics. The degree can also be used as a foundation for further study at the graduate level or for preparation for a career as a professional physicist in industry or government.

GENERAL EDUCATION GUIDELINES: General education is 40 credits. Each of the twelve outcomes (A1-D1) must be met by at least 3 credits. A single course may meet more than one outcome, but cannot be double counted towards the 40 credit total. At least one course must be a Grand Challenge (G). No more than twelve credits can have the same course code (note- HPR courses may have more than 12 credits). General education courses may also be used to meet requirements of the major or minor when appropriate.
